IT IS HEREBY STIPULATED AND AGREED by and between the attorneys for the respective parties herein, that filing and sealing be and the same are hereby waived.

IT IS FURTHER STIPULATED AND AGREED that all objections, except as to the form of the question, shall be reserved to the time of the trial.

IT IS FURTHER STIPULATED AND AGREED that the within deposition may be signed and sworn to before any officer authorized to administer an oath, with the same force and effect as if signed and sworn to before the Court.

800.DAL.8779 dalcoreporting.com

THE REPORTER: My name is Marci Loren Dustin, your remote court reporter. The parties are present via videoconference to take the deposition of Abhishek Jain, M.D., in the matter of Melissa Kaye against Health and Hospitals Corporation, et al. Today's date is October 4, 2021, and the time is 10:04 a.m. It is important that everyone speak one at a time, as delays do occur in transmission.

Please note that pursuant to CPLR 3113(d), the oath can be administered remotely by me.

Counsel, please state your name and who you represent and whether you stipulate to that authority; and the defending attorney, please agree that the witness is who they say they are.

MS. HAGAN: My name is Special Hagan. I'm here on behalf of Dr. Melissa Kaye, plaintiff.

MS. CANFIELD: Donna Canfield from the New York City Law Department on behalf of all the defendants. Dr. Jain is -- Dr. Abhishek Jain is the defendant in this action.

ABHISHEK JAIN, M.D.,

having first been duly sworn by the Notary Public
(Marci Loren Dustin), and stating his business address

1 as Office of Mental Health, 330 5th Avenue, New York, New York 10001, was examined and testified as follows: 2 3 MS. HAGAN: And just for the record, Dr. Kaye 4 is actually watching the deposition, just so that 5 6 we have full transparency. And Dr. Kaye is the 7 actual plaintiff in this matter. 8 9 **EXAMINATION** BY MS. HAGAN: 10 11 Good morning, Dr. Jain. Q. 12 Α. Good morning. 13 The reporter went over some of the Q. 14 admonishments that typically take place during a 15 deposition. I'm going to -- I'm going to go over some -- a few more housekeeping rules and introductory 16 17 questions. So I hope you don't mind. I'm not sure if 18 you've been deposed before, but they're pretty pro 19 forma. 20 The first thing I would like to ask is if 21 you've had any medication within the last 48 hours that 22 -- first off, have you had any medication in the last 48 23 hours? 24 MS. CANFIELD: Objection. You can answer.

You can answer, Dr. Jain.

A. No.

- Q. You haven't had any -- you haven't ingested any substances or beverages that would impair your ability to testify truthfully and honestly today?
  - A. No.
- Q. Okay. The reporter went over some basic introductory instructions. I'm just going to reiterate some of them and then, I guess, expand on them some. One of them would be for you to answer your question -- answer any questions that I may pose to you verbally. So if you -- you shouldn't shake your head or nod your head. You need to say yes or no, or I don't know. The reporter can't take down gestures.

She -- the reporter also mentioned that only one of us can really speak at a time, because she can only take down the voices of one person -- the voice of one person, so I'm just going to reiterate that. If you don't understand a question or you need me to repeat something, please be sure to ask me. If you don't, I'm going to assume that you understood, and we'll proceed accordingly; is that okay?

- A. Yes.
- Q. Okay. What I would also ask is that, you

1	know, at times I know there's been a significant
2	amount of time since some of the events in this
3	complaint has transpired. I'm going to ask you at times
4	to try and estimate. I don't want you to guess. But to
5	the extent that you can kind of estimate, I do have a
6	right to try to ask you to, you know, approximate or
7	perhaps to, I guess, kind of speculate not speculate,
8	but just kind of just like estimate sometimes when
9	things may have occurred, the quantity of things, the
10	distance of things. Just typical, I guess, quantitative
11	discussion. Is that okay?
12	A. I'll do the best I can, yes.
13	Q. Sure.
L4	Now, I'm going to ask you something pretty
15	basic. Have you ever been deposed before?
16	A. Yes.
<b>L</b> 7	Q. In what in what context?
18	A. As an expert witness.
19	Q. Okay. And what case was that?
20	MS. CANFIELD: Objection to form. You can
21	answer. You can answer, Dr. Jain.
22	A. Okay. There were matters of cases involving,
23	as an expert witness for guardianship case, for example,
2.4	as well as also in my capacity as a medical director in

8

24

hygiene?

1 the Office of Mental Health regarding an HR matter. 2 Those are two examples of cases. So you said an HR matter and a medical 3 0. director. And can you repeat the last portion of your 4 5 answer, please. I'm sorry. This was in my capacity as a medical 6 Α. Yes. 7 director with the Office of Mental Health. 8 Q. And -- and what was the name of that case? 9 Α. I'm not sure if I'm able to share that information. 10 Q. 11 Yes, you are. 12 MS. CANFIELD: I'm going to object. Perhaps, I can consult with Dr. Jain off the record, and we 13 can circle back to that question. I don't know 14 the circumstances of whether --15 16 MS. HAGAN: He said it was an HR matter. 17 Q. So were you a defendant, Dr. Jain? 18 Α. No. 19 Were you a witness? Q. 20 Α. I was an expert witness. Okay. You were an expert witness. 21 Q. 22 Α. Yes, in both of these matters. 23 Q. And this is the office of health and mental

1	MS. CANFIELD: Objection to form. You can
2	answer.
3	A. No. No. It's the Office of Mental Health.
4	Q. Okay. And this is a state agency, I take it?
5	A. Yes.
6	MS. CANFIELD: Objection to form. You can
7	answer.
8	Q. Now, you're saying that this is a state
9	agency. Is this where you currently work, Dr. Jain?
10	A. Yes.
11	Q. And how long have you been working at the
12	Office of Mental Health?
13	A. For about 16 months.
14	Q. So when did you start?
15	A. June 1st, 2020.
16	Q. And how did what's your exact title there?
17	A. Medical director of the division of forensic
18	services.
19	Q. How many staff do you manage?
20	A. I oversee forensic services, which
21	encompasses at least four forensic psychiatric centers,
22	as well as our correctional-based operations, providing
23	mental health treatment for state prisoners in New York.
24	So let's say, overseeing a large service. I don't

directly supervise specific individuals.

10

1

7

8

9

10

11

12

13

15

18

19

- Well, how many people are in the -- I quess, 2 Q. the forensic services division; it would be a 3 division --4
- MS. CANFIELD: Objection as to form. 5 6 answer.
- Α. Yeah. The services -- so we overlap. Our Office of Mental Health employs about 14,000 employees. And there's an overlap between the forensic services and the Office of Mental Health. I'm unable to state the exact number that fall under division of forensic services because there's an overlap. So overall, the Office of Mental Health employs 14,000 people. And that's -- that's our organization that I'm employed 14 with.
- 16 And what's your current -- what's your 17 current salary, Dr. Jain?
  - Α. 290,000 per year.
  - And what was your salary when you left CHS? Q.
    - I believe it was 221,000 per year. Α.
- And were you a -- how many W-2s did you 21 Q. 22 receive each year?
- 23 MS. CANFIELD: Objection as to form. You can 24 answer.

A. I believe I received one per year for my
employment with currently with Office of Mental
Health.
Q. Now, did you receive more than one W-2 for
your employment with CHS?
A. To the best of my knowledge, only one W-2.
Q. And who was the W-2 from?
A. New York City Health and Hospitals.
Q. Did you receive a W-2 from any other entity?
A. At the beginning, when I first started my
position with health and hospitals, the earlier part of
that year, I was working with Columbia University, and I
received a W-2 during my employment period prior to my
employment with Correctional Health Services.
Q. In what capacity were you working in at
Columbia?
A. I was in a forensic psychiatry research
fellowship.
Q. Now, I'm going to go back a little bit.
Where did you get your what was your highest level of
education? Let's start there.
A. I have a medical degree.
Q. From?
A. From Northeast Ohio University's College of

Medicine.

- Q. And when did you get that degree?
- A. 2006.
- Q. And did you do any fellowships at that time after you left?
- A. I did residency after medical school as a four-year residency at the University of Pittsburgh from 2006 to 2010. And then I also did two additional fellowships after that, one in forensic psychiatrist at Case Western Reserve University in Ohio from 2010 to 2011. And then a psychosomatic medicine fellowship at Cleveland Clinic, also in Ohio, from 2011 to 2012.
- Q. And where -- where did you first work once you completed your fellowships?
  - A. University of Pittsburgh Medical Center.
  - Q. And in what capacity did you work?
- A. I had multiple roles there. I was an assistant professor of psychiatry. I was also medical director of the forensic psychiatry services. I was initially associate program director of the forensic psychiatry fellowship, and then program director of the forensic psychiatry fellowship. And I was also medical director of the psychiatric consultation service at one of our regional hospitals called UPMC East.

1	Q.	Now, after you completed I guess you
2	worked ther	e from okay. Let's stop.
3		When how long did you work at the
4	University	of Pittsburgh Medical Center?
5	A.	Five years.
6	Q.	So you worked there from 2012 to 2017?
7	A.	Correct.
8	Q.	Okay. And then where did you work after
9	that?	
10	A.	Then I worked at Columbia University from
11	2017 throug	h to April of 2018.
12	Q.	Now, how did you hear about the job at CHS?
13	A.	This was something brought to my attention
14	from variou	s sources, including my mentor, Dr. Paul
15	Applebaum,	as well as forensic psychiatrists in the
16	community,	as well as a posting that was available
17	online from	correctional health services.
18	Q.	Did anyone from did anyone from MOCJ reach
19	out to you	about this job?
20	A.	No.
21	Q.	Anyone from City Hall?
22	A.	No.
23	Q.	Did you know any of the defendants prior to
24	working at	CHS?

- A. Can I clarify specifically the defendants?
- Q. Yes. So they would be Dr. Ford, Dr. Yang,
  Mr. Wangel.

answer.

- A. Okay. Yes. Dr. Ford, I had interacted with a few times at national conferences.
- Q. And how often -- you said "a few times." How close to the time that you were hired at CHS, and I guess the time that you may have last interacted with Dr. Ford prior to being hired, what was the time period?

  MS. CANFIELD: Objection to form. You can
- A. I believe prior to my employment, I had some contact with her. I believe, phone communication, rather informal interaction. And then prior to that also, interacted at the -- at a national conference in October, I believe, 2017.
- Q. So did Dr. Ford reach out to you about -- about, I guess, working in this particular position at CHS?
- A. I believe, as I recall, it was more mutual.

  People had made me aware. And I had reached out to her,

  and she had also reached out to me.
- Q. And then who did you interview with once you,
  I guess, went through the process?

1	A. Yes. So I interviewed, as I recall, with Dr.
2	Ford, Dr. Ross MacDonald, Dr. Alex Garcia-Mansilla, and
3	Dr. Liz Owen.
4	Q. I'm going to ask you some questions to follow
5	up. Did you know Dr Dr. MacDonald beforehand?
6	A. No.
7	Q. Dr. Garcia-Mansilla?
8	A. No.
9	Q. Dr. Owen?
10	A. No.
11	Q. Dr. Katz?
12	A. No.
13	Q. And you didn't know Dr. Yang?
14	A. No.
15	Q. Okay. So you only knew Dr. Ford before
16	working at CHS?
17	A. That's correct.
18	Q. Okay. And what were you told the position
19	was going to entail when you were interviewed? Do you
20	remember?
21	MS. CANFIELD: Objection as to form. You can
22	answer.
23	A. Yes. Overall, I was made aware this is a new
24	position, and it would be involved with overseeing the

four forensic psychiatry court clinics that serve the five boroughs of New York City. And the position was to oversee these court clinics that serve the 730 competency to stand trial evaluations, as well as 390 pre-sentencing evaluations that serve the court system of New York City.

Q. Now, prior to working in your former capacity as medical director of the forensic psychiatry -- psychiatric court clinics, had you done any 730 examinations yourself?

MS. CANFIELD: Objection to form. You can answer.

- A. The 730 examinations are competency to stand trial evaluations. And yes, I had done competency to stand trial evaluations prior to my position.
- Q. And was this during your -- your fellowship or afterwards?
- A. I had performed competency to stand trial evaluations in Ohio and in Pennsylvania, both during training and in -- in my employment positions there.

  Their statute is not called 730, of course, but they're comparable examinations in those states.
- Q. I mean, do they adhere to the precedent Dusky?

1	A. Yes.
2	MS. CANFIELD: Objection. Put in an
3	objection after that last question, please.
4	MS. HAGAN: And for the record for the
5	record, the deponent said yes. And that was
6	and my question pertained to the Dusky precedent.
7	And Dusky's spelled D-U-S-K-Y.
8	Q. So so Dr. Jain, you said that you
9	performed, I guess, the equivalent of competency exams
10	during your training and employment status employment
11	prior to coming to CHS; is that right?
12	A. Yes.
13	Q. And how many would you say you did before you
14	started working at CHS?
15	A. I would have to estimate, but at least 600.
16	Q. And these are competency to stand trial?
17	A. Yes.
18	Q. And do they they require two examiners?
19	A. In Ohio and Pennsylvania, no, they do not
20	require two examiners. In New York, they do.
21	Q. So how did the competency to stand trial
22	evaluation evaluations differ in Ohio and
23	Pennsylvania than they do in New York?
24	A. Sorry

18

24

1	MS. CANFIELD: Objection as to form. You can
2	answer.
3	A. May I modify a previous response I gave
4	Q. Sure.
5	A regarding the number of examinations?
6	I also oversaw a forensic psychiatry
7	fellowship program in Pennsylvania and provided
8	oversight of our trainees who did competency to stand
9	trial evaluations. So my number of, at least, at 600 as
10	an estimate were ones that I did directly myself. Also,
11	in addition to that, I did numerous different types
12	of capacity evaluations for patients and forensic
13	examinees throughout my career.
14	Q. Now, I was asking you earlier and thank
15	you for the clarification. I was asking you earlier how
16	did those exams that you administered in Ohio and
17	Pennsylvania differ from the 730 competency exams that
18	you administered, or at least presided over in
19	presided over here in New York?
20	MS. CANFIELD: Objection to form. He can
21	answer.
22	A. Yeah. There are each jurisdiction, each
23	state, each court system has different procedures

involved with competency to stand trial evaluations.

Two -- for example, two key differences from New York compared to other states, is that New York, by statute, requires two exam -- two examiners for competency to stand trial evaluations. And at Number 2, another example is that individuals who are found not competent or unfit or facing misdemeanors in New York State, their case is essentially dismissed, and they're sent for treatment instead. Whereas, misdemeanors in Ohio and Pennsylvania were not dismissed after finding of incompetence.

Q. Now, were any, I guess, objectives conveyed to you when you interviewed or when you started the position as medical director?

MS. CANFIELD: Objection to form. He can answer.

A. Yes. Generally speaking, both my own vision, as well as the objectives of the position itself, involved the consolidation of the four court clinics to provide some consistency across the city. Also, to have a efficient process to have examinations conducted for the court system and for inmates waiting for their examination, namely, at Rikers. And also, to maintain the integrity and objectives and ethics of our field in the court clinics as well. And that was an important

component of this to maintain the accuracy, quality, and ethics of our work in the court clinics.

- Q. At any point, was it conveyed to you that the
  -- the mayor wanted to close Rikers Island at any cost?

  MS. CANFIELD: Objection to form. You can
  answer.
- A. If I understand the question, generally, what was publicly known, that there was a intention and a goal towards closing Rikers from the mayor's position.
- Q. Did that -- did that goal manifest itself in how CHS operated?
  - MS. CANFIELD: Objection to form. He can answer.
- A. So CHS, essentially, was the broad umbrella overseeing the court clinics. Our forensic psychiatric evaluation court clinics, our goal was to serve the court system to efficiently have examinations completed. And again, to maintain the integrity and quality of our work, so we can render an objective evaluation for the court system. That was not directly connected to Rikers closing in that context.
- Q. When you mentioned efficiency, what do you mean by that?
  - A. Yeah. So many times, not only in New York,

1 but throughout the country, many inmates wait for their 2 competency to stand trial evaluations, wait for court orders, wait for their case to be heard in court. 3 often times, they're waiting lengthy periods for their 4 5 case to be processed. And in order to avoid those delays and inefficiencies in the system, that was our --6 7 one of our goals, to reduce that inefficiency across the system; so that inmates are not languishing, 8 9 unnecessarily waiting for their examinations and court 10 dates. 11 Now, Dr. Kaye raised a number of issues with the administration of forensic evaluations while you 12 13 were there. You're aware of that; right? 14 MS. CANFIELD: Objection as to form. 15 answer. 16 Α. I believe so, yes. 17 Q. For example, Dr. Kaye raised -- raised 18 concern about, I guess, the use of redacted medical records. 19 Do you recall that? 20 MS. CANFIELD: Objection. You can answer. 21 I had -- we had some discussions Α. 22 regarding medical records when they needed to be 23 appropriately obtained in the course of doing our 24 examinations for the courts. And one concern that was

raised, was that the records that were being sent to the examiners were redacted. For example, removing information regarding HIV and substance use. And so in order to do the examinations, we also agreed that in many circumstances, substance use and HIV would be important information for the examiners to have in order to render a diagnosis and an opinion regarding their examination. And at times, there was some -- also resistance from judges to sign orders to release un-redacted records to the examiners. So this was a discussion that we had during my -- my time with CHS.

Q. At any time, did CHS approach the courts with the proposal of using redacted medical records instead of un-redacted records?

MS. CANFIELD: Objection to form. You can answer.

- A. I'm sorry. Can you clarify the question?
- Q. At any point, did CHS management or legal or both, approach the judges pertaining to the usage of redacted medical records rather than un-redacted medical records?

MS. CANFIELD: Objection. You can answer if you can.

A. Yeah. I'm not sure what discussions others

had on the matter. My involvement was to discuss when 1 2 it might be necessary to have those records and why they would be important to have for us and in what 3 circumstance. And also, to communicate the times when 4 5 we think that that information would be important to render an opinion, and for the examiners to be able to 6 7 do their -- to serve the courts by conducting these examinations. 8 Did you ever work in conjunction with CHS's 9 10 management to engage any judges to, I guess, use the -use redacted medical records instead of un-redacted 11 medical records? 12 13 MS. CANFIELD: Objection as to form. Asked 14 You can answer again. and answered. 15 0. I guess -- I guess I would ask yes or Yeah. 16 no. 17 MS. CANFIELD: Objection. You can answer if 18 you're able. Can you repeat the question. I will see if I 19 20 can answer as a yes or no. 21 Yes or no. Did you participate in any 22 efforts by CHS to, I guess, develop a form where redacted medical records would be used instead of 23 24 un-redacted medical records?

MS. CANFIELD: Objection as to form. Again,

I don't know if it's a yes-or-no response, but you

can answer if you're able.

- A. Yeah. I'm not sure if I can answer that as a yes or no.
  - Q. Okay. Well, how would you answer it then?
- A. Each borough, each case sometimes would have a unique circumstance. And at times, if the judges were resistant to signing an order for un-redacted records, full records, then there may be a consideration where they would be able to sign a redacted record. But that was determined case by case, and often in consultation with the examiners and the directors to see what information might be necessary, and if -- if redacted would be sufficient or un-redacted would be sufficient. However, on balance, we would make an effort to try to obtain un-redacted records so that the examiners could have the information if they needed for their examinations.
- Q. Did CHS ever seek to provide redacted medical records that basically redacted HIV substance use -- substance use? And what was the other area that the redacted medical records would, I guess -- I guess obscure?

1	MS. CANFIELD: Objection. Compound. You can
2	answer if you're able.
3	A. So for the second question I was asked, I
4	believe HIV and substance abuse were the two main types
5	of information that were redacted taken out from
6	blacked out from the record.
7	Q. Is that something that CHS pursued, or was
8	this something that the court pursued?
9	MS. CANFIELD: Objection as to form. You can
10	answer. Asked and answered.
11	A. Yes. To the best to the best of my
12	understanding, there were two components to this.
13	Because these were medical treatment records, CHS and
14	Rikers had an interest of making sure that those records
15	were appropriately disclosed for non-treatment purposes.
16	And then also, some judges had expressed reluctance,
17	either through the judges or through defense attorneys,
18	about having full records disclosed for the competency
19	to stand trial evaluations. So in certain
20	circumstances, the judges or CHS would determine that
21	the HIV and substance use information was not material
22	to a competency to stand trial evaluation. But that was
23	often case by case. And again, we made efforts to try
24	to have the full records that were un-redacted in the

cases that we were trying to obtain records.

- Q. Did CHS ever make the determination that HIV and substance use information were not, I guess, necessary to make, or to, I guess, engage in a full evaluation?
- 6 MS. CANFIELD: Objection. Asked and 7 answered. He can answer again.
  - A. I'm not sure if CHS ever made that determination. I know there were discussions about what would be appropriate and able to be disclosed also by law.
- Q. Did -- did Dr. Kaye ever raise those
  objections with you as far as the use of redacted
  medical records?
  - A. Yes.

# ABHISHEK JAIN, M.D.

And we worked with our CHS legal counsel, as well as with judges, to see what type of legal language, what type of reasoning and any information we need to share, so that the judges would be able to sign over -- would sign an order to release full un-redacted records. was in support of this when Dr. Kaye brought this up. It was Dr. Kaye's position that un-redacted Q. medical records were always required. Did you agree with that? MS. CANFIELD: Objection as to form. There's no foundation, but you can Speculation. answer. Yeah. I don't think I can answer that as an Α. always. So okay. It's your position that there are circumstances where an examiner or evaluator would not need or should not obtain un-redacted medical records; is that the case? MS. CANFIELD: Objection as to form. Asked and answered. He can answer again. If an examiner believes that that Α. information is important for them to render an opinion, or there's relevant HIV or substance use information,

then I would not oppose that. I would support the

examiners and the directors if they needed that information.

- Q. Now, Dr. Kaye alleges that she was treated differently than when Dr. Winkler made the similar, I guess -- or advocated similarly for the use of un-redacted medical records. Would you agree or disagree?
- 8 MS. CANFIELD: Objection as to form. You can answer.
  - A. To my recollection, I don't think we treated those requests differently. And I'm not sure what manner.
- Q. And she also made the same assertion as it pertained to Dr. -- Dr. Mundy and to Dr. Ciric.
  - MS. CANFIELD: Objection as to form. You can answer if you're able.
  - A. I did not work with Dr. Ciric.
- Q. Did you work with Dr. Colley?
- 19 A. No.

28

1

2

3

4

5

6

7

10

11

12

15

16

- Q. Okay. So you just worked with Dr. Mundy and Dr. Winkler; right?
- 22 A. Yes.
- Q. And they both expressed similar concerns as
  far as the usage of redacted medical records. They both

1 were -- they both opposed the usage of redacted medical records. Dr. Kaye alleges that she was treated 2 3 differently for objecting than they were. Would you agree or disagree? 4 5 MS. CANFIELD: Objection. No foundation for 6 your assertions, but you can answer if you're 7 able. I don't believe that we treated those 8 9 requests differently, necessarily in any manner. When 10 those requests were requested by our examiners or 11 directors, we would look at the request and discuss them 12 similarly among all the directors and examiners. 13 And you would disagree with the Q. representation that Dr. Kaye experienced retaliation 14 15 when she raised these concerns with CHS management? MS. CANFIELD: Objection as to form. 16 17 answer. 18 Can you repeat the question? Sorry. 19 0. The question was: You would disagree with 20 Dr. Kaye in her assertion that she experienced -- she 21 experienced retaliation when she raised concerns about the redacted medical records to CHS management? 22 23 MS. CANFIELD: Objection as to form. You can 24 answer.

A. Yes. I would disagree with that. There was no retaliation for those types of requests.

18

19

20

21

- Q. Now, I just wanted to kind of give you -- I just kind of get an idea as to where and how you functioned within CHS. So who was your immediate supervisor, Mr. -- Dr. Jain? I'm sorry.
- 7 A. For the majority of the time, it was Dr. 8 Elizabeth Ford.
  - Q. And when was she your supervisor?
  - A. From April 2018 through -- I believe, she left that position in December of 2019.
    - Q. She didn't leave in February of 2020?

      MS. CANFIELD: Objection to form. You can answer.
  - A. That may have been correct. I knew it was either end of 2019 or towards the beginning of 2020. So I don't have the exact date in front of me, but it was around that period.
  - Q. And then, after Dr. Ford left, who became your supervisor -- your direct supervisor?
    - A. Dr. Ross MacDonald.
    - Q. And what was Dr. MacDonald's title?
- 23 A. I believe it was chief medical officer for 24 correctional health services.

1	Q. During your time at CHS, did you receive any
2	promotions?
3	A. No. I don't think I would necessarily call
4	them promotions. After Dr. Ford left, the
5	organizational chart changed, but it was not a formal
6	change in positions or titles.
7	Q. Did you receive any increases in salary?
8	A. I believe we received the standard increase
9	in salary that was given to all employees similarly. Or
10	at least to my knowledge, it was part of the standard
11	increase annually.
12	Q. When did you start out when you were hired at
13	CHS; what was your salary?
14	A. As I recall, it I believe it was 200 and
15	216, I believe. It may have been 221. I don't
16	recall if my salary increased from 221 or increased from
17	221 afterwards, but it was around that number.
18	Q. Okay. And then your salary increased to 221
19	by the time you left; is that right?
20	MS. CANFIELD: Objection to form. You can
21	answer.
22	A. I believe so.
23	Q. Now, who did Dr. Ford report to when she was

your supervisor?

- A. I believe she reported to Dr. Ross MacDonald.
  - Q. And who did Dr. MacDonald report to?
  - A. I believe he reported to Dr. Patsy Yang.
- 4 Q. And then, I guess, Dr. Yang reported to Dr.
- 5 Katz; is that right?

32

2

3

10

11

12

13

14

15

16

- 6 A. As I understand, yes.
- Q. Okay. Now, when -- when Dr. MacDonald became your direct supervisor; what was the time period for that?
  - A. I believe it was after Dr. Ford left, and then also prior to when I left, so as you mentioned earlier, Dr. Ford left in February of 2020. It was from February of 2020 through the end of May 2020.
  - Q. There was never a time when there were two interim directors that served, I guess, as your immediate supervisor?
    - A. Yes, there was an interim director.
- Q. Who were they?
- A. It was Dr. Virginia Barber-Rioja, and I
  believe only her. She was the only interim director at
  that time.
- Q. Now, is Dr. Ri -- is Dr. Rioja a psychologist?
- 24 A. Yes.

1	Q. And does she provide treatment?
2	A. I believe she oversees the treatment services
3	for correctional health services. I'm not sure if she
4	provides direct treatment.
5	Q. Now, did there ever come a time when Dr. Kaye
6	raised concerned about Dr. Barber-Rioja being involved
7	in court clinics?
8	A. I'm sorry. Can you repeat that? I missed
9	the beginning of that.
10	MS. HAGAN: Strike that.
11	Q. So I was going to ask you some questions
12	about that, but let's just kind of move on to something
13	else.
14	I was looking at the we're talking about
15	the managerial structure. Were you ever evaluated
16	during the time you were at CHS?
17	MS. CANFIELD: Objection to form. You can
18	answer.
19	A. Yes.
20	Q. And who evaluate who gave you those
21	evaluations?
22	A. Dr. Elizabeth Ford.
23	Q. And how often were you evaluated?
24	A. I believe initially, at six months, and then

34

annually after that. 1 I call for the production of Dr. 2 MS. HAGAN: Jain's performance evaluations. 3 MS. CANFIELD: Put it in writing. We'll take 4 5 it under advisement. 6 DOCUMENT/INFORMATION REQUESTED: 7 8 9 Now, the six -- what was your rating for the Q. six-month evaluation? 10 11 Α. I don't recall. 12 0. What were your -- what were your ratings for the annual evaluations? 13 14 Α. I don't recall. 15 Has anyone ever filed a complaint of 0. 16 discrimination against you, Dr. Jain? 17 No. Prior to this matter, no. Α. 18 Has anyone filed a grievance against you? 0. 19 Α. No. 20 Q. So have you ever been sued before? 21 Α. No. 22 So I'm going to ask you some questions about Q. 23 just the stakeholders involved with CHS. For example, 24 my first questions deals with MOCJ. Can you explain who

1	they are?
2	MS. CANFIELD: Objection as to form. You can
3	answer if you're able.
4	A. My understanding is it's the mayor's office
5	of criminal justice.
6	Q. How often would you interact with MOCJ?
7	MS. CANFIELD: Objection to form. You can
8	answer.
9	A. The interactions would be occasional
10	throughout my employment there in meetings. So I would
11	estimate every few months or so.
12	Q. Now, what does the mayor's office of criminal
13	justice do, I guess, in relation to CHS?
14	MS. CANFIELD: Objection to form. You can
15	answer if you're able.
16	A. I don't think I'm able to answer that.
17	Q. Okay. MOCJ did MOCJ provide policy
18	guidance as to how CHS operated?
19	A. Not to my knowledge, no.
20	Q. Did Tasha Lloyd ever facilitate any meetings
21	with judges on your behalf or on on the behalf of Ms.
22	Swenson?
23	MS. CANFIELD: Objection to form. You can
24	answer if you're able.

36

24

0.

1 Α. Yes. Now, Tasha Lloyd worked at the Mayor's Office 2 Q. of Criminal Justice; right? 3 Α. Yes. 4 Q. Okay. 5 MS. CANFIELD: Objection to form. 6 7 Now, what was Tasha Lloyd's title; do you Q. recall? 8 9 Α. I don't recall. How often would you interact with Ms. -- Ms. 10 0. Lloyd? 11 12 MS. CANFIELD: Objection to form. You can 13 answer. To the best of my recollection, it was 14 15 perhaps every few months or as matters arose regarding the court clinic or other 730 evaluation issues. 16 17 Q. Did you go to a monthly workgroup meeting 18 with MOCJ? 19 I believe at the beginning, there were Α. 20 monthly meetings or periodic meetings. 21 And how was -- I'm sorry. 0. 22 Α. I don't recall the exact time period, but 23 there were, at the beginning, some meetings.

How often -- who -- first off, how -- who

1	determined which staff from CHS attended the MOCJ
2	meetings?
3	MS. CANFIELD: Objection to the form. You
4	can answer.
5	A. When those were those meetings were
6	started prior to my employment with CHS. And my
7	understanding was that there was already a mailing list
8	with different individuals. And I'm not sure who
9	created that initial invitation list.
10	Q. But you attended these meetings until
11	A. Yes.
12	Q until the work group was disbanded; right?
13	A. Yes. I would make an effort to attend those
14	meetings.
15	Q. When did the work group disband?
16	MS. CANFIELD: Objection as to form. You can
17	answer.
18	A. I don't recall.
19	Q. Now, did did the court clinics have a
20	budget?
21	A. Yes.
22	Q. What was that budget?
23	A. I don't know.
24	Q. Did you preside over the budget?

38

1

4

5

6

7

8

9

10

11

12

13

17

18

20

24

A. No.

Q. Did you hire anyone while you were working at CHS?

- A. I was involved in the hiring process, yes.
- Q. And who were you -- and what hires were you involved with?
- A. I don't recall all the hires I was involved with, but it was during the period from April 2018 through the end of May 2020. During my employment, I was involved with the hiring during that period.
- Q. So let's -- let's start. Did you participate in the hiring of Dr. Winkler?
  - A. Not in the hiring, no.
- Q. Dr. Winkler was promoted right before you
  started. So did you play a part in his promotion?

  MS. CANFIELD: Objection as to form. You can
  - A. No.

answer.

- Q. Okay. So what role did you play in Dr.
- 21 director to a director of -- of court clinic?
- MS. CANFIELD: Objection as to form. You can answer if you're able.

Winkler's, I guess, transition from being a deputy

A. Yeah. As the director of the court clinics,

1	I provided supervision and oversight of Dr. Winkler.
2	Q. Now, you said that you participated in the
3	hiring process. Did you hire anyone else besides Dr.
4	Winkler? Let's say, for example, did you hire Dr.
5	Brayton?
6	MS. CANFIELD: Objection as to form. You can
7	answer.
8	A. I just want to clarify the beginning of that.
9	I actually was not involved in the hiring of Dr.
10	Winkler.
11	Q. Okay. You were basically involved with just
12	him transitioning into his new role; is that right?
13	A. Yes, that's correct.
14	MS. CANFIELD: Objection. You can answer.
15	A. Yes, that's correct.
16	Q. Okay. And then I asked you if you
17	participated in the hiring of Dr. Brayton. Did you?
18	A. Yes.
19	Q. And Dr. Brayton initially worked at the
20	Brooklyn Court Center; right Court Clinic?
21	MS. CANFIELD: Objection to form. You can
22	answer.
23	A. She was hired for the Bronx Court Clinic, but
24	she initially spent a few months at the Brooklyn Court

Clinic.

40

1

2

22

23

- Q. Why was that?
- Any new hire that comes in, they initially 3 Α. have a period of training, period of getting used to the 4 5 procedures of the court clinic. And in this context, Dr. Winkler also offered to provide supervision. 6 7 also in discussion with Dr. Kaye, it was decided that it 8 would be helpful to have Dr. Brayton for a few months in 9 the Brooklyn Court Clinic, so she could get used to the procedures. Dr. Winkler had also, prior to that, been 10 in the Bronx Court Clinic, so he would be able to 11 provide direct information, education regarding the 12 13 Bronx Court Clinic. And also, Dr. Winkler is a psychologist, just like Dr. Brayton. So they would also 14 15 have that common training background and educational 16 background. So Dr. Winkler could also show her specific 17 things such as conducting psychological testing in the 18 court clinics and for 730 purposes. So there were 19 multiple reasons and multiple different discussions 20 regarding why it would be useful to have her start in 21 the Brooklyn Court Clinic first.
  - Q. Now, were you aware that Dr. Kaye hired Dr. Winkler?
    - MS. CANFIELD: Objection as to form. You can

answer. No foundation. 1 I'm not sure if I was aware that Dr. Kaye 2 hired Dr. Winkler. 3 Were you aware that Dr. Kaye trained Dr. 4 5 Winkler? 6 MS. CANFIELD: Objection as to form. You can 7 answer. I'm not sure if Dr. Kaye trained Dr. Winkler. 8 Are you aware that Dr. Kaye had 20 years of 9 0. experience working at the court clinics? 10 11 Α. Yes. 12 MS. CANFIELD: Objection as to form. You can 13 answer. And you were aware that Dr. Kaye was the most 14 15 senior, I guess, court center director? 16 I know that she had been in that position for 20 or so years. And I don't recall if she had been the 17 18 longest serving one of the court clinic directors, but I 19 know that she had over, you know, 20 or so years of 20 experience. 21 The other court -- let's try to go over the 22 other court clinic directors at the time. Dr. Mundy, 23 did he have as much experience as Dr. Kaye? 24 Α. He had not as many years as a court clinic

director as Dr. Kaye.

Q. Okay. Did he have as much professional experience as Dr. Kaye, post-fellowship, post, I guess -- what do you, guys, call it? Post-fellowship and post-residency?

MS. CANFIELD: Objection as to form. You can answer.

- A. Yeah. So in terms of his experience, he -the psychiatrist, forensic, a trained psychiatrist also
  had other medical training and background. So I know he
  had extensive experience. In number of years, I would
  say that Dr. Kaye had more experience than Dr. Mundy,
  but I can't speak to each of the specific experience -experiences each of them had.
- Q. Were any of your other -- were any of the other directors triple board certified when you started at CHS?
- MS. CANFIELD: Objection as to form. You can answer.
  - A. Can I clarify if you're referring to the directors?
    - Q. The directors of the court clinics, yes.
- A. Yes. So when we say "board certified,"

  that's specifically referring to psychiatrists in this

context. So Dr. Mundy was also triple board certified in psychiatry, three areas of psychiatry.

- Q. Was this the case when you started at CHS, or did this happen as time progressed?
- A. No. He had three board certifications prior to my employment with CHS.
  - Q. Do you recall what they were in?
- A. I recall they were in general psychiatry, forensic psychiatry, and psychosomatic medicine.
- Q. Okay. And do you recall what Dr. Kaye's certification -- certifications were in?
- A. Yes. I believe they were in general psychiatry, forensic psychiatry, and child and adolescent psychiatry.
- Q. Now, I'm going to go back into your -- into our stakeholders just to kind of get an idea as to how the court clinics functioned in the community. Now --
  - A. Sorry. May I modify one response?
- 19 O. Yes, sir.

A. So you're asking about Dr. Mundy's board certifications. I know he's been trained in those three areas that I mentioned. And I know he's board certified in general psychiatry and forensic psychiatry. I just want to clarify that I'm not -- and I know at one point,

44

24

can answer.

1	he was certified in psychosomatic medicine, but I can't
2	speak to if he was still actively board certified in
3	that area. So I just wanted to make that distinction.
4	Q. Okay. So thank you.
5	I wanted to kind of go into, I guess, your
6	I guess CHS's relationship with the defense community.
7	For purposes of this lawsuit, what defense community
8	organizations did CHS engage for the Bronx?
9	MS. CANFIELD: Objection as to form. In
10	purposes of this lawsuit?
11	Q. Well, I'm talking about the Bronx legal
12	defense community, what organizations did CHS engage?
13	MS. CANFIELD: Objection as to form. You can
14	answer.
15	A. Yeah. I'm not entirely sure what "engage"
16	would mean here. What I can say is that the Bronx Legal
17	Aid Society and Bronx Defender Services, their clients
18	were seen by our court clinic in Bronx.
19	Q. Uh-huh. (Indiscernible) in this lawsuit. How
20	did you engage the Legal Aid Society?
21	MR. HAGAN: Strike the remainder of the
22	uh-huh comment.
23	MS. CANFIELD: Objection to the form. You

1

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

Α.

Α. Yeah. So Legal Aid Society was involved with a lot of the meetings prior to my involvement with correctional health services, including -- as well as the district attorneys, assistant district attorneys, and the judges and court system, because we serve the courts system. And so their involvement in each borough as the pilot and as the court clinics were being developed, they had -- the Legal Aid Society had one attorney, at least appointed to each of the boroughs to sit in on defendants who were represented by Legal Aid Society and who were facing 730 or 390 examinations. Now, I guess I would ask you, we talked about 0. Dr. Winkler transitioning from the Bronx Court Clinic as a deputy director to the Brooklyn Court Clinic as director. When did Dr. Brayton -- when -- okay. Doctor -- Dr. Kaye basically alleges that the center was understaffed between April and December of 2018. Would you agree -- would you agree or disagree with that? MS. CANFIELD: Objection to form. You can answer. From what time periods again? Α. From April 2018 to December 2018. Q.

During that time, I know that we were working

on hiring more staff in the clinic to provide

800.DAL.8779 dalcoreporting.com

examinations. And we, at different times, needed to provide additional staffing for cases to be seen during that time.

- Q. Was Dr. Kaye the only full-time examiner at that time -- or evaluator at that time, I should say?

  MS. CANFIELD: Objection to form. You can answer.
- A. From April of 2018 through December -- until, I believe, December of '18, we had part-time examiners there in addition to Dr. Kaye. And we also had other examiners from other boroughs who had provided examinations there. So I do believe during that time period, Dr. Kaye may have been the only full-time psychiatrist there.
- Q. So during that time period, Dr. Kaye was the only one who could -- I mean, during that time period, 730s, there was a challenge to get them done. Would that be accurate?
- MS. CANFIELD: Objection to form. You can answer.
  - A. At times, yes.
  - Q. Okay. And what were those challenges?
- 23 A. Scheduling challenges to have the defendants 24 produced on days when Dr. Kaye and other examiners would

be available. Also, scheduling challenges when public defenders, such as Legal Aid Society attorneys would need to be sitting in on the examinations as well. And then there were other examiners -- other challenges that were outside of our control, such as defendants being able to be produced to the court clinic. And for example, some transportation issues at times or production issues or refusals from defendants. So there were various challenges during that time that their examination's completed.

- Q. Was the representation ever made to Dr. Kaye that Dr. Winkler would not assume a full-time position at the Brooklyn Court Clinic until another full-time replacement had been hired for her clinic?
- MS. CANFIELD: Objection as to form. You can answer.
  - A. Not to my knowledge. I'm not sure if that specific statement was made, but not to my knowledge.
  - Q. Now, just for purposes of just clarity, did

    CHS take over the court clinics all at the same time, or

    was it like -- was it a staggered process?
  - A. Yeah. As I recall, it was a staggered process. The first phase was in April of 2018 when the Brooklyn and Queens Court Clinics were brought under

And then I believe in July 2018 is when the 1 Manhattan and Bronx Court Clinics were brought under 2 CHS. 3 Now, during the early part of your ten-year 4 0. 5 at CHS, didn't Dr. Kaye complain to you about pay parity? 6 7 MS. CANFIELD: Objection as to form. You can answer. 8 9 At which period? Α. Well, I would say about April 19th, 2018, did 10 0. Dr. Kaye complain to you about a gender -- gender-based 11 12 pay parity? 13 I knew there were those matters that were of Α. concern that were brought up and that were being 14 15 resolved through CHS through HR and labor prior to my employment with CHS. And my understanding was also that 16 17 those were issues that pre-dated CHS as well. 18 0. But Dr. Kaye was eventually -- the Bronx Court Clinic was eventually, I guess, absorbed by CHS; 19 20 isn't that right? MS. CANFIELD: Objection to form. You can 21

23 A. Yes.

answer.

22

24

48

Q. And that took place in about July of 2018; is

that right?

employment?

1

2

8

14

15

16

17

- A. That's correct.
- Q. And so I guess I would like to kind of ask
  again: Do you recall an email that Dr. Kaye sent to Dr.
  Yang, yourself, and Dr. Ford and some other CHS
  management that further elaborated on the pay parity
  issues that she identified that came along with her
- 9 A. I believe so.
- Q. And what did you do when you learned of Dr.

  Kaye's complaint?
- MS. CANFIELD: Objection as to form. You can answer.
  - A. So I acknowledged that this was brought forward, and also made sure to inform the appropriate individuals who could help resolve the matter. This would be our HR and labor.
- Q. And who in HR -- who in HR would have been the appropriate person to address the issue?
- A. So my main contact person was, at that time,

  21 Jessica Laboy.
  - Q. And what was Ms. Laboy's position?
- A. I don't know her exact title.
- Q. Was Ms. Laboy responsible for hiring -- I

50

23

24

1 mean, CHS's hiring? MS. CANFIELD: Objection to form. You can 2 3 answer. Α. Yeah. She was involved in the hiring 4 5 procedures. And you said that you put Dr. Kaye in contact 6 0. 7 with Ms. Laboy in order to address her issues? 8 Α. Yes. 9 And do you know what happened after you put 10 Dr. Kaye in contact with Ms. Laboy? 11 Α. I had her in contact with Ms. Laboy, as Yes. well as our labor relations. And at that point, that 12 13 was a matter I knew that they needed to resolve. I wasn't aware of the details or where things were in the 14 15 procedure. I became more aware of this matter as this complaint went forward, and this lawsuit came forward. 16 So otherwise, I would make efforts to appropriately 17 18 direct those questions to the appropriate individuals 19 who could help resolve that. 20 And during your time at CHS, did you have EEO training? 21 As I recall, I believe there was a 22 Α. Yes.

general EEO training as part of our orientation.

don't recall the exact details, but I do remember there

800.DAL.8779 dalcoreporting.com

1 was some component of that. Now, did you have any EEO training after 2 Q. orientation? 3 I believe there was a additional or -- sorry, 4 5 additional training regarding those matters. But again, I don't recall the details of that training. 6 7 So you don't know if it was computer-based or Q. 8 if it was live training? 9 MS. CANFIELD: Objection to the form. 10 can answer. I do recall a live component of it. 11 12 sure if there was also a computer. I don't recall if 13 there was also a computer training regarding that as I know we would have periodic computer trainings, 14 15 but I do recall that there was a live training 16 component. 17 0. Did there ever come a time when Dr. Kaye told 18 you it was improper, if not illegal, to throw out your 19 notes when you, I guess, did evaluations? 20 MS. CANFIELD: Objection to form. You can 21 answer. 22 Α. Can you repeat that question? 23 On May 17th, 2018, did Dr. Kaye ever tell you 0.

that it was improper to throw out your notes when you

did evaluations?

2 MS. CANFIELD: Objection as to form. You can answer.

- A. She may have said that. At the same time, I also had kept my notes, so -- as part of your evaluation process.
- Q. So at any point, did you ever accuse Dr. Kaye of taking your notes?

MS. CANFIELD: Objection to form. You can answer.

- A. Yes.
- Q. Okay. So what happened?
- A. Yes. So around December of 2018, I was looking for one of my notes from the charts where I had left it there in the Bronx Court Clinic. And when I went to obtain it, I was informed that my charts -- there were ten charts, actually, in which ten notes were removed. And only those notes of mine were removed from those charts. All the other material was left in the charts. And I was informed that those are in Dr. Kaye's office. And so those were taken. And those were my personal notes that I used to render examinations -- that I used to render reports following examinations.
  - Q. Now, throwing away notes, generally, wouldn't

1 that be a Class E felony? MS. CANFIELD: Objection as to form. You can 2 3 answer. I can't speak to the technical-legal issue. 4 Α. Would it be against the law? 5 Q. Again, I'm not --6 Α. 7 MS. CANFIELD: Objection to form. You can answer. You can answer. 8 So generally speaking, we keep our 9 Α. 10 notes. Whether it's unlawful, I think that's a specific 11 jurisdiction in a case-by-case matter. 12 0. In New York, did you ever learn that it would 13 be illegal to throw out your notes? 14 MS. CANFIELD: Objection to form. You can 15 answer. Yeah. So again, as part of our procedures, 16 17 we keep our notes. Whether I can speak to the specific 18 types of notes, what notes, and so forth, are illegal or are not illegal, I can't speak to the technical legality 19 20 or the -- or the criminal charges that would be 21 involved. And again, the notes vary. There might be -notes can mean multiple things. But the notes taken 22 23 during an examination, I would make -- I would keep 24 those and retain them.

54

24

1	Q. Now, I'm getting you're licensed you're
2	licensed to practice here in New York; right?
3	A. Yes.
4	Q. And so there was a process. You had to take
5	an exam, I take it, right, to get to be licensed
6	here; am I right?
7	A. There's an application process for licensure,
8	which includes all of our examinations as physicians.
9	Q. Right.
10	A. And all the proper board certifications.
11	Q. And you have some kind of continuing
12	education requirement; am I right?
13	MS. CANFIELD: Objection to form. You can
14	answer.
15	A. Yes.
16	Q. So during that continuing education, I guess,
17	requirement aren't there courses that basically go
18	into what is considered illegal and legal conduct and
19	ethical conduct?
20	MS. CANFIELD: Objection to form. You can
21	answer.
22	A. Not necessarily for forensic examinations.
23	Q. Okay. So it's your testimony that you're not

sure whether or not throwing out the notes would be

```
1
    illegal, per se; is that right?
 2
               MS. CANFIELD: Objection. Asked and
 3
          answered. You can answer again.
                       I believe I answered that.
 4
               You can -- I mean, just for the record, would
 5
 6
    it be yes or no; you don't know?
 7
               MS. CANFIELD: Objection. You can answer.
               I'll try to rephrase what I said earlier,
 8
 9
    which is that my understanding is that it depends on the
10
    type of case, depends on the type of examination, and
    the type of record it is. There might be some legal
11
12
    implications at the same time that may not apply in all
13
    circumstances as well. But what I can speak to is the
    procedure that I would do personally, which is to keep
14
15
    my notes.
16
               The notes that were allegedly missing in ten
17
        from the ten files that you identified, right, would
18
    the -- the absence of those notes, would that be
19
    illegal?
20
               MS. CANFIELD: Objection as to form.
21
          Absence, what do you mean? You can answer.
22
          Α.
                I'm not sure what the technical-legal issue
    would be involved there.
23
24
               Well, Dr. Jain, you -- you accused Dr. Kaye
          0.
```

of taking your notes. Whatever came of your accusation?

Was she found, I guess, culpable in this regard?

MS. CANFIELD: Objection as to form. You can answer.

- Α. Yeah. So this was not a legal matter. was something I brought forward to my supervisor as a concern regarding the unusual procedure, why are my notes missing from the chart. And after that, I'm not sure what repercussions occurred after that for Dr. I informed my supervisor. And also at that time, as I recall, Dr. Kaye was away from the clinic on a So I don't recall what the issues were or the outcome was immediately after that. For me, it raised a significant concern of feeling targeted, that my notes are being taken out of the chart. And those were my personal notes I used to render examinations. would be no reason for someone to take out my notes, especially because they're my notes and not others.
  - O. Now --

#### ABHISHEK JAIN, M.D.

It was brought to my attention. I informed my supervisors. I'm not sure after that if it was proven or not. The information that was provided to me was that those notes were not in the chart, that they were -- and we were not able to obtain them because they were locked in Dr. Kaye's office. 0. Did the notes ever reappear? I don't recall if my notes reappeared or not. Okay. Was Dr. Kaye ever written up for Q. allegedly taking your notes? Α. I don't recall if she was formally written up. Q. Now, Dr. Kaye alleges that the story that you discussed right now of her taking your notes was to cover up for your throwing out the notes and that you recreated the notes because they were missing from the files because you never had them there. Do you disagree with that assertion? I disagree with --Α. MS. CANFIELD: Objection to form. You can answer. Q. Go ahead. I disagree with that. I did not destroy my

notes. And I did not -- you know, I did not take them

58

1 out and destroy them. And you did not recreate them? 2 Q. Α. 3 No. MS. HAGAN: I'm going to take a bathroom 4 break. Can we get back together in ten minutes? 5 MS. CANFIELD: Sure. 6 7 MS. HAGAN: Okay. Great. Thanks. 8 9 (Recess taken from 11:19 a.m. until 11:32 10 a.m.) 11 12 BY MS. HAGAN: Okay. Dr. Jain, I want to kind of make sure 13 Q. 14 that I get -- close a few things before I move on to 15 another area of, I guess, discussion. Now, earlier, you said that Dr. Owen was part 16 of the panel that interviewed you when you started at 17 18 CHS; is that right? 19 That's right, yes. Α. 20 Q. Now, were you -- are you aware where Dr. Owen 21 works now? 22 MS. CANFIELD: Objection as to form. You can 23 answer. 24 I'm not sure where she works at this moment. Α.

I know when I left correctional health services, she was the director of the Queens Court Clinic.

- Q. Is Dr. Owen still at the Queens Court Clinic?

  MS. CANFIELD: Objection as to form. You can answer again.
- A. I'm not entirely sure.
- Q. Okay. Have you stayed in touch with Dr.
- 8 Owen?

1

2

3

4

5

6

7

16

17

18

19

20

21

22

23

- 9 A. No.
- Q. Okay. Now, you also said that you had a vision for the court clinics when you first started.

  Can you elaborate on that vision for us?
- A. Yeah.
- MS. CANFIELD: Objection as to form. You can answer again.
  - A. Yes. One of the things that drew me to the court clinics was the ability to do objective evaluations for the court system. And this is consistent with my career vision, as well as my core] ethics and foundation as a forensic psychiatrist. So my vision was to serve the court system accurately, ethically, promote the different ethics of our field, the principles of forensic psychiatry, as well as an opportunity to do examinations myself, and to serve the

court system through that lens. So this was a broad mission for me and vision, that we would help serve the court system through our forensic psychiatric skills and our training.

Q. What specific goals did you have for the court clinics?

- MS. CANFIELD: Objection as to form. You can answer again.
- A. Yeah. So the specific goals I had were one, to consolidate the court clinic consistent with the goals of correctional health services, and to provide some consistency with policies and procedures across the court clinic, as well as to serve the system by -- as we discussed previously, to help -- have an efficient process, an effective process for the court system, as well as maintain the integrity and quality of our work. So those were my broad goals in my position.
- Q. So to consolidate the court clinics, what do you mean by that?
- A. So prior to CHS, and this predated my employment, the four court clinics were managed not under one management. The Bronx and Manhattan were under Bellevue, and Queens and Brooklyn, Staten Island were under Kings County. So there was different

management of those court clinics prior to CHS.

- Q. But by July of 2018, all four clinics were being managed by CHS. So would that have been, I guess, an accomplishment of one of your goals, or did you have a further -- a further vision when you meant consolidate?
- 7 MS. CANFIELD: Objection as to form. You can answer.
  - A. Yeah. So the goal and vision to consolidate was not mine originally. That was prior to my employment. But as I learned more about the system and those goals, my goals were also consistent with that, and I saw the value and the benefit of consolidation that could help support the core systems, our examiners, and the courts.
  - Q. Now, you talked about the consistencies with the policies and procedures. Let's start with the procedures. Which procedures did you want to make consistent?
  - A. So there were a number of procedures. So for example, earlier you mentioned records. So an efficient process to obtain medical records when examiners needed those records. So to have a process in place to -- from the point of the examiners deciding that they might need

additional patient records to render an opinion to the judges' administering an order, so that we could obtain those disclosures from the health services. And then assist them in place for different entities such as Rikers Island treatment, as well as Bellevue, and Elmhurst Hospital, for example, to provide those records to our examiners when we needed.

Prior to that, as one example, it would take sometimes weeks, multiple weeks, lengthy periods to get those records. That was one thing that would often delay a case. So we made efforts to try to expedite that process, so we can get those records more efficiently, and was able to reduce that down to a matter of one to two days in many circumstances. That was one example of having consistent procedures across the system so that obtaining those records would be more efficient.

Q. I guess I kind of feel like we started in the middle when we're talking about like ordering the records. I guess one thing that probably would be good for the record is to know how 730 fitness exams come to be. Based on the statute and your recollection, how would an inmate be subjected to the 730 evaluation process?

1	MS. CANFIELD: Objection to form. You can
2	answer.
3	A. So typically, these are questions raised by a
4	defense attorney, could be an ADA as well, or the courts
5	themselves. The bottom line is the courts a judge
6	would order a 730 examination based on concerns raised
7	regarding the defendant's ability to understand the
8	proceedings against them or the ability to assist in
9	their defense. And so these 730 examinations were
10	initiated by, essentially, a court order from a judge.
11	And then those examinations were then ordered, depending
12	on the appropriate court clinic. So if it was a Bronx
13	case, those cases would then be evaluated by the court
14	the Bronx Court Clinic.
15	Q. Now, we we kind of touched on this
16	earlier, but 730 examinations are, I guess, typically
17	administered by two evaluators; is that right?
18	A. Yes.
19	Q. So ideally, the evaluators would have the
20	same determination; would that be accurate, the ideal?
21	A. No.
22	Q. Okay. So what happens?
23	A. The two examiners would render an independent
24	opinion.

Q. Okay. And what happens when you have the two examiners as splitting?

- A. Then by statute, a third examiner needs to be assigned to that case.
- Q. Now, for purposes of efficiency and functionality, ideally, you would want a psychiatrist and a psychologist; is that right?
- A. Not necessarily. By statute, it could be either/or, two psychiatrists, two psychologists or one of each.
- Q. Was there a push toward having one of each because of the presence of psychological testing?
- A. Yeah. Oftentimes, psychological testing would need to be done by a psychologist. So having a psychologist also involved in the case would be available to do testing. At least, that was something that we supported in clinics and wanted to make sure we had available.
- Q. Now, was there ever a time that the determination of any of the inmates contro -- any of the inmates' 730 examinations controverted?
- MS. CANFIELD: Objection as to form. You can answer.
  - A. If I understand the question, were there ever

#### ABHISHEK JAIN, M.D.

times when a 730 opinion was controverted?

- Q. Yes. While you were at CHS.
- A. Yes, that would happen, any as forensic examination.
- Q. Okay. Do you recall a Jose Gonzalez being controverted?
- A. I remember elements of the case, such as additional examiners, a second examination being ordered. Actually, more than a second. They had other multiple examinations on that case. Whether it was formally controverted, I believe so, throughout the years, because I know that case, I believe, also predated my involvement with CHS. It was a longer case. So I do believe that that case was controverted and then additional examinations were ordered on that case.
- Q. At any point, did you review the transcript of Dr. Kaye, which he gave testimony during the controversion hearing?
- 19 A. Yes.

- Q. Okay. What do you remember about that?
- A. So I remember the reason I was reviewing it was, I was asked to provide supervision of Dr. Brayton, who was an examiner in the clinic. And there was a question that came up regarding that case and

66

24

answer.

particularly some information that was obtained by that 1 2 case through recordings. And so, in order to provide general supervision to Dr. Brayton, I reviewed the 3 material, including the transcript and other material 4 5 that was relevant in this case to help provide supervision to Dr. Brayton on that matter. 6 7 Q. Okay. So at any point, was there, I guess, a 8 sentiment among CHS management that Mr. Gonzalez be 9 found fit, that you know of? MS. CANFIELD: Objection as to form. 10 You can 11 answer. 12 Α. To my knowledge, there was never any 13 intention or push from any management for any particular 14 opinion in that case. 15 Did Dr. Yang or -- did Dr. Yang ever ask 16 about the Jose Gonzalez case? Not to me. Not to my knowledge. 17 Α. 18 0. Do you know who she asked? 19 I don't know if she asked anyone. I'm not Α. 20 sure. Did labor relations ever look into the Jose 21 0. 22 Gonzalez case, to your knowledge? 23 MS. CANFIELD: Objection as to form. You can

22

23

24

I'm not sure if labor relations looked into Α. But certain elements of the case had come up. the case. It was a controversial case. There were a lot of questions about information that was obtained during the examination process of that case and what would be important for examiners to have and what would be appropriate for them to have in that matter. So those various questions came up, and that's when I brought it to the attention of my supervisor, Dr. Ford, how do we handle some of these matters, generally speaking. Also in the interest of our procedures in the court clinic, how we obtain examination information, and how we obtain information from defendants. Now, earlier you mentioned that you referred Dr. Kaye to both Ms. Laboy and labor. What labor did you refer Dr. Kaye to when she raised her pay parity agree -- I mean, complaint to you? MS. CANFIELD: Objection to form. You can answer. So just to clarify. I believe Jessica Laboy works with HR, and our labor individual was Attorney Jonathan Wangel. Okay. Now, I guess I should -- I'm not sure Q. if I mentioned him amongst the defendants in the case,

but he was amongst the defendants in the case. He is one of the defendants in the case. I'm sorry. You are aware of that; right?

68

Jain?

4

6

9

12

13

16

17

18

19

20

21

22

23

- A. Yes, I'm aware of that from the complaint.
- Q. Now, did you read the complaint yourself, Dr.
- 7 A. Yes. I had an opportunity to read that 8 complaint.
  - Q. When did you read the complaint?
- 10 A. I believe it was brought to my attention 11 around or after December of 2018.
  - Q. Who did you speak to when you read the complaint?
- MS. CANFIELD: Objection to form. You can answer.
  - A. The complaint was actually brought to my attention -- it was publicly available online. And I think at that time, I spoke with my supervisor, Dr. Ford.
    - Q. And what did you speak about?
  - A. Just speaking about the nature of this, what the procedures are next, how we need to -- you know, what steps I need to do going forward. You know, this is -- as I mentioned earlier, I've never been named in

1	such a complaint, so this was a concern for me. I
2	valued my work. I valued my ethics and position as a
3	forensic psychiatrist. And it's not something I was
4	anticipating. So I just wanted guidance on what our
5	next steps need to be, and especially in the interest of
6	my own reputation, career, I needed to make sure, you
7	know, that I was doing things appropriately and right
8	and to help resolve this matter.
9	Q. So what exactly did you say to Dr. Ford when
LO	you learned of this lawsuit?
1	A. I'm not I don't recall what I said
L2	exactly.
L3	Q. I mean, kind of, what did you say?
L <b>4</b>	MS. CANFIELD: Objection as to form. He just
L5	testified he doesn't remember.
L6	MS. HAGAN: No, he did not.
L7	Q. Dr. Jain, to the extent that you remember,
L8	what did you say to Dr. Ford?
L9	MS. CANFIELD: Objection. Asked and
20	answered. You can answer again.
21	A. Yeah. As I mentioned earlier, it was about
22	the complaint itself, the procedures of what happens
23	next. I remember also being concerned about what this
24	what implications this might have for my own career

and also my work with CHS. And so it was more of those general types of issues. And then that this would be handled through a legal process, and just to follow that process.

Q. What did Dr. Ford say to you?

- A. That was the general discussion about that matter. She also just kind of generally described that there would be more legal follow-up, more -- that this matter may go on for some time, and that somebody from legal would be reaching out, and that there would be a legal process to go forward with this.
- Q. Now, earlier you said you did about 600 examinations between the time -- between your fellowship and, I guess, your residency -- no, between your fellowship and your employment. Was that the case?
- A. Yeah. Before CHS, I would estimate about 600 while I was in Ohio and Pennsylvania.
- Q. Now, did you keep a list of all of the exams that you took?
  - A. Not all the exams, no.
- Q. Now, do either Ohio or Pennsylvania require that you keep a list?
  - A. Not to my knowledge, no.
    - Q. Now, we also talked briefly about the notes.

1 Now, Dr. Jain, did you ever speak to Dr. Kaye yourself 2 about your notes disappearing allegedly? 3 MS. CANFIELD: Objection as to form. 4 answer. No. Not directly. 5 Α. 6 0. Why not? 7 Well, there were multiple reasons. One, soon Α. after working at CHS and starting there, I had made 8 9 various efforts to meet with each of the directors to have regular meetings with them, just to have ongoing 10 communication and collaboration. And that was offered 11 12 to all the directors. Three of the directors 13 immediately said that would be a great idea and agreed. 14 When I mentioned this to Dr. Kaye, she was very 15 resistant to this, asked a lot of questions about why we need to meet. And then shortly after that, around --16 17 around October of 2018, I was also informed that she did 18 not want to meet with me alone, which was very puzzling 19 And I didn't understand the context of that. to me. 20 And that, along with other interactions, that my intent 21 was to be collegial in other interactions that were 22 adversarial with me through advisement. Also, from the

supervision from Dr. Ford as well, it was decided that

these types of matters are probably dealt with better

23

through Dr. Ford. I was not given the opportunity, like I would have with other directors, to be able to communicate with Dr. Kaye directly and to have a collegial interaction with her because my interactions with her had become -- she had become increasingly adversarial in those interactions, despite my efforts to be supportive and understanding of what's happening in the clinic. So that was a significant reason why I was not able to have that discussion with her directly.

And the second reason was that many staff, including myself, had felt targeted in the Bronx Court Clinic, and felt that there were -- there was a factor there of intimidation and kind of looking for information against us. So -- so for me, the matter was concerning, so I raised it to my supervisor, but I did not have the direct interaction with Dr. Kaye. Then my supervisor advised that they would handle it through their means.

- Q. You're talking about Dr. Ford?
- A. Yes. Dr. Ford was my supervisor at that time.
- Q. Now, did it ever come to be that -- that there was a mistake about Dr. Kaye not wanting to be alone with you?

1 MS. CANFIELD: Objection to form. You can 2 answer. I'm not sure if there was a mistake. 3 Α. So was there ever a time when you -- when Dr. 4 0. 5 Kaye specifically asked to meet with you after the perception was that she did not want to meet with you 6 7 alone? I don't recall if she wanted to meet with me 8 alone. I do recall, perhaps, some phone calls. 9 10 was a specific matter, but I was informed that she did not want to meet with me, and that if there was an 11 12 examination, that we were co-examiners on, that she 13 would need to have an attorney present, and an attorney 14 present for other interactions as well which, again, was 15 very puzzling to me, compounded with our earlier 16 interaction, where she was very resistant to any type of 17 ongoing meetings. I was very concerned. And so then, I 18 didn't have those direct one-on-one meetings, unless 19 there was some very extenuating or specific 20 circumstance. Otherwise, through advisement through Dr. 21 Ford, I decided not to have those discussions directly. 22 So you say first, I guess -- this goes back Q. 23 to my original question about the notes. And -- and I

don't think we -- we got a firm answer.

1 Did you ever speak to Dr. Ford about her 2 removing -- allegedly removing the notes from your files? 3 Α. Yes. 4 MS. CANFIELD: Objection to form. You can 5 6 answer. 7 Q. Could you repeat your answer? 8 Α. Yes. 9 And what did you say to Dr. -- what did you Q. 10 say to Dr. Kaye -- let me rephrase that. 11 Did you ever speak to Dr. Kaye about removing the notes from your file? 12 13 Α. No. MS. CANFIELD: Objection. Asked and 14 15 answered. 16 0. You said no; right? You have to say yes or You shook your head. 17 no. 18 Α. I said no. 19 Okay. So you never spoke to Dr. Kaye. Q. Then you said that there was never a time 20 21 when Dr. -- when Dr. Kaye approached you after it was 22 mistaken that she did not want to meet alone with you? 23 MS. CANFIELD: Objection as to form. You can 24 answer again.

1	A. I didn't understand the question.
2	Q. Was there ever a time when it was brought to
3	your attention that the sentiment that Dr. Kaye did not
4	want to meet alone with you was a mistake?
5	A. So there was a clarification that Dr. Kaye
6	did not want to meet with me without an attorney
7	present, and did not want to have an examination with
8	me a 730 examination conducted as co-examiners unless
9	an attorney is present.
10	Q. So you didn't want to be it was it was
11	alleged that Dr. Kaye did not want to meet with you
12	unless you were either doing an examination or an
13	attorney was present; is that what you're saying?
14	A. Yes. So to clarify this so attorneys
15	often sit in on 730 examinations. And so she did not
16	want to have an examination with just both of us
17	present.
18	THE WITNESS: I'm sorry. I'm getting a
19	message, some error.
20	MS. HAGAN: You're getting an error from me?
21	
22	(Off the record for technical
23	issues.)
24	

BY MS. HAGAN:

- Q. So you were -- you were testifying that -- that basically -- you were testifying that Dr. Kaye would not meet with you alone unless you were doing exams or unless there was an attorney present; right?
  - A. Yeah.
  - Q. And was it ever addressed?
  - A. So addressed exactly how so? I'm not sure.
- Q. I mean you were her direct -- you were her direct supervisor; right?
- A. Yes.
- Q. So, you know, how do you continue to function
  with Dr. Kaye if, you know, she won't engage you
  directly?
  - A. Yeah. It was very challenging. So we would try to have communication by email. She often would tell me that if she wants -- any question I have needs to be in email or in writing. Which over -- you know, we would have communications with Lucrecia who was the administrator in the court clinic. Or if there was a specific matter on occasion, and I did need to speak with her directly, we would have a brief phone call and try to resolve a specific matter.
    - And also, if there were issues regarding

supervision or other types of matters, I would involve 1 2 Dr. Ford and get her consultation on how to proceed in those matters as well. So it was a challenge. We were 3 still able to function and provide the support in the 4 5 clinic that we needed to function. At the same time, my ability to have an open, ongoing communication was 6 7 compromised due to that adversarial posture from Dr. Kave. And that was not -- I was not able to have those 8 types of communications as I would with the other 9 10 directors. 11 (Plaintiff's Exhibit 1, DOCUMENT BATES 12 13 STAMPED NYC 671 through 672, was marked for 14 identification.) 15 16 I'm going to show you what's marked as Plaintiff's Exhibit 1. It should be in the -- I quess 17 18 -- let's see if it's going to open. It is opening. 19 Okay. Then I need to share this. I'm sorry. Let's see 20 if I can get back to the main screen. 21 Plaintiffs Exhibit 1 bears the Bates stamp 22 series NYC 671 through 672. I'm going to, I guess --23 MS. CANFIELD: Hold on a second. I need to 24 find it.

Q. So Plaintiff's Exhibit 1 is NYC-671 through 672. And it's an email from Mr. Muir, Clarence Muir, associate director of field operations to -- to defendant, Dr. Jain. And the subject is conversation with Dr. Kaye, October 5th, 2018. And I'm going to scroll to the bottom of the email, Dr. Jain, so that you can get the full context. I'm not sure if you can fully see it. Now, do you vaguely remember this email by any chance?

- A. Yes, this is the email I recall when I was speaking earlier.
- Q. So just for purposes of the record, the email starts with an email from Mr. Muir to Jonathan Wangel, Ms. Swenson, and Carlos Castellanos. And Mr. Jain -- Dr. Jain on the thread, it says, "Good Morning. Ms. Swenson and I placed a call to Dr. Kaye this morning at 9:30 a.m. and left a message for her to call us back. She called back at 10 a.m., and we inquired why she did not want to work alone with Dr. Jain. She stated that she did not say that she wouldn't work evaluations with Dr. Jain. What was said while scheduled was that she shouldn't be alone with Dr. Jain when the attorney has the right to be present.

Now, she then asked if Rikers' staff have

1 access to iSight or records from private institutions 2 that are posted on iSight. She also mentioned that --3 that someone had brought up her FPECC's site lack of cases in iSight, but that they have -- but that they 4 5 have 42 cases that were just ordered prior to their training on the system. They are working to ensure that 6 7 all new cases are entered. So before we scroll up, I wanted to ask some 8 9 questions. Is that okay, Dr. Jain? 10 Α. Yes. 11 Q. Okay. So the second sentence of the first 12 paragraph says, "She stated that she did not say that she wouldn't do evaluations with Dr. Jain. What was 13 said that -- what was said while scheduling was that, 14 15 she should not be alone with Dr. Jain when the attorney 16 has the right to be present. Now, isn't that a bit 17 different than what you just testified to about her not 18 wanting to be alone with you at all? 19 MS. CANFIELD: Objection to form. You can 20 answer. 21 Because this is what I was saying as Α. 22 well, that I was informed initially that she did not 23 want to be alone with me. And then there was a 24 clarification that she did not want to do

examinations -- 730 examinations without an attorney present, and not want to -- and I was also informed, as I recall, that did not want to meet with me without an attorney present overall as well. And so -- so this is consistent with -- I mean, it may not have been word for word what I had said earlier, but it's consistent with what I was saying earlier.

- Q. Now, there's also a discussion about iSight and workload. Now, in terms of, you know, busyness and workload, how would you rate the Bronx Center?
- A. In terms of volume of cases, it had the least number of 730 examinations of the court clinics.
- Q. Was the -- the issue with the lack of -- the 42 cases that were just ordered, for example, in this instance, were they ever addressed as far as being inputted into the system? Do you know?

MS. CANFIELD: Objection as to form. You can answer.

- A. So I'm not understanding the question. If you can repeat that, please.
- Q. Was iSight always accurate when it, I guess, quantified the amount of 730 examinations that were conducted at the clinics?
  - A. Initially, when we transitioned to iSight,

there were some challenges of making sure that there was consistency in iSight when it first started.

Q. Now, in this instance, first and foremost -- I guess I should go back.

You were working with Dr. Kaye from April to October of 2018, at this point, right? So this is only about seven months, would that be acc -- well, it would be like, yeah, seven months. Would that be accurate?

- A. Yeah. I would say closer to perhaps six at this point.
  - Q. Right.

- A. Even five.
- Q. Right. So then, between that window, would you -- when did Dr. Kaye -- when did it become clear to you that Dr. Kaye would not meet with you one on one?

  MS. CANFIELD: Objection to form. You can answer.
- A. So it was building up. And so for example, in September, I had tried creating a schedule where I would meet with each of the directors on a weekly basis. And that was met with resistance from Dr. Kaye. And then there were other concerns raised, just kind of some interactions that were somewhat adversarial in posture, which were unclear to me why at that time. And then in

October, when I received this call -- this message regarding that she does not want to be alone with me, which is -- you know, when I first heard that part of it, that was concerning.

So after those different -- it wasn't just one incident. It was the totality of the interactions that made me arrive at that -- that I needed some supervision and advice from Dr. Ford how to proceed in this matter. And that's when it was decided that based on all of this, there are concerns, if I were to make an effort -- you know, if we were to try to meet alone, so I avoided those. And also based on Dr. Kaye's -- such requests from Dr. Kaye as well. So I had spoken with Dr. Ford, and that was the decision at that time.

- Q. Did Dr. Kaye ever say to you, I don't want to meet alone with you?
- A. She was very resistant and very defensive when I asked to have regular meetings as a supervisor and with her as director of the clinic.
- Q. But my question to you was: Did she say, Dr. Jain, I do not want to meet alone with you?
  - A. Not --

- MS. CANFIELD: Objection. You can answer.
  - Q. What did you say, Dr. Jain?

1	A. I'm sorry, it's
2	Q. I asked if she did Dr. Kaye ever
3	specifically say to you, I do not want to meet alone
4	with you?
5	A. Not directly to me, no.
6	Q. Who did she tell that to?
7	A. So I
8	MS. CANFIELD: Objection to form. You can
9	answer.
10	A. Yup. So in I don't know exactly who she
11	said that to. I can't say who I learned this from. And
12	also, as I mentioned, based on our prior interactions, I
13	thought at that time, it was a reasonable conclusion,
14	and that I should take appropriate caution if there is
15	going to be that type of adversarial posture towards me.
16	Q. Now, you're saying that this adversarial
17	posture now, in May of 2018, you became aware that
18	Dr. Kaye filed a complaint with the EEOC; is that right?
19	MS. CANFIELD: Objection as to form. You can
20	answer if you're able.
21	A. At that time, I was aware of their general
22	hiring and her employment issues that predated CHS, but
23	I did not know the details of what the complaints were

24

and what the issues were.

Q. Now, did there ever come a time that Dr. Kaye complained about being demoted from medical director to director?

A. Yes.

- Q. Would it be fair to say that this happened in and around June 4th, 2018?
  - A. It did not occur. There was no demotion.
- Q. Did her title change from medical director to director?
  - MS. CANFIELD: Objection to form. You can answer.
- A. Her formal title never changed. At that time, there were various different types of titles, corporate titles, functional titles. And at that time, there was also a question of what our business cards would say.
- Q. Well, at any point, did Dr. Kaye have medical director on her business cards?
- A. I had not -- I don't believe I saw it directly, but I was aware that the different directors had different titles, I believe, on their business cards. So I'm not sure what was exactly on the business card. However, I am aware that she had described that she is a -- she described her role as medical director.

1 And did anyone else have -- for example, Dr. 2 Mundy is also a doctor, right, for purposes of having 3 completed medical school and done a residency; is that right? 4 5 Α. Yes, that's correct. And so did Dr. Mundy's title change as well? 6 0. 7 MS. CANFIELD: Objection to form. You can answer. 8 I'm not sure if his title had changed. 9 Α. 10 had a new position with CHS when he was hired, and all 11 four were directors of their clinics. There were four 12 directors at each clinic. 13 (Plaintiff's Exhibit 2, DOCUMENT BATES 14 15 STAMPED NYC 235 to 237, was marked for identification.) 16 17 18 Right. So I'm going to show you what's Q. 19 marked as Plaintiff's Exhibit 2, and it bears the Bates 20 stamp NYC 235 to 237. And I'm going to bring your 21 attention to the top of the exchange which is -- it's 22 from you -- the email is from you, Dr. Jain, and it's 23 addressed to an Amanda Ferdinand. And --24 MS. CANFIELD: Can you please let the witness

86

24

1 read the entire email thread that you're going up. MS. HAGAN: I'm just basically --2 MS. CANFIELD: I think he needs the context, 3 since there seems -- he seems to be copied on a 4 message on the bottom. 5 MS. HAGAN: Well, actually, they're the 6 7 business cards. MS. CANFIELD: Okay. So can you let him 8 9 review that, please. 10 0. Okay. Do you see the business card -- first off, I wanted to make the record clear. The record --11 12 the record -- for purposes of the record, the email is 13 from you, Dr. Jain. And it's to -- it's to Amanda Ferdinand, as I said, and the subject is business cards. 14 15 And I'll scroll down to the bottom of this email. You see these various business cards. One for Dr. Owen, 16 17 right, for the Queens Forensic Psychiatry Court Clinic. 18 She's listed as director; right? Then for Dr. Kaye, she's listed as director; right? 19 20 Α. Yes. The same for Dr. Winkler, he's listed as 21 0. 22 director. However, Dr. Mundy's card is not here. So 23 it's a question as to whether or not Dr. Mundy's title

changed from medical director to director. Are you

```
1
    aware if it changed or not?
 2
               MS. CANFIELD: Can you scroll up more to see
          what this --
 3
          Α.
               Yes.
 4
 5
               MS. HAGAN: Sure.
 6
               Now, there's another email from Lorrie Drain.
          0.
 7
    Do you know who that is?
               Yes. She's one of the administrative staff
 8
 9
    at CHS.
10
               Okay. And it -- it is to Andrea Swenson,
11
    because you're not really on this. But she says, "Hi
12
    Andrea, please review and let me know if you want any
13
    corrections before the order's processed. Also, Dr.
14
    Jain only has one number listed, a second number is
15
    required for the order." Right? So I guess this is
16
    your business card, right, Dr. Jain?
17
          Α.
               Yes.
18
          Q.
               Okay. So then we go further up.
19
               MS. CANFIELD: But can you let him read all
20
          the emails, please. I think there was one before
21
          this one from Dr. Owen.
22
               MS. HAGAN: There is no -- there is one,
23
          okay. Here's one.
24
               And this one's from Dr. Swenson -- from Ms.
          0.
```

Swenson, Dr. Kaye, Winkler, and Dr. Owen; right?

A. Uh-huh. Yes.

- Q. And it says, "Please confirm the information on the cards, so I can get them sent out. Dr. Jain made the final call for the position, name, and wording of the clinic name." Now, is that true, Dr. Jain? Were you the person who made the final decision as to everyone being called director?
  - A. For the purposes of the business cards, yes.
- Q. Yeah. And was it everyone's title as far as their position in the clinics? Were they all directors?
  - A. They were all directors of the clinics, yes.
- Q. Now, did Dr. Kaye ever express concern to you that her title was changed from medical director to director?
- A. Yes. Those concerns were raised, and we had discussions regarding what the titles should be on the business cards. And for consistency and clarity, we agreed director, which in my opinion, also captured the idea that each of the directors are the leaders of the clinic or overseeing the service in the clinic. And so, for example, someone else had requested they wanted to be senior director, and there were other things kind of mentioned, medical director, clinical director. So for

1 consistency on the business cards, I asked if what would make the most sense, and then we had a meeting and 2 discussions and then arrived at director would be the 3 clearest answer. It was not a demotion. It was not a 4 5 change in the actual functional title or corporate This was simply for the business cards, and that 6 7 was the decision across the four clinics. Just for clarity, that there are -- that these are the point 8 9 people for the clinic. These are the directors of the clinic. 10 But why was it -- why did you feel it was 11 12 necessary to change everyone's title to director and not 13 allow, let's say, for example, Dr. Kaye and Dr. Mundy continue to function as medical directors? 14 15 MS. CANFIELD: Objection. Asked and 16 answered. You can answer again. 17 Again, there was no formal reason outside of, Α. 18 just for consistency and in order to make the business cards. Director, including my own title, was director. 19 20 For example, even my corporate title and my functional 21 title were -- were different. And so -- but we agreed

that the director would make the most sense. And then

Mundy, then she's okay with director. And that's how I

ultimately, Dr. Kaye said that if it's okay with Dr.

22

23

recall it.

- Q. Well, first off, who -- who agreed that it made the most sense to change everyone's title to director besides yourself?
- A. So I raised this with Dr. Ford. I raised it with the court clinic directors. I raised it with also our leadership with CHS, just to make sure there wasn't some major difference that I'm missing. And so I reviewed these -- you know, the discussion of what would make the most sense on the business cards. And so that was just a decision after we discussed it both with the directors, Dr. Ford, and then also with our CHS HR leadership.
  - Q. Now, who is CHS leadership?
- A. So this was a meeting. We would often have periodic meetings. Dr. Ford, Dr. MacDonald, Patsy Yang, these were other individuals who would often be at -- typically at CHS leadership meetings.
- Q. So Dr. MacDonald, Dr. Ford, those would be the other leadership participants that you are referencing when you said that you collectively made a decision to make the change from medical director to director; is that right?
  - MS. CANFIELD: Objection to form. You can

answer.

- A. Yeah. So in discussion, we reviewed it, and those were the individuals involved in some of the meetings, as well as the court clinic directors themselves.
- Q. Now, why isn't Dr. Winkler's card on this thread? You have -- you have Dr. Wink -- not Winkler, Dr. Mundy. I'm sorry. Why isn't Dr. Mundy's card on this thread?
- A. I'm not sure. I can't answer that.
- Q. I mean, is it clear -- is it certain that Dr.

  Mundy's title was actually changed from director -- from
  medical director to director?
  - A. All four directors were called director when I first started the position. In fact, our introductory emails, everyone was introduced as director of their respective court clinics. I saw no opposition at that time, no resistance to that, so that was another indication for me that director would make sense on the business cards. Now, there's -- I appreciate there's a difference in the corporate titles and functional titles, but in terms of introductions and business cards, that was the decision for all four directors. So -- and this was Dr. Mundy's first position with CHS as a

92

1 director, so I'm not sure if he was director of 2 Manhattan Court Clinic for CHS. So I cannot say that his title was changed. 3 Now, I want to go further up in this email 4 5 thread right now. And you see this is the next email. You see this; right? 6 7 Α. Yes. 8 0. And this is an email from Dr. Owen to 9 yourself, along with Ms. Swenson, Dr. Kaye, and Dr. Winkler; right? And she says, "Looks good to me." Do 10 you see that? You've gotten a chance to read it; right? 11 Dr. Jain? 12 MS. CANFIELD: It looks like he's frozen. 13 14 15 (Off the record for technical 16 issues.) 17 18 MS. CANFIELD: Did you hear the question? 19 THE WITNESS: Could you repeat the question, 20 please. 21 The question -- the question I posed was that 22 did you see the email from Dr. Owen to yourself, Ms. 23 Swenson, Dr. Kaye, and Dr. Winkler? And Dr. Owen says, 24 "Looks good to me." You saw this email, right --

1 Α. Yes. -- you've gotten a chance to see it? 2 Q. 3 Then Dr. Kaye, on May 25th, responds to Ms. Swenson and Dr. Jain, yourself, about the business 4 5 cards. And she says, Hi, Andrea. My title at BCC, the Bronx Court Clinic, I guess, has always been medical 6 7 director, not director. Please let me know why this 8 changed." You saw this; right? I'm reading that right now. Yes. 9 Α. 10 0. And then Ms. Swenson responds on May 25th, 11 CC'ing you, "It was Dr. Jain's decision, not mine. As I 12 mentioned in the previous email, he's copied on here. 13 Thank you -- "Thanks, Andrea." You see that; right? 14 Α. Yes. 15 And then you respond to Ms. Ferdinand and Ms. 16 Swenson, "Amanda, do you know the court clinic director's technical title including me? I thought it 17 18 was just director and not medical director or senior 19 director." You see that; right? 20 Α. Yes. 21 0. Now, was there ever a time where you were 22 given correspondence that was referenced to justify the 23 change? 24 MS. CANFIELD: Objection to form.

answer.

A. So again, it was not formally changed. This was for the business cards. And when we were introduced, everyone was introduced as director, including in earlier emails when I first started the position. And then when it came time to make the business cards, I sought consultation and advice from others, including court directors, what would make the most sense. And for consistency across the clinics, we decided to call each person director. This was not a change in their functional role or in their corporate title. This was simply for the business cards.

MS. HAGAN: Now, I'm going to show you what's going to be marked as Plaintiffs Exhibit 3, and it bears the Bates stamp series Kaye3rdProduction 50.

(Plaintiff's Exhibit 3, DOCUMENT BATES
STAMPED Kaye3rdProduction\_50, was marked for identification.)

- Q. So the letter is from -- I'm not sure if you see Plaintiff's Exhibit 3. Dr. Jain, do you see the actual letter?
  - A. Yes, I see what you're showing on the screen.

1	Q. Right. And for purposes of the record, the
2	letter is from it's dated June 12th, 2016. And it's
3	from Gary Belkin, Dr. Gary Belkin, executive deputy
4	commissioner for mental hygiene. Dr. Jain, have you
5	ever met or dealt with Dr. Belkin?
6	MS. CANFIELD: Objection to form. You can
7	answer.
8	A. No. Not to my knowledge, no.
9	Q. Okay. So you never interacted with Dr.
10	Belkin?
11	A. Not to my knowledge.
12	Q. Okay. Now, the letter is dated June 12th,
13	2016, and it's to the Honorable Fern A. Fisher. Had you
14	heard of Judge Fisher by any chance?
15	A. I don't recall. I don't believe so.
16	Q. Okay. Now, I'd like to give you an
17	opportunity to review the letter so that, you know, you
18	have some context. When you get a chance to review the
19	letter, please let me know, and then I can ask you some
20	questions on it. Okay. And if you need me to scroll
21	down, please let me know. Okay?
22	A. Okay. Okay.
23	Q. Now, I want to okay. Now, I want to draw
24	your attention to the CC's on this letter.

1 A. Yes.

96

4

12

15

16

17

18

19

20

21

Q. The first CC is Steven Ciric, M.D. You see that; right?

A. Yes.

Q. He refers to himself as director of forensic services at Bellevue Hospital Center. You see that; right?

A. Yes.

- Q. And then you see Dr. Owen, and she refers to herself as director of forensic psychiatry. You see that as well; right?
- A. Yes.
- Q. And then you see Dr. Kaye. And she refers to herself as medical director. You see this; right?
  - A. Yes.
  - Q. Now, in this same letter, just for purposes of clarity, Dr. Belkin identifies himself as director of community services for the City of New York. You see that; right?
  - A. If you can actually scroll -- oh, yes. Yes.

    I see it there.
- Q. Now, in the previous paragraph, right, Dr.
  Belkin then says, "Evaluating a defendant in order to
  determine whether he or she is fit to proceed to trial,

is the court function of the forensic court clinics." 1 2 And then he referenced -- he then references Criminal Procedure Law 730.20, mandates that an order directing 3 such an evaluation be issued to an appropriate director. 4 5 And then he CC's the NYCRR, states that such an order shall be addressed to the director of community and 6 7 mental health services of New York City. Now, he 8 designates himself as that. Are you -- did you get that 9 from the letter, Dr. Jain? 10 Α. Yes. 11 MS. CANFIELD: Objection as to form. 12 answer. Dr. Jain answered in the affirmative for the 13 Q. purpose of the record; is that right? 14 15 Α. Yes. 16 Now, this letter has been referenced 17 as justification for the -- the title change that you 18 had that you implemented during the time of your tenure. 19 However, it's clear here that Dr. Kaye is still 20 referenced as medical director, even though you have the 21 executive deputy commissioner for mental hygiene 22 designated himself as the director of community services 23 for the city of New York. You see this; right? 24 MS. CANFIELD: Objection as to form. He

didn't say that this letter formed the basis for
his business cards. You're testifying to that
now. Objection. You can answer if you understand
the question.

- A. No. I did not say that, no.
- Q. Have you ever seen this letter before, Dr.

7 Jain?

8 MS. CANFIELD: Objection. Asked and 9 answered. You can answer again.

MS. HAGAN: You're coaching the witness. I never asked him that.

- Q. Have you ever seen this letter before, Dr.

  Jain? Remember, you're under oath.
- 14 A. I'm not sure if I've seen this specific 15 letter.
  - Q. Have you heard about this letter?
  - A. I believe that this letter or a similar letter were referenced in terms of the consolidation of the court clinics. So I have likely come across the letter, but I'm not sure if that was the exact same letter that I had seen previously.
  - Q. Right. Now, I wanted to draw your attention to the actual time that Dr. Kaye filed her complaint, at least one of them. Now, we talked earlier about Dr. --

1 Dr. Kaye's complaint to Dr. Yang. Do you recall that? 2 MS. CANFIELD: Objection to form. You can 3 answer. I believe we talked about the complaint 4 regarding employment in general. I'm not sure who --5 which time we're referencing or who it was directed to. 6 7 Okay. Well, I can make this a little bit Q. more plain. Earlier, we discussed that Dr. Kaye 8 9 complained to you and Dr. Yang about pay parity. You do 10 recall that discussion; right? 11 There was a discussion with me that there is Α. 12 some pay parity issue that HR legal is dealing with. 13 And then I also had a email, which I was CC'd on that outlined some of the agreements regarding the transition 14 15 from Bellevue to CHS. And that that was an HR matter 16 being resolved through our HR and labor relations to 17 assist Dr. Kaye in that matter. 18 MS. HAGAN: Now, I'm going to bring your 19 attention to what will be marked as Plaintiff's 20 Exhibit 4. 21 22 (Plaintiff's Exhibit 4, DOCUMENT BATES 23 STAMPED NYC 281 through NYC 283, was marked 24 for identification.)

1 Q. And I'm going to show you an email that bears the Bates stamp series NYC, underscore, 281, NYC, 2 underscore 282, and 283. 3 MS. CANFIELD: What is the date of this 4 email? 5 MS. HAGAN: The email actually is something 6 7 that Dr. Jain, I guess, forwarded to himself about pay equity for court clinic medical directors, and 8 9 it was dated June 20th, 2018. MS. CANFIELD: It looks like -- it looks like 10 he sent it to Dr. Kaye, and Dr. Kaye sent it to 11 him. 12 13 MR. HAGAN: Right. THE WITNESS: Yes. I did not forward this 14 15 email. 16 MS. CANFIELD: Right. But at this time, there is a discussion. And 17 Q. 18 there is a -- at this time, there is a complaint from 19 Dr. Kaye to Dr. Yang. So I'm scrolling down to the bottom of it, so you can read it. And at the bottom, 20 the date is May 3rd, 2018. You see that, right, Dr. 21 22 Jain? 23 Α. Yes. 24 MS. CANFIELD: Objection to form. You can

```
1
          answer.
               Yes. I see the date of the email.
 2
 3
          0.
               And the email is from Dr. Kaye to Dr. Yan.
    You see that; right?
 4
 5
          Α.
               Yes.
 6
               And the subject is pay equity for court
          0.
    clinic medical directors. You see that; right?
 7
 8
          Α.
               Yes.
 9
               And have you seen this email before?
10
               I recall receiving an email like this. And I
11
    recall being aware that this matter was being raised and
12
    addressed by CHS, HR, and labor. And I, at that point,
13
    recognized that that was a matter being handled by our
    other areas of CHS and not me directly. But I was aware
14
15
    that this was brought to my attention.
               Now, to go back to Exhibit 1 -- no, Exhibit
16
17
        I'm sorry. Let's go back to Exhibit 2. I'm sorry.
18
    Exhibit 2.
19
               Now, the pay equity email was on May 3rd,
20
    2018; right? And --
21
               MS. HAGAN: Am I going to the right one?
22
               MS. CANFIELD: Objection. We've never seen
23
          this email that you have on the screen.
24
               MS. HAGAN: That's the wrong one, actually.
```

1 I'm sorry. Stopping share. It's the wrong one, so -- sorry. My apologies. I was looking for 2 Exhibit 2. There should be Exhibit 2. 3 Now, Plaintiff's Exhibit 2 -- and you should 4 0. 5 see it now. Or is it still not sharing? MS. CANFIELD: No, we can't see it. 6 7 MS. HAGAN: Here it is. So Plaintiff's Exhibit 2, right. 8 9 Now, we were discussing Plaintiff's Exhibit 2, and we were talking about the business cards. And 10 that was dated May 25th; right? 11 The previous email was May 2018, yes. 12 Α. Correct. And then in Exhibit 4 -- Exhibit 4 13 Q. 14 was dated May 3rd, 2018. You see that; right? 15 Α. Actually, the screen --MS. CANFIELD: Not yet. 16 -- the screen is frozen that you're sharing, 17 Α. 18 so I can't see it. 19 Okay. Exhibit -- are you seeing right now Q. 20 Exhibit 4? MS. CANFIELD: No, we can't see it. It's 21 frozen. It looks like it's a tornado. 22 23 Q. Okay. Are you seeing it now? 24 Yes. May 3rd, 2018. Α.

1 Q. Right. 2 Α. Yes. So Exhibit 2 was May 25th, and Exhibit 3 --3 0. and Exhibit 4 was May -- Exhibit 4 is May 25th, and 4 5 Exhibit 2 is May 3rd. Would you agree with me Dr. -- Dr. 6 Jain? 7 I'm sorry. I cannot see the screen, but if Α. those are the dates of the emails, then I have no 8 disagreement with that. 9 Now, at any point, did you tell Dr. Kaye when 10 she filed her complaint with the EEOC, that you would 11 12 have to tell Mr. Wangel? 13 When it was initially brought to my Α. Yes. attention, I informed Dr. Kaye that I would bring it to 14 15 the appropriate individuals who would help resolve that 16 issue. 17 And why was Dr. Wangel -- not Dr. Wangel --18 Mr. Wangel identified as the appropriate person and not 19 the EEOC officer, HSC? 20 MS. CANFIELD: Objection as to form. 21 answer. 22 I'm not sure. When I initially started, and Α. 23 I still had -- I believe I also, at that time, spoke 24 with Dr. Ford. But nonetheless, I needed to see who I

should address this with, and I was informed that it was labor relations, Jonathan Wangel. So as I recall, I was informed that he would be the appropriate person to help address this matter.

Q. Do you know -- during that time period, do you know who the EEOC officer was at HSC?

MS. CANFIELD: Objection to form. You can answer.

- A. I don't recall who it was at that time.
- Q. By the time you left, do you remember who was the EEO officer?
- MS. CANFIELD: Objection to form. You can answer.
  - A. I had some contacts with the EEOC. I'm not sure who the exact director was.
- Q. Okay. Did you ever receive any materials in EEO office?
- MS. CANFIELD: Objection to form. You can answer.
- 20 A. I believe so. I'm not sure specifically what 21 you're referring to.
- Q. Now, you said that your interactions with Dr.

  Kaye were adversarial by the time -- October 2018;

104

15

16

17

18

19

20

21

22

23

24

Now, what do you mean by that exactly? Q.

Α. Yeah. So as I mentioned earlier, my attempts at trying to have a collaborative or collegial interaction were resisted. I was accused of incorrectly putting her hours in Kronos, which is our timekeeping system, for example, which is inaccurate; because if anything, I was trying to be supportive and help put her hours in, as she had requested, and also to provide coverage in the clinic and other support in the clinic. When these issues regarding her pay parity were raised or her schedule, I was also faced with some -- an adversarial interaction there, where I was only trying to help assist and help support. And same with matters such as, for example, there was some time off needed for an examination, a board examination, and I supported that. But then I was also being accused of not supporting that or not doing those matters. And then as I also mentioned, my notes were taken from the chart. My -- in the statements that were just discussed earlier, not wanting to meet with me --Q.

But I'm going to ask you something --

-- but all of these became -- the totality of Α. everything, yes, led me to a reasonable conclusion that

there seems to be an adversarial posture here, and it's
not entirely clear to me why.

- Q. I'm going to ask you a question here, Dr.
- 4 Jain. Did Dr. Kaye ever have a verbal argument with you
- 5 between the time you were hired in April 2018 and
- 6 October 2018?

106

- A. A verbal argument?
- Q. Yes.
- 9 A. Can you clarify?
- 10 Q. Like we're having a conversation right now;
- 11 right? Did Dr. Kaye ever speak to you in an adversarial
- 12 tone?

- A. Yes.
- Q. Between April and October of 2018?
- 15 A. Yes.
- Q. Okay. When did she speak to you in an
- 17 adversarial tone between those two dates?
- 18 A. So a few times that I did have direct
- 19 interactions --
- Q. Well, let's just go the first time. The
- 21 first time between April of 2018 and October of 2018,
- 22 when was the first time that Dr. Kaye spoke to you from
- 23 an adversarial tone?
- A. So the first that I recall was in the summer

1 of 2018. Also, when I was wanting to set up -- one example, I'm remembering from that time, was when I 2 3 wanted to set up individual meetings with each of the directors. And I was faced with a lot of resistance, 4 5 defensiveness, demanding why we need to meet, that she needed an agenda before we meet. And so that was very 6 7 unclear to me. No other directors had done that type of 8 posture --So your testimony is that Dr. Kaye stood in 9 10 your face and told you -- asked you, why did we need to meet, and we need an agenda before we met; is that what 11 12 you're testifying to? I didn't --13 Α. 14 MS. CANFIELD: Objection. The testimony 15 speaks for itself. You can answer. Please don't interrupt the --16 Did Dr. --17 0. 18 MS. CANFIELD: But you're interrupting the 19 witness as he's testifying. If you can stop doing 20 that, just to rephrase what he just said. You can 21 answer. 22 Did Dr. Kaye call you and tell you she would Q. 23 not meet with you without an agenda? Yes or no? 24 Can I repeat that question. Did she --

Α.

- Q. Did Dr. Kaye ever call you or verbally speak to you and tell you she would not meet with you without an agenda?
- A. She said that she -- she was questioning why we needed to meet and also questioning, in a very resistant manner, about why we needed to have these meetings and what the agenda was.
  - Q. I'm asking you --

- A. -- so that would --
- Q. -- if it was a verbal conversation, though,
  Dr. Jain. Did she verbally tell you that, or was it -where were you? Were you on the phone, or were you face
  to face?
- A. Yeah. So I had an email exchange where I first asked about having meetings. And then the next time I was in the court clinic, I recall an interaction when she asked me to come into her office, and then somewhat aggressively asked why we needed to meet, and I asked that we wanted to meet, so what did I want to talk about. And so I was taken aback by that tone and wondered why -- why this is coming forward. And then also, compounded with the other accusations about supposedly changing her schedule, supposedly impacting her time off, that tone and everything as I mentioned,

1 the totality of everything, yes, was adversarial. Did you have a problem with any of the tone 2 -- the tone of any of the male directors at the clinic? 3 MS. CANFIELD: Objection to form. Assumes 4 there was a tone. You can answer. 5 Α. With the male directors? 6 7 0. Yes. Did you have any problems with the male directors and their tone? 8 9 Α. I cannot answer that. 10 0. Okay. Did you have a problem with Dr. 11 Winkler's tone with you, Dr. Jain? 12 Α. No. 13 Did you have a problem --Q. 14 Α. There was -- well --15 0. Did you have a problem with Dr. Mundy's tone 16 with you? 17 Α. There -- again, I cannot answer that. 18 0. Why not? 19 Well, I'd have to review and reflect on each 20 of my interactions with them. In the course of an 21 interaction, I cannot say whether or not there were 22 instances where there may have been a tone, but I had no 23 instances where there was a consistency of that tone or 24 a consistency of that posture.

1 Q. Was there ever a time -- okay. Was Dr. Winkler adversarial with you at any 2 3 point? I would characterize our discussions more 4 Α. about procedures where people openly expressed opinions, 5 which I welcomed those types of discussions. But was 6 7 the posture taken where it was actually adversarial or 8 directed at me particularly, no. 9 So Dr. Winkler didn't have an Q. Okay. 10 adversarial dynamic with you that's established; right? 11 Α. I think that would be a fair statement, yes. 12 0. And Dr. Mundy, did he have an adversarial 13 dynamic with you, Dr. Jain? 14 Α. In totality, no. 15 0. And did Dr. Weiss have an adversarial dynamic 16 with you? 17 Α. Dr. Weiss, no. 18 Q. Okay. So --19 MS. CANFIELD: I think you're forgetting Dr. 20 Owens. MS. HAGAN: No, I'm not. I'm asking about 21 the men. Do not -- do not -- do not coach the 22 23 witness. 24 Now, Dr. Jain, at any point, did you 0.

circulate policies for the staff to discuss during the course of your tenure as center director?

- A. Yeah. We often drafted policies to discuss with the directors.
- Q. Now, at any point, did you circulate a private practice policy for discussion?
  - A. Yes.

- Q. Okay. What do you recall about that private practice policy?
- A. The private practice policy, from my recollection, was the first policy that we drafted for the court clinics. And it was a policy to set the parameters of what private practice would be appropriate in the context of the examiner's role as forensic examiners for the court clinics. So to make sure that there were no conflicts, to set appropriate parameters for when it would be appropriate to do private policy, when it would not be appropriate to do private policy. So as I recall, those were the procedures regarding private policy.
- Q. Did you obtain comments from all of your directors on this policy?
- A. Yes. As I sent out the policy for draft, as
  my practice typically was, it was to draft it and then

seek consultation and input from the directors.

- Q. Did Dr. Kaye ever raise a concern about what she deemed to be double-dipping or the potential for that taking place?
- A. I'm not sure those specific terms. In general, that was a common concern, a common discussion, something I also agreed with, that there needs to be a separation of private practice and not conflicting with our work in the court clinic, our primary focus in the court clinic, and also making sure there isn't doing private practice while somebody's actually in work hours. So we had our procedures in place with that, which I agreed with.
- Q. Was there any, you know -- was there an effort made to incentivize the directors to, I guess, remain at the clinic by encouraging to have private practices?
- A. I wouldn't say encourage to have private practice, but private practice was supported when it was appropriate.
- Q. How did that play -- how did this policy interact, or I guess correlate with the conflict of interest towards Rule 68?
- MS. CANFIELD: Objection as to form. I don't

know if you want to opine on the law, but answer the best you can.

MS. HAGAN: You're writing the policy. Please don't coach the witness.

- A. Yeah. So part of our procedure to review the policy was also to review with legal counsel. And they incorporated the different matters, legal provisions needed from policies such as the conflict of interest board.
- Q. Okay. And to your knowledge, what were the parameters that were put in place to ensure there would be no conflict?
- A. So as I recall, some of the measures we had in place were that individuals were not permitted to do private criminal cases in their borough, any private 730 examinations that were also done by any of the court clinics and then also each -- if they had any type of patient or any other interaction that would create a conflict with our court clinic -- within work in the court clinic or seeing defendants in the court clinics, those private practice -- practices would not be permitted under this policy.
- Q. Did it ever come to your attention that any of the directors used the centers to see any of their

114

23

24

1 private patients? MS. CANFIELD: Objection to form. You can 2 3 answer. When I first started -- at the beginning, I 4 Α. 5 wasn't sure if examiners or directors were using the clinics, but it did come about that we should set that 6 7 as a parameter in the private practice policy, that they 8 should not be using our court clinic time or space to do 9 those types of examinations. So I'm not sure. 10 now and then, there would be a request from an attorney or a judge or a private examiner asking if they could 11 use our clinics, and we would refer back to the policy 12 13 and say, no, they cannot. But I don't recall specifically if that was happening with some routine. 14 15 But certainly, that was part of our parameter in the 16 private practice policy. So what was your position towards Dr. Kaye's 17 Q. 18 concerns about double-dipping and rigging of the exams as by-products of this particular policy? 19 20 MS. CANFIELD: Objection as to form. 21 answer. 22 I'm not sure I had concerns regarding Dr. Α.

- A. I'm not sure I had concerns regarding Dr.
  Kaye's private practice. I'm --
  - Q. No. I didn't ask you about Dr. Kaye's

private practice.

1

2

8

9

10

11

12

13

14

15

16

17

18

19

- A. I'm sorry. I misunderstood.
- Q. I'm talking about her concerns that the policy would further encourage double-dipping and rigging of examinations for --
- 6 MS. CANFIELD: Objection as to form. You can answer.
  - Q. What was your position or your posture in that regard?
  - A. I agreed with that. I thought that that was a important concern and something that we incorporated in the policy, as I would do with all of the directors, male and female directors, because that was brought up earlier. I had no issues. I would incorporate feedback and input from the directors.
  - Q. Did you convey your agreement to -- or share your agreement with Dr. Kaye that you would -- about her concerns?
    - A. Could you repeat that question, please.
- Q. Well, up until now, you said in totality, your dynamic with Dr. Kaye was adversarial.
  - A. Uh-huh.
- Q. However, you're testifying that you agreed with the concerns she raised regarding the private

116

19

20

21

22

23

24

1 practice policy. Did you ever tell her, Dr. Kaye, I agree with you about this private -- your concerns about 2 3 the private practice policy? MS. CANFIELD: Objection as to form. 4 You can 5 answer. I -- I both agreed with the premises, as well 6 Α. 7 as incorporated those concerns into our private practice policy. And --8 But my question is: Did you tell her that? 9 10 Α. I believe either at a meeting or in some way, acknowledged that that was a similar issue that I had. 11 12 But overall, I incorporated it into the policy. So as I 13 recall, I did my best to communicate. But ultimately, the form of communication was that I incorporated it 14 15 into the policy as well. So I believe I may have said 16 it, but I certainly incorporated it, and I took that suggestion seriously. 17 18 Now, you also testified earlier that staff at 0.

Q. Now, you also testified earlier that staff at the Bronx Court Clinic felt targeted. Who were the staff people that felt targeted by Dr. Kaye -- who you determined felt targeted by Dr. Kaye?

MS. CANFIELD: Objection to the form. You can answer.

A. Yeah. So the staff in the clinic were Dr.

24

Mullan and Dr. Brayton. Those were two examiners at that time at the court clinics. And then also, we had other interactions from staff -- administrative staff who were up there. And there was a general environment that was tense, that they would describe to me. they also felt that they were often targeted or felt like there may have been a campaign against them. so that was described to me on more than one occasion. So let's start with each person. Dr. Mullan, what did she say about Dr. Kaye? MS. CANFIELD: Objection as to form. You can answer. So in general, Dr. Mullan, from what I Α. Yeah. recall, had been in the clinic for about a year. initially, there were -- she would do the work, and I had no complaints from Dr. Kaye or Dr. Mullan. But as time went on, increasingly, Dr. Mullan expressed to me, towards the end of her time there at the clinic, that there was a tense environment there. She felt targeted by Mr. Bloom and also Dr. Kaye, who worked closely with

Mr. Bloom, and that there were times where she felt that

there was a campaign and that she felt that there was

also no support from Dr. Kaye when those issues were

being raised. And so they would often describe that

setting, that environment in the clinic to me.

Q. And when you say -- first and foremost, let's kind of lay some foundation.

Dr. Mullan, in what capacity does she work at the -- at the clinic?

- A. She was a part-time psychiatrist who was conducting 730 and 390 examinations.
- Q. Okay. And you say that there was a campaign
  -- she felt there was a campaign against her. What kind
  of campaign are you saying?
- A. Yeah. So she would, at times, feel intimidated by the clinic and by Mr. Bloom on some occasions, and described that there was kind of a posture, or almost it seemed to me like -- almost, you know, concerning where she was not able to feel comfortable there doing her work. And that also that, for example, there was some reputation or something about her rendering opinions that were always in one direction, and that --
- Q. Malingering -- was the rumor that Dr. Mullan quite often found people, I guess, malingering?
- A. That was one of the concerns she raised, that people thought that she had that type of meaning in her opinions and --

1	Q. Was it true that she often found defendants							
2	malingerers?							
3	A. I cannot say if she had that meaning.							
4	Q. Did you review her reports to determine							
5	whether or not there was any truth to that allegation,							
6	as her supervisor?							
7	A. I reviewed her procedures. On occasion, we							
8	would discuss some of her cases and her thinking behind							
9	it. I was very mindful and thoughtful not to interfere							
10	with her opinion, but I was interested in knowing how							
11	she arrived at her opinions. And I in reviewing the							
12	procedures there, I didn't think that there was anything							
13	that indicated to me that she had an inappropriate							
14	leaning or a bias in one direction or another. She may							
15	have had							
16	MS. CANFIELD: Let him finish.							
17	MS. HAGAN: I didn't say anything.							
18	MS. CANFIELD: Okay. Sorry. Go ahead.							
19	A. Yeah. I was just going to finish that.							
20	There may have been times where her opinion was							
21	malingering, where other examiners may have not had that							
22	opinion. But to me, that's not a bias. That's a							
23	objective opinion that just happens to not be in line							
24	with others.							

- Q. About how many times would you say -- about how many reports would you say that Dr. Mullan wrote during your tenure at the Bronx Court Clinic. Do you know?
  - A. I would not know specifically, no.
- Q. Okay. So she was part time. And when you say she was intimidated by Dr. Kaye, what do you mean by that exactly?
- A. Yeah. So initially, they were able to work, what I would describe as, well together. And then as time went on, she also described to me the interactions with Mr. Bloom and Dr. Kaye. She felt like that atmosphere was intimidating.
- Q. Okay. But what do you -- how did she define intimidating, Dr. Mullan?
- A. That there was a tense environment. Dr. Kaye would often be having meetings with Mr. Bloom for long periods in her office. They felt that they couldn't approach her with certain types of questions. And that --
  - Q. Who is they?
- A. Dr. Mullan and Dr. Brayton both expressed this to me. And then they also described -- and Dr. Mullan also described to me at times where -- with

```
1
    interacting with Mr. Bloom, that -- and at some of the
 2
    examinations also, that there were times --
 3
               MS. HAGAN: Oh, he's freezing.
               THE WITNESS: Can you hear me now?
 4
 5
               MS. CANFIELD: Yes, but we missed the last
 6
          part of your answer.
 7
               THE WITNESS: Okay. Can you repeat what the
          last part of my answer was?
 8
 9
               MS. HAGAN: You were saying that there were
10
          times --
11
               MS. CANFIELD: Can the court reporter do it,
12
          because she has --
13
               MS. HAGAN: Okay. Sure.
14
               MS. CANFIELD: Yeah.
15
               MS. HAGAN: You can do it verbatim. Why not.
16
17
                (The requested testimony was read back.)
18
19
               Does that refresh your recollection, Dr.
          Q.
20
    Jain?
21
               Yes. I can do my best to pick up where that
          Α.
22
    statement was.
23
          Q.
               Yes.
24
               So there were times where Dr. Mullan
          Α.
```

expressed to me that she felt intimidated and -- by Mr. Bloom. And even in their interactions and their examinations, that he was trying to push towards certain opinions in the examination. And she also did not feel comfortable raising this with Dr. Kaye, because of that environment. And that she felt that both of them had been working together closely, and that she felt intimidated not being able to raise this in the court clinic appropriately.

- Q. Now, for purposes of clarity, was Dr. Kaye ever Dr. Mullan's supervisor?
- A. Dr. Mullan was a locum tenens, so was not in our organizational structure at CHS. But in essence, as the director of the court clinic, Dr. Kaye essentially had that oversight role with Dr. Mullan.
  - Q. Did Dr. Kaye sign off on Dr. Mullan's time?
- A. No.

- Q. Did Dr. Kaye schedule Dr. Mullan's examinations?
- A. I believe so. Or the examinations were done in the court clinic itself. I'm not sure what decisions were made. They were often -- they needed to be scheduled, so both examiners could be present. So I presume that there was some coordination of scheduling

```
1
    for Dr. Kaye and Dr. Mullan.
               Did Dr. Kaye ever evaluate Dr. Mullan's
 2
 3
    performance?
               Dr. Mullan did not have any formal
 4
 5
    evaluations, because she was not an employee of CHS.
 6
               So how was her performance actually assessed
          0.
 7
    if she wasn't -- she wasn't given performance
    evaluations?
 8
 9
               MS. CANFIELD: Objection as to form.
10
          answer.
11
               So any feedback or any information was
    provided, as I recall, through feedback from the
12
    directors or feedback from herself as well. So --
13
               Did Dr. Kaye ever complain to you, Dr. Jain,
14
          0.
15
    about Dr. Mullan?
16
                She brought up that -- from what I recall,
17
    that I believe in general terms, that there were
18
    concerns raised by attorneys in the court clinic.
19
               Did she ever -- did Dr. Kaye ever -- did Dr.
          0.
20
    Kaye ever criticize Dr. Mullan's work herself?
21
               MS. CANFIELD: Objection as to form. You can
22
          answer.
23
                I think in those instances, I don't recall
24
    specifically, but there were mentions of that others
```

have complained about her.

- Q. Okay. Now, Dr. Brayton, you mentioned that she also had, I guess, issues, for lack of a better word, with Dr. Kaye; is that right?
- A. She herself raised that there was a tense environment in the clinic, and that there was often intimidation in the clinic, both from Dr. Kaye and Mr. Bloom.
- Q. I'm going to -- I'm going to backtrack one second. You said Dr. Mullan worked at the clinic for a year. Why didn't she continue to work at the clinic?
- A. So there were -- initially she had said that her -- I believe because of school issues with her children, she had given a certain time that she will no longer be able to work there. However, also, it came to my attention and she discussed with me as well, that there were other matters in the clinic too, other tensions, other concerns in the clinic that made it a difficult environment to work in.
- Q. So you said that she had issues with her children and school. She was a part-time worker.

  Couldn't CHS accommodate her schedule if she had school

  -- child care issues?
  - MS. CANFIELD: Objection as to form. You can

answer.

1

2

3

4

5

6

7

8

9

10

21

- A. Yeah. I'm not sure what the specific issues were. I just know that one of the reasons she gave is something related to the educational time or something about her schooling with her children. And that was the time that she needed -- that she gave that as kind of a general time that she can't work after that, but I don't recall the details.
- Q. Now, we were talking about Dr. Brayton and you said there was a tense atmosphere at the center.
- 11 Would that be accurate?
- 12 A. Yes.
- Q. Now, initially, you testified that Dr.

  Brayton trained under Dr. Winkler for -- I guess, let's

  try -- let's try to pinpoint some times. Dr. Brayton

  was hired when?
- A. Dr. Brayton was hired in the fall towards the end of 2018.
- Q. Okay. And then how long did she -- how long did Dr. Winkler train Dr. Brayton?
  - A. I believe she was in the Brooklyn Court Clinic for maybe about two months.
- Q. Okay. Did there ever come a time where Dr. Ford determined that Dr. Brayton needed to get to the

Bronx Court Clinic because of the workload issues there at the clinic?

- A. Yeah. That was a general discussion of when the timeline would be for her to appropriately go to the Bronx Court Clinic.
- Q. Now, did Dr. Brayton have any previous
  forensic psychiatric experience?
  - A. Dr. Brayton?
  - Q. Well, let's say, did Dr. Brayton ever have any forensic evaluation experience prior to her position?
- 12 A. Yes.

126

1

2

3

4

5

8

9

10

11

13

14

19

20

- Q. Okay. And where was that experience?
- A. I believe that was in family court.
- Q. But isn't that different from criminal defendants in a penal institution?
- MS. CANFIELD: Objection as to form. You can answer.
  - A. Yes, it's a different type of evaluation.
  - Q. Right. So she wasn't doing 730 examinations prior to working at the court clinic?
- A. She, from what I can recall, had some
  experience doing 730s in her training and in her career.
  Immediately prior to the court clinic, her role was with

the family court, which were not 730 examinations.

- Q. Now, what did the training of Dr. Winkler provided to Dr. Brayton entail? What did that entail?
- A. So day to day, I'm not entirely sure what
  that supervision or training looked like, in general.

  When Dr. Winkler and I would be in contact, we discussed
- 8 examinations and then doing 730 examinations herself as
- 9 an independent examiner. And then, also, involved in
- 10 doing psychological testing with the Brooklyn Court

that she was initially starting with observing

- 11 Clinic. Also be involved in those matters. I believe
- 12 she also had testified on a number of occasions in the
- 13 Brooklyn Court Clinic as well.
- Q. Did any judges raise issues with Dr.
- 15 Brayton's work?

1

2

3

- 16 A. Not to my knowledge.
- Q. Did the legal -- did the defense community -did any of the defense organizations raise questions
  about Dr. Brayton's work?
- A. The only time it was brought up was from Mr. Bloom.
- Q. So it's your testimony that no one else
  complained about Dr. Brayton's reports or the substance
  of the reports themselves to you?

- A. To my direct knowledge, the main person was Mr. Bloom. In the course of training and the course of when she was initially starting, there's often feedback. But I don't recall necessarily anything specific, any complaints from other attorneys regarding her work. Not to my knowledge.
- Q. Did there come a time when you would come to the Bronx Court Clinic and just meet with Dr. Brayton and not Dr. Kaye?
  - A. Yes.

- Q. Why?
- A. This was requested by Dr. Kaye. Dr. Kaye would ask that I provide supervision to Dr. Brayton on occasion, especially in matters in which they were both co-examiners. And Dr. Kaye was not able to provide supervisor.
- Q. Well, were there times where you excluded Dr. Kaye from meetings with Dr. Brayton?
- A. I would not say excluded. We had a procedure in place where I'd provide supervision, and Dr. Kaye and myself and Dr. Winkler met about that. And so it was not an exclusion. It was just to provide that supervision.
  - Q. Did there ever come a time Dr. Kaye was

designated as Dr. Brayton's supervisor for the very
limited purposes of signing her time sheets?

A. Well, yes. She was, as the supervisor and
director of the clinic, just like all the other
directors did with their staff. Yes, she was assigned
to -- enter and sign off of Kronos for Dr. Brayton. And
also, this was something that had been decided mutually,

because Dr. Kaye had raised a question about not being aware sometimes of Dr. Brayton's schedule or time off.

So to accommodate that, we came to an agreement that it makes most sense, just like every other director oversees their staff, that Dr. Kaye also oversee Dr.

13 Brayton in the court clinic.

Q. So is it your testimony that Dr. Brayton was Dr. Kaye's staff person?

A. The supervision that was provided to do Dr.

Kaye -- sorry, to Dr. Brayton was after discussion with

Dr. Kaye and Dr. Winkler, of how to handle that. It was

determined that, yes, Dr. Kaye would be the supervisor

for the clinic, for procedures. And of course, she can

supervise and be available for any consultation for Dr.

Brayton as needed. If there were specific matters

regarding cases were Dr. Brayton and Dr. Kaye were both

co-examiners, then I'll provide supervision and be

1 available for Dr. Brayton. And then if there were specific matters --2 3

The specific question --

21

22

- Α. Just to finish this, and if there were specific matters regarding psychological testing, because Dr. Brayton and Dr. Winkler were both psychologists, that Dr. Winkler would provide that supervisor.
- Because that was the question I was going to have. Wouldn't the prospect of Dr. Kaye being Dr. Brayton's supervisor be problematic to the extent that they may be actually assigned the same -- they may be evaluating the same inmate at any given time?

MS. CANFIELD: Objection. Asked and answered. You can answer again.

- Yes. And that's why we had that procedure and distinction in place. For when those matters arose, we would provide appropriate supervision.
- Did Dr. Kaye raise this concern with you in Q. the course of her discussions with you?

MS. CANFIELD: Objection to form. You can answer.

23 Concerns regarding what? I may have missed Α. 24 that.

1	Q. About supervising Dr. Brayton because of the								
2	potential for there to be a conflict, such as the one we								
3	just discussed.								
4	MS. CANFIELD: Objection to form. You can								
5	answer.								
6	A. Yes. This was we had a meeting together,								
7	Dr. Kaye, Dr. Winkler and myself, the three of us,								
8	regarding that and how we would handle those matters								
9	when there's a when both the director and Dr. Kaye								
LO	and Dr. Brayton are both co-examiners, how we would								
L1	handle that. So yeah, we it was a concern, but it								
L2	was a mutual concern that we resolved.								
L3	Q. So you agreed with Dr. Kaye and you resolved								
L <b>4</b>	the concern in a mutually accepted way acceptable								
L5	way; is that right?								
L6	MS. CANFIELD: Objection to form. You can								
L7	answer.								
<b>L8</b>	A. That was my understanding of how that								
L9	resolved, and that was the goal of trying to resolve								
20	that.								
21	Q. Was Dr. Kaye's posture towards you regarding								
22	Dr. Brayton adversarial?								
23	MS. CANFIELD: Objection to the form. You								
24	can answer								

A.	In tha	t inst	ance,	we we	ere able	to ha	ve a	
discussion	along	with I	Or. Wi	nkler	present	regar	ding	that
specific ma	atter.	We we	ere ab	le to	resolve	that	speci	fic
matter.								

Q. But the question was: Was it adversarial? That was the question.

Was Dr. Kaye adversarial when she raised her concerns about supervising Dr. Brayton. Yes or no?

MS. CANFIELD: Objection to form. You can answer.

- A. I can't answer that yes or no.
- Q. So you can't -- you can't say that Dr. Kaye was either professional or -- or let's say adversarial or neutral in her, I guess, approach in expressing her concern about being Dr. Brayton's supervisor. You can't -- you can't answer yes or no?

MS. CANFIELD: Objection to form. You can answer.

- A. So there are multiple interactions regarding that. In that particular instance, and my goal was to make sure that we don't have an adversarial interaction, because that's not my posture, we were able to come together and resolve that particular matter.
  - Q. And the private practice policy when Dr. Kaye

1 raised concerns, was she adversarial in that context? She was not adversarial in that particular 2 Α. context with me. 3 Right. With you. Okay. 4 0. MS. HAGAN: Well, it's like 1:22. Would you 5 like -- I'd like to take a break until like 2:15. 6 7 Is that okay for -- okay with everyone? MS. CANFIELD: Sure. Take a lunch break. 8 9 MS. HAGAN: Yes, please. So let's meet back 10 -- let's actually -- let me give myself another 11 few minutes. Let's meet back at 2:25. Does that 12 work? 13 MS. CANFIELD: Yes. And do you anticipate going until 6:00 tonight. 14 15 MS. HAGAN: Probably, yes. At the rate this 16 is going, yes. So let's take a break. Okay. 17 Thanks. 18 19 (Luncheon recess taken from 1:23 p.m. 20 until 2:28 p.m.) 21 22 BY MS. HAGAN: 23 So Dr. Jain, were there times when you spoke Q. 24 about just staffing issues, just general staffing issues

that involved the various clinics and -- and
particularly the Bronx Court Clinic?

134

22

MS. CANFIELD: Objection as to form. You can answer if you're able.

- A. Yes. There were times in general that we would have those discussions.
- Q. And -- and of the clinics, how would you describe the Bronx?
  - A. In what way, specifically?
- Q. Well, did they have any problems meeting, I guess, performance thresholds?
- A. The Bronx often had cases that -- both with production issues as well as cases being examined and evaluated and some staffing, generally. Those were considerations in the Bronx. Also by volume, it was the clinic that had the least number of cases.
- Q. And how did you determine that the Bronx had the least number of cases? How did you quantify their output?
- A. By the number of 730 examination orders that were sent to the clinics.
  - Q. And who kept that -- who kept track of that?
- 23 A. That was a combination of our administrative 24 staff, including Lucrecia and Andrea Swenson, as well as

we had a computer system that kept track of that, and that each clinic may have had their own system individually that kept track of the number of cases as well.

- Q. Now, did there come a time where the hard drive at the Bronx Court Clinic crashed and their data basically went with it?
- A. That's what was informed to me that either the day before the transition to CHS or the day before, that the hard drive had crashed. The further details, I was not aware of. But I was aware that there was some computer issue there.
  - Q. Were there ever --

- A. And I believe that IT was also working on resolving that.
- 16 MS. HAGAN: I'm sorry for interrupting you.
  - Q. Were there ever times where there's -- that the numbers that were projected from the Bronx contradicted -- were contradicted by either Dr. Kaye or some of the Bronx defense organizations?
  - A. Well, there were numerous times where the Bronx defense attorneys would send emails to the mayor's office claiming that there was a number of backlog of cases in the clinic, which was not true. It was not

accurate. And how they obtained that information is not entirely clear to me in the first place, but the numbers that they were reporting were inaccurate. And we systematically went through the ones that they were claiming and found that each -- the numbers were not lining up with what they were saying, that we had been addressing a lot more of the issue, but it seemed to be a way to paint that CHS was not seeing those cases.

- Q. Was there an email that listed each inmate that hadn't been seen by CHS between, let's say,

  November 2018 and January 2020 -- no, November 20 -
  November 2019 and January 2020?
  - A. Was there an email to me or in general?
- Q. In general, that circulated about the specific defendants that had not been seen by the court clinic and -- and the amount of time that they had been actually detained without being seen -- being evaluated?
- A. I'm not sure. That's a very broad question.
  Was there an email such as that? It's very possible.
  - Q. Because you just --
  - A. I know that --

Q. What you testified just a minute or two ago, was that there was a -- I guess, some kind of narrative being circulated that there was a backlog at the

1 clinics, and that CHS went through the system and identified the alleged defendants that had not been seen 2 3 and explained why each defendant may have been wherever 4 they were in the system. Is that what you testified to? MS. CANFIELD: Objection as to form. 5 ahead, Dr. Jain. 6 7 Α. I'm referring to one email that I Yes. 8 recall specifically from -- regarding the Bronx Court 9 Clinic to the mayor's office regarding a supposed 10 backlog of cases. And that was an email that I recall reviewing with our administrative staff, and 11 12 systematically going through each case and identified that that email was not accurate. 13 14 Now, did you write this email, Dr. Jain? 0. 15 Α. This email was not written by me. 16 email was from Mr. Bloom to the mayor's office. 17 Q. And did you respond to the email? 18 As I recall, I either helped draft a response 19 as we reviewed the cases. I'm not sure if it was sent 20 formally by me or by someone else from CHS, but I was 21 involved with making sure we reviewed the case. 22 don't recall who specifically responded to that email. 23 MS. HAGAN: I call for the production of this

24

email.

24

1

Q. Now, was it sent in like January or February of 2020?

Α. 5

138

I'm not sure. The time period may have been towards the end of 2019 or beginning of 2020.

7

MS. HAGAN: So I'll follow up in writing.

8

MS. CANFIELD: We'll take it under advisement.

Now, to be clear -- let's make sure the record's clear. Dr. Brayton's last day of work at the clinic was November 22nd, 2019; is that right?

MS. CANFIELD: Objection to form. You can answer.

- From what I recall, November 2019 is correct. Α.
- Did the -- did the court clinic stop seeing defendants from -- from, let's say, November 2019 to January 2020?
- There were a number of challenges in having Α. staff review these cases. And so we worked with each of our court clinics, all four court clinics, to see if there was a possibility of having those cases seen and fulfill those orders. So I don't recall -- I do recall that there was a challenge at that time period. I don't

think I can testify to that no cases were seen.

Q. Did there ever come a time when Dr. Kaye asked about when you, guys, would be able to see defendants since they were going for, I guess, periods of time without being seen at the clinic?

MS. CANFIELD: Objection to the form. You can answer.

- A. Yes. There were those types of discussions consistently among our court clinics, among our administrative staff about having cases seen and when we can schedule them and fulfill those orders.
- Q. Did Dr. Kaye raise those concerns with you and/or management?
  - A. I think those were general concerns that were raised with administration. I was aware of them. They were also raised kind, you know, throughout our leadership. We recognized that that was an aspect that we needed to make sure to fulfill and address in the Bronx Court Clinic.
  - Q. But specifically, I asked you if Dr. Kaye had raised those questions with you and/or management; yes or no?
- MS. CANFIELD: Objection as to form. You can answer.

A. She may have. Very possible, because those discussions were occurring, and there were multiple discussions regarding it.

- Q. So I'm going ask you. From the period that I identified, from November of 2019 to January of 2020, did the Bronx Court Clinic stop seeing inmates?
- MS. CANFIELD: Objection as to form. You can answer again.
- A. So again, there were challenges in seeing them, but I would not classify it as the Bronx Court Clinic stopped seeing them. We had to still make our efforts to fulfill those orders. So there was an effort to have them seen in some manner, whether they were seen in the Bronx Court Clinic, whether they were evaluated by another court clinic, whether there were examiners from other court clinics going to the Bronx to see them. So there were multiple efforts. I don't think that would be a fair classification to say, across the board, that Bronx just stopped seeing cases. We had to fulfill those orders.
- Q. Would you -- Dr. Kaye posits that from

  November 20, 2019 to January 2007 -- to January 2020

  when she actually resigned, there were no completed 730

  examinations during that period in the Bronx. She

1 didn't complete any, and the clinic did not complete 2 any. Would you agree or disagree with that, between 3 that period? MS. CANFIELD: Objection as to form. 4 You can answer. 5 I don't think I can agree with that. 6 Α. Yeah. 7 To my knowledge, yes, there were challenges, but to say 8 that they were stopped being seen, I cannot testify to 9 that. 10 Dr. Kaye testified that three days after --11 two to three days after she resigned, the Bronx Court 12 Clinic resumed seeing inmates. Would you agree or 13 disagree with that? 14 So again, I would say that we didn't stop 15 seeing them while she was there. And so I can't say 16 that they resumed, because that would be a mischaracterization. We were able to continue to try 17 18 and accommodate -- accommodate those cases the best we 19 could. 20 Why wasn't Dr. Kaye seeing anybody during 21 that time then? 22 MS. CANFIELD: Objection as to form. You can 23 answer.

That was -- I can't answer that directly.

24

Α.

I'm not sure. There were instances where Dr. Kaye did not want to work with certain co-examiners. And there were also challenges of our staff going to the Bronx because we had, as I described previously, there was tension in the Bronx that people were aware of that. They were concerned about the environment in those interactions and potential intimidation. And so there was a lot of reluctance from staff to be able to provide coverage up there in the Bronx Court Clinic.

- Q. Okay. So you -- I want to break out your answer to two parts. You said there are certain co-evaluators that Dr. Kaye didn't want to interact with. By this time, Dr. Mullan was gone; right?
  - A. Yes.
- Q. Now, before we move on, did Dr. Winkler ever complain to you about Dr. Mullan?
  - A. About Dr. Mullan?
- 18 Q. Yes.

- A. Not to my knowledge. There were similar comments that were -- it wasn't direct complaints from him, but he was echoing what he had heard he said about her from Mr. Bloom in the Bronx.
- Q. So did Dr. Winkler share Mr. Bloom's sentiments that Dr. Mullan had the predisposition of

1 diagnosing individuals with malingering? I'm not sure if he himself believed that. 2 Α. 3 All I knew is the information he was sharing with me about what Mr. Bloom had said. 4 5 So you're saying that Dr. Winkler was the 6 person who told you that Dr. Bloom -- Mr. Bloom was 7 going around telling people that Dr. Mullan was going 8 around kind of like haphazardly finding people 9 malingering; right? 10 Α. There were --11 MS. CANFIELD: Objection. Hold on. 12 Objection as to form. Go ahead. 13 Q. Keep going. Yes. 14 There were multiple people who informed me of Α. 15 that. 16 Who were the other people besides Dr. 17 Winkler, and I guess, indirectly Mr. Bloom, who else? 18 Α. Well, Dr. Mullan told me directly her 19 concerns. 20 Q. Right. 21 And also, Dr. Mundy had raised a concern that 22 he was on a phone call. And he was informed of this as 23 well, that there were these concerns and these

characterizations occurring in the Bronx regarding Dr.

Mullan. Those were the individuals that come to my mind currently. But there were multiple individuals who had informed me of this. So it wasn't just one source.

Q. Now, you said that there were -- after -- you know, during this -- let me -- let me phrase this correctly.

During this window where there was just Dr.

Kaye at the Bronx Court Clinic as the sole, full-time

employee from November 2019 to January 2020, you're

saying that there were people who would not -- who she

would not interact with to do evaluations?

MS. CANFIELD: Objection as to form. You can answer.

- A. As a -- as a group overall, there was reluctance from Dr. Kaye to work with certain examiners. I don't know those individuals specifically, but she was very particular about who she would work with.
- Q. Did she tell you who she would work with, Dr. Jain?
- A. She said she would work with Dr. Winkler, and otherwise, there was a lot of resistance with the other examiners and who she would work with.
- Q. Who were the other examiners that were resistant with working with Dr. Kaye after Dr. Brayton

1 left and Dr. Mullan was gone? MS. CANFIELD: Objection as to form. You can 2 3 answer. So in general, because of the climate 4 5 in the Bronx Court Clinic and the other interactions, not just what they were hearing, but also interactions 6 7 with other attorneys, the way they were describing 8 things, there was a general sentiment among the other 9 directors as well that there was -- there needed to be 10 caution before examiners go there to the Bronx Court Clinic. 11 Who was the other director? Who were the 12 other directors? 13 The other directors, the three directors, Dr. 14 15 Mundy, Dr. Owen, and Dr. Winkler. 16 They all had -- they all had concerns about 17 interactions with Dr. Kaye? 18 Α. They had concerns about interacting with and providing co-examinations with Dr. Kaye, and also with 19 20 individuals like Mr. Bloom or the court clinic. Now, Dr. Winkler worked under Dr. Kaye for 21 22 years. And in fact -- let's start with that. Dr. 23 Winkler worked under Dr. Kaye; isn't that right? 24 MS. CANFIELD: Objection to form. He can

answer.

- A. From -- let me clarify. From what I understand, they both worked in the Bronx Court Clinic for multiple years. And during that time, Dr. Kaye was the -- the director of the clinic.
- Q. Right. And Dr. Winkler was the deputy director; am I right?
- A. Correct.
  - Q. And wasn't Dr. Kaye Dr. Winkler's supervisor?
- A. I'm not sure their exact setup, but if she was the director and he was the deputy director, then that would stand to reason.
- Q. Now, you're saying that Dr. Winkler's position, at some point, developed into having concerns with working with Dr. Kaye; is that right?
- MS. CANFIELD: Objection to form. You can answer.
  - A. So to clarify, in general, there were concerns about any examiner going there to the Bronx.

    Dr. --
    - Q. I'm asking you about Dr. Winkler.
  - A. So Dr. Winkler had provided examinations. We were thoughtful when he would be used there, so he didn't across the board say no, but he did raise

1 concerns in general about --What were his concerns? 2 Q. 3 Α. -- issues that were going on in the Bronx. What were his concerns? 4 0. 5 MS. CANFIELD: Let the witness finish his response, please, before you ask your question. 6 7 Go ahead, Dr. Jain. What were Dr. Winkler's -- what were his 8 0. 9 concerns? 10 So the concerns were the ones that I had mentioned previously regarding the tense 11 12 environment, the adversarial environment, some of the 13 interactions with the attorneys, people being very -the examiners being cautious --14 15 But I'm asking you what Dr. Winkler said 16 specifically. You're giving a general discussion. 17 Α. Right. Those were general issues that Dr. 18 Winkler had brought up and also in general discussion --19 Dr. Winkler said to you specifically that Dr. 0. 20 Kaye was adversarial. Is that what you're telling me? 21 MS. CANFIELD: Objection. Objection. 22 counsel, can you please let the witness finish his 23 response before you interrupt him? The court 24 reporter can't take down both of you, guys,

A. Not that I recall.

Γ	
1	talking at the same time. You're interrupting
2	him. Go ahead, Dr. Jain.
3	Q. Dr. Winkler specifically said that Dr. Kaye
4	was adversarial. Is that the term he used?
5	A. No.
6	Q. Okay. What did he call her?
7	A. I said that the environment was adversarial.
8	The environment was tense
9	Q. But I'm asking you what he called her.
10	You're describing in generalities. I asked you
11	specifically, what did Dr. Winkler call Dr. Kaye?
12	MS. CANFIELD: Objection. Assumes that he
13	called her anything.
14	MS. HAGAN: But he called
15	MS. CANFIELD: Dr. Jain, answer.
16	Q. Did Dr did Dr. Winkler specifically use
17	any negative adjectives to describe Dr. Kaye?
18	A. Not that I recall.
19	Q. Okay. Then we can leave that leave that
20	one alone.
21	Now, did Dr. Mundy use any negative
22	adjectives to describe Dr. Kaye?
23	MS. CANFIELD: Objection. You can answer.

1 Q. Now, as Dr. Kaye's supervisor, when you 2 reviewed Dr. Kaye's 730 examination reports and 390 3 reports, did you have any complaints about the quality of those reports? 4 5 I don't recall specific issues with the 6 quality of the reports. There were some questions 7 regarding how information was obtained, but otherwise, I 8 had no specific complaints about the quality of the 9 report in and of itself. I was also not often in those 10 examinations, so I can't speak to the accuracy of those 11 But no, I did not have any specific concerns 12 regarding the quality of the final product or report 13 itself. 14 Okay. So now, I'm going to show MS. HAGAN: 15 you what's going to be marked as Plaintiff's 16 Exhibit 5, and I'm going to share it. 17 18 (Plaintiff's Exhibit 5, DOCUMENT BATES 19 STAMPED NYC 2014, was marked for 20 identification.) 21 22 Now, earlier I was asking you some questions Q. 23 about --24 MS. HAGAN: I'm not going into the exhibit

yet, Ms. Canfield.

Q. I was asking you some questions about just what the -- you know, just some of the issues that you and Dr. Ford would discuss during your interactions in, I guess, managing the clinic. So Exhibit Number 5, I got -- if I got this right, contains an email that's from -- well, it actually has quite a bit.

MS. HAGAN: This is the wrong one. That's not what I wanted. Oh, boy. Well, I'm going to just make sure this is right.

Q. Exhibit Number 5 is NYC, underscore, 2014.

And it's an email from you, Dr. Jain, to Dr. Ford. And the subject is non-urgent list of items to discuss. And I'm going to scroll down to the extent that there's anything that's readable for you to look at, because there's a significant portion that's redacted.

MS. HAGAN: And I'm going to have to follow up with counsel, because there's no privilege cited or anything. It's just redacted. So I will follow up in writing, and I'm sure your counsel will take it under advisement.

- Q. So I'm going to allow you to read it, and when you're done, Dr. Jain, just let me know.
  - A. Okay.

```
1
          Q.
               Now, Dr. Jain, the email is from you to Dr.
    Ford, and it's dated June 18th, 2018. Now, that's
 2
 3
    pretty early in your tenure at CHS; wouldn't you say?
 4
               That was about two months into my tenure at
 5
    CHS.
 6
               MS. CANFIELD: Is there more to this email
 7
          that he should be reading, just to get it in
          context?
 8
               MS. HAGAN: That's it.
 9
               MS. CANFIELD: Well, how about Number 7, what
10
          is this.
11
12
               MS. HAGAN: Well, yeah. We can look at
13
          Number 7. The rest is redacted, counsel. I can't
14
          give him more than what you gave me.
15
               MS. CANFIELD: Well, there's some -- there's
16
          Number 7 he can read.
               MS. HAGAN: Yeah.
17
18
               THE WITNESS: Yup. Thank you. I've had a
          chance to read that.
19
20
               So now, do you remember this email, Dr. Jain?
               As you're bringing it up, it's refreshing my
21
          Α.
    recollection.
22
23
               Now, the first point goes into the private
          Q.
24
    practice policy. And we talked about that some before
```

the break, remember?

- A. Yes.
- Q. And you're saying in the email that you're going to strategize with the directors. But you said that most of the directors and staff will likely be on board and some will raise a stink. Now, who are you talking about as those who would raise a stink. Who are you referencing, Dr. Jain?
- A. From what I recall, there were individuals in the clinics who had been doing private practice for a consistent period of their time prior to the CHS. So I believe I was referring to those individuals.
  - Q. Do you know who they were?
- A. I don't recall exactly, but I know there were a group of individuals who were doing private practice on some regularity. I didn't know to the extent, because a lot of that predated by employment with CHS, but I did know that private practice was an issue that was brought up pretty regularly by a lot of the staff in the clinics.
  - Q. And what was the stink that they raised?

    MS. HAGAN: I'm sorry. I have -- I have my
    one issues with standing up.
    - MS. CANFIELD: Object --

1 Q. What was the stink --2 MS. CANFIELD: Object ---- that was raised? 3 Q. MS. CANFIELD: Objection as to form. 4 So what was the stink that was raised, I 5 believe, was the last question. 6 7 0. Yes, sir. So with any policy, there might be some 8 9 individuals who like it or not. And so it was more of a 10 general comment that some will raise a stink, not appreciate the change in their ability to do private 11 12 practice perhaps, and that there was a new policy coming 13 This was a common -- with any new leadership forward. 14 and management and reorganization. 15 unsurprising that some individuals who are coming on under new management will have some issues if things are 16 17 being changed. So that was really a general comment 18 regarding that change, and perhaps what they were used 19 to doing before. 20 But what specifically -- I mean from what I 21 understood from you, the private practice only -- the 22 private practice policy only prohibited the employees 23 from doing private practice work in the borough where

24

they worked in; isn't that right?

MS. CANFIELD: Objection as to form. You can answer.

- A. Yeah. So there were a few different limitations. One, private criminal cases in the borough, as I recall. But then also any private 730s involving the city, whether it was in their own borough or another borough within New York City. And then also some limitations on private work with their private treatment or other civil types of cases, non-criminal forensic examinations.
- Q. Now, the next bullet you have is the Bronx; right? And you say, "Melissa seems to be staying with us unless there are problems with her benefits." Why do you -- why do you say she seems to be staying with us? What's going on here?
- A. Yeah. That's what she had told me.

  Initially, as we had -- as you had mentioned before and as we had discussed, initially during the transition, there were comments made by Dr. Kaye about the transition, concerns about the transition, and regarding various benefits and expectations and understanding that she had with CHS regarding those, and it wasn't clear.

At one point, she had called me early on within, you know, the first few weeks, even as I recall,

1 of her stating that she may be looking for employment elsewhere. So I wasn't sure what was happening there. 2 But then as we talked a little bit more, I understood 3 and wanted to relay to Dr. Ford that Dr. Kaye seems to 4 5 be staying with us unless there are further problems with her benefits or further issues that she encounters 6 7 that she may choose to find employment elsewhere. So I was just relaying that information because it 8 wasn't clear at that point whether Dr. Kaye -- we just 9 10 weren't sure what was happening exactly. So I wanted to relay that with Dr. Ford that, to my understanding, she 11 12 was staying with us. 13 Now, I'm going to ask you some questions Now, at some point, did you email or say there 14 15 was a rumor that was circulating that Dr. Kaye was 16 leaving, and that it wasn't true? 17 MS. CANFIELD: Objection to form. You can 18 answer. From what I recall, someone had told me that 19 20 there was a rumor that she's leaving. And my responses, 21 if they came up, were not to my knowledge. So, if 22 anything, I was trying to address that. What I 23 understand is that those rumors were not accurate at 24 that time.

Q. But didn't you testify that when you first started, Dr. Kaye told you she was looking elsewhere? So if that was true -- if that's what you just testified to, then there would have been a consistent rumor that Dr. Kaye was looking to leave?

MS. CANFIELD: Objection to form. You can answer.

- A. I'm not sure if there was a consistent rumor. That was what was told to me from Dr. Kaye, and then that's what some other people asked me about. But I'm not sure what the rumors were or if there were consistent rumors.
- Q. Did you test -- did you email saying that Dr.

  Kaye would ensure that there would be a transition upon
  her departure if she so chose to leave? She wouldn't
  just leave you, guys, hanging, per se?
- A. Yeah. I recall that when we had our initial conversation, even when she brought up that possibility, I got the sense that it was not something that we would have to scramble for last minute, that we would be able to collaborate and figure out a transition period.
- Q. So now, you also go into her -- you also go into saying that she may be asking about the FMLA leave regarding her son. Now, why would she be asking for

1 FMLA at this time? Her shift hadn't changed yet. What 2 made you -- what made you suggest that she would be 3 asking for FMLA? MS. CANFIELD: Objection to form. You can 4 5 answer. As I recall, one of our first -- one of my 6 Α. 7 first discussions with Dr. Kaye, she had shared with me that her son has some health issues, some medical 8 issues, and that she may be thinking about needing some 9 10 time off to provide care for him. So that's all I -- I 11 knew. And there is a typo here in this email as I'm 12 reading this. This says his health issues are not known 13 by you. Actually, this is incorrect. This should say 14 his health issues are known by you and others, because 15 when I asked Dr. Kaye if Dr. Ford already knew this, my 16 recollection is that Dr. Ford was already aware, and 17 that Dr. Kaye said it would be okay for me to share this 18 with Dr. Ford regarding management and the organization of the court clinic. 19 20 So you're -- so within two months, at least, 21 you knew that Dr. Kaye had a son with health issues at 22 least; right? This would be accurate from this email; 23 right?

She had informed me of this, yes.

24

Α.

Q. Now, there's a significant blocked out part here. Do you have any vague recollection what this was about if it didn't involve anything that was attorney-client privilege?

- A. I have no recollection of this blackout area.

  MS. HAGAN: Olay. But then -- I want to put
  this on the record for you to contemplate. Again,
  I'm going to have to follow up with counsel about
  the redacted areas.
- Q. Hiring is still a challenge, so can quickly run through some pieces. So first and foremost, where is hiring a challenge, and why is hiring a challenge?
- A. At that time, all four of our clinics, we were just having different discussions about hiring.

  Each clinic had unique considerations for what those challenges might be. And that's why, you know, I'm indicating here that it will be helpful to just kind of talk through them. Each of the clinics had different challenges, different openings, different considerations that they needed to fill.
- Q. Okay. So now you say, hopefully, we get -hopefully we start getting some strong candidates.

  Also, by the way, although I like stability in the
  clinic, I also don't mind having good balance of

1 experience and steady new -- and you have stability 2 versus stagnancy that we were talking about earlier. 3 Now, first off, you know, what are you talking about when you're saying, "I don't mind having a good balance 4 5 of experience." Who are you referencing when it comes to experience amongst the court clinics? 6 7 MS. CANFIELD: Objection to form. You can answer. 8 So in general, I knew that we had certain 9 Α. 10 examiners in our court clinic that had been there for many years. So I definitely valued experience and 11 12 having individuals there. At the same time, we also 13 know that when there's new trainees or strong candidates coming up, they may take a job for a year or two or for 14 15 a few years early on in their career. So I was not necessarily opposed to the idea of if they are new 16 17 individuals coming in, to also support that as well. 18 Some of the individuals had talked about just making sure that, you know, we're hiring people that will be 19 20 there for the extent -- you know, for a long period of 21 their career, which this was more of a philosophical 22 distinction, that I think a good balance of both is 23 healthy, having individuals there with a lot of

experience, we have that stability, but also making sure

that if there are strong candidates, as part of their job, part of their career development, that they would work in the court clinics, and then there would be new candidates coming forward. So the bottom line here was I was not locked into only hiring people just because we thought they would be with us for multiple, multiple years. This was more like we can have a balance of both.

- Q. But Dr. Jain, you stayed at CHS only two years yourself; right?
  - A. That's correct, yes.

160

5

6

7

8

9

10

11

12

15

16

17

18

23

- Q. And why did you leave CHS?
- A. I left CHS because of opportunities with the Office of Mental Health.
  - Q. Were you approached about that opportunity.
  - A. I was made aware that there was an opportunity with the Office of Mental Health.
    - Q. Who made you aware of that opportunity?
- A. I was informed of this from multiple sources,
  some mentors, some individuals, other forensic
  psychiatrists, saying there might be this opportunity
  that you may be a good fit for.
  - Q. Who is the mentor?
    - A. I don't recall exactly who, but there were

multiple ones who had reached out to me about that.

- Q. Okay. So back to this email. Stagnancy, were you eluding to Dr. Kaye when you referenced stagnancy, and I guess, longer established evaluators?
- A. No.

1

2

3

4

5

9

10

11

12

13

14

22

23

- 6 MS. CANFIELD: Objection. You can answer.
- 7 A. No. Not to my recollection. I wasn't 8 referring to any one specific person here.
  - Q. Okay. So Dr. Kaye alleges that right after she told you about her EEOC complaint and her complaint of pay parity, which was in May of 2018, that in July of 2018, you began to surreptitiously change her time sheets. Now, do you agree or disagree with that representation?
- 15 A. I disagree.
- Q. Okay. So what happened? Why -- did you change Dr. Kaye's time sheets?
- 18 A. In her favor, yes.
- Q. Okay. Now, at some point -- and what do you mean in her favor? Let me -- let me flush this out.
- 21 How were the changes that you made in her favor?
  - A. When we transitioned over to Kronos time system that was in the Manhattan and Bronx Court Clinics in July of 2018, I was informed, and Dr. Kaye told me

162

22

23

24

1 that her hours need to remain the same as they were with Bellevue. Right when that transition to Kronos occurred 2 3 in July, I believe around that time, Dr. Kaye was actually out so -- on a different matter. But in that 4 5 time period, I was, on her behalf, filling her time sheets as she had requested that I do. And that also in 6 7 the course of doing that, I realized that her time that 8 was entered was not consistent with what she requested, 9 which was to keep her hours the same as they were in Bellevue. So in her favor, I made that change to make 10 11 sure they were consistent per request as they were at 12 Bellevue. 13 Now, were you not responsible for changing Q. Dr. Kaye's shift from 9:30 to 5:30 to 8 -- to 8 to 5? 14 15 Α. I do not make that final decision. Who did? 16 0. I believe that was a discussion with labor 17 Α. 18 and HR. My --Was it Mr. Wangel and Ms. Laboy, or was it 19 Q. somebody else? 20 21

- A. Those were my main contact people, but I'm not sure if they had further discussion regarding her hours. If I can just add this, that I know --
  - Q. That's before you went there --

1 MS. CANFIELD: Let the witness --2 Q. When you went there, was Ms. Yang involved in 3 the decision to change Dr. Kaye's hours? MS. CANFIELD: Ms. Hagan, the witness was 4 talking. 5 MS. HAGAN: Yeah, I got that. He's not 6 7 talking now. 8 MS. CANFIELD: But he was talking. But you 9 keep interrupting him. 10 0. Was Dr. Yang --11 MS. CANFIELD: Go ahead, Dr. Jain, finish 12 your -- finish your statement, and then answer 13 counsel's question. Was Dr. Yang involved in the decision to 14 15 change Dr. -- Dr. Kaye's hours? So this is related to what I was about to 16 17 answer previously as well, that the decision wasn't 18 about one specific person. There was a decision, as my 19 understanding is, that across the board for CHS, that 20 everyone would have a one-hour lunch. So in that 21 context, who made that final decision, may have been Dr. 22 Yang or others involved, but it was a decision across 23 the board. 24 Did Dr. Yang speak to you about having all 0.

employees have the one-hour lunch?

- A. It was brought up to me, and I --
- Q. Who brought it up to you? I asked if Dr.
  4 Yang brought it up.
- A. Yes. I believe Dr. Yang brought it up to me,
  as well as Jonathan Wangel, Jessica Laboy. I know that
  there were some --
- Q. Did Dr. Ford tell you that Dr. Kaye needed to take an hour lunch?
  - A. At that time, I believe Dr. Ford was actually away on leave.
- 12 Q. Okay.

164

1

2

10

- A. And the consistent message was that everyone

  -- what I was informed of, was that everyone needed to

  follow the one-hour lunch rule going forward. And I -
  I supported and tried to advocate for -- if we can keep

  things the same -- the way they are, that would be

  helpful. But ultimately, it's the decision of

  management how -- the way they want to handle that.
- Q. And did management include Ms. -- Ms. Yang; 21 right?
- MS. CANFIELD: Objection. You can answer.
- A. Yeah. Again, I'm not entirely sure who
  specifically made those decisions, but I do know that

```
1
    Dr. Yang was involved in those decisions as the head of
 2
    CHS.
 3
          0.
               Now, what time do the courts open? You've
    done some forensic evaluations since you were at CHS.
 4
    What time did the courts open?
 5
               As I recall, each court was a little
 6
          Α.
 7
    different. I don't recall the exact times they opened,
 8
    each one.
               Well, Dr. -- Dr. Kaye's hours were from 8 to
 9
10
    5. Were there any courts open at 8:00? Were the Bronx
11
    Courts open at 8:00?
12
               MS. CANFIELD: Objection to form. You can
13
          answer.
14
               I don't recall exactly when the Bronx Court
15
    opened.
               You did do a number of evaluations in the
16
    Bronx, didn't you?
17
18
          Α.
               Yes.
               Did you do any when the courts opened in the
19
20
    Bronx?
               Right when they opened in the morning, I
21
22
    would often go there in the morning. And I'm not -- and
23
    I don't recall exactly when they -- I just don't
24
    remember what time they opened.
```

please --

Q. Let's put let's put it in context. You		
have inmates that are being probably brought being		
presented as the terminology that you guys use; right?		
They're being presented from Rikers Island. Am I right?		
A. Often, yes.		
Q. Now, Rikers is how far is Rikers from the		
Bronx Court Clinic?		
A. I'm not sure, by just the time. But I know		
that the transportation was not always a direct line		
from the Rikers to Bronx either, or or to the other		
court clinics, but I wasn't directly involved with that		
information.		
Q. But my point is, was there ever a time when		
the inmates were, I guess, picked up from their		
respective facilities before 10:00 or, let's say, before		
8:00 to be presented to the court clinic, at 8:00?		
A. I'm not sure.		
Q. Were you ever there at the court clinic		
yourself at 8:00, the Bronx Court Clinic?		
A. I would, often times, to each of the court		
clinic, come early		
Q. But my question is the Bronx.		
MS. CANFIELD: Let him finish his question,		

```
1
               THE WITNESS:
                             I'm trying to answer.
               MS. CANFIELD: -- let him finish his answer.
 2
 3
               THE WITNESS: I'm trying to answer the
          question, please.
 4
 5
               MR. CANFIELD: Dr. Jain, please answer.
 6
               MS. HAGAN: He is answering.
 7
               MS. CANFIELD: No, he's saying you're
          interrupting him. Dr. Jain, please continue.
 8
 9
               MS. HAGAN: Sure.
                                  Yes. Yes.
10
               Just trying to answer. Yeah, so I would
    often go to different court clinics early. And I don't
11
12
    recall specific time when I was not able to get into the
13
    Bronx Court Clinic, but I don't recall the exact time
    that --
14
15
               But my question, specifically, was that did
16
    you ever go to the Bronx Court Clinic at 8:00 in the
17
    morning, looking to do an evaluation yourself?
18
               MS. CANFIELD: Objection. You can answer.
19
               Not to do an evaluation.
                                         I believe the
20
    earliest we would do our defendant examinations, those
21
    were not individuals at Rikers, may have been somewhere
22
    between 9 and 10. But no, I did not do examinations at
23
    8 a.m.
24
               Now, was Dr. Kaye the only full-time employee
          0.
```

168

24

Α.

affected by this shift change? 1 MS. CANFIELD: Objection to form. You can 2 3 answer. I don't believe, no. 4 Α. 5 Who else had shift change -- who else had experience with shift change when -- in, I guess, August 6 7 of 2018? 8 So we had multiple examiners who had Α. 9 come from Bellevue. So to my recollection, we had at 10 least three psychiatrists who had shifted over from Bellevue to the Manhattan Court Clinic under -- they're 11 always in the Manhattan Court Clinic, but under CHS 12 13 management. Dr. Mundy; right? 14 0. 15 Dr. Mundy was the director. In addition to Dr. Mundy, there were three other psychiatrists who had 16 come from Bellevue, and their hours were also changed so 17 18 that they would have a one-hour lunch. 19 Were they psychiatrists or psychologists? Q. 20 Α. Psychiatrists. But they were part time. They weren't 21 Q. 22 full-time employees, were they? 23 MS. CANFIELD: Objection. You can answer.

Yes, they were part-time.

1	Q. And they were not directors, were they?
2	A. They were not directors, no.
3	Q. Okay. So again, Dr. Kaye was the only
4	full-time Bellevue employee that was basically that
5	basically experience a shift change; is that right?
6	MS. CANFIELD: Objection as to form. You can
7	answer.
8	A. I'm not sure. I don't know all the full-time
9	employees. There may have been others from Bellevue
10	that came over from Bellevue to CHS management.
11	Q. Like specifically, Dr. Weiss, Dr. Harper, and
12	Dr. Soloniski [ph.], weren't those the three that
13	basically experienced a shift change?
14	MS. CANFIELD: Objection as to form. You can
15	answer if you're able.
16	A. Yes. As I recall, those were the three
17	individuals who were also directly impacted by the shift
18	change.
19	Q. And were there any other directors made to
20	work nine hours a day besides Dr. Kaye?
21	A. The other
22	MS. CANFIELD: Objection. You can answer.
23	A. The other directors were not part of the
24	union. They were in a managerial line, so they had

different agreements with CHS.

Q. So is it your testimony that you were enforcing the collective bargaining agreement when you required Dr. Kaye to work either from 8 to 5 or 9 to 6?

MS. CANFIELD: Objection. I don't think it was his decision, as he testified. But go ahead, Dr. Jain.

MS. HAGAN: You keep coaching the witness.

MS. CANFIELD: He already testified that -- go ahead, Dr. Jain.

MS. HAGAN: You think that. And you know better. So keep going.

MS. CANFIELD: Go ahead, Dr. Jain.

- A. Yes. So -- yes. The decision that was made to change the hours was not mine. It was also, in my understanding, consistent with what the contract was or the agreement was with the union, doctors' counsel. And so I believe that change was made consistent with that agreement.
- Q. Now, in July of 2018, Dr. Kaye does eventually ask for FMLA due to the hardship that the shift change had on her, you know -- on her and her family. You -- you do recall that; right?

MS. CANFIELD: Objection to form. You can

answer.

- A. I don't recall the exact time period. I do recall that a request was made regarding that.
- Q. Did you have a fairly intense conversation with Dr. Kaye about the shift change and the effect that was having on your family and herself?
- 7 MS. CANFIELD: Objection to form. You can answer.
  - A. There was a -- there was a conversation early on that that was -- and I think "intense" would be a fair description of that, where it was brought to my attention that there's -- the shift change issue, that there's some hardship, which I certainly, you know, acknowledged and appreciated that was brought to my attention. And when that was brought up, I tried to inform whoever could help with that, help resolve that issue, and I also helped provide any information I could to support that change and provide any information from a clinical standpoint from my position as director that could help make the decision regarding the accommodations.
  - Q. Wasn't there an overall sentiment, including from management, to manage Dr. Ford in order -- not Dr. Ford, Dr. Kaye out?

1 MS. CANFIELD: Objection to form. You can answer.

- Q. Dr. Jain, wasn't there a general sentiment from like CHS management to manage out Dr. Kaye?
  - A. Not that I'm aware of.
- Q. Did Dr. Ford ever express frustration about Dr. Kaye to you?
- A. I would say that when I started, there was an understanding that we would be working with all the directors, and that there was an interest in collaborating with each of the directors.
- Q. My question is: Did Dr. Ford or like any of the other CHS management, express frustration about Dr. Kaye to you?
- A. I think in general, as time went on, and there was increasing, as I mentioned, some adversarial posturing, some difficulty in having the Bronx Court Clinic staffed, there was some frustration regarding some of the resistance and some of the challenges we were having in the Bronx Court Clinic.
- Q. Wasn't Dr. Kaye frustrated because of -- I'm sorry. Wasn't Dr. Kaye partially frustrated because she -- her time had been changed, and she was experiencing a loss in payment?

1 MS. CANFIELD: Objection to form. You can 2 answer. I -- I believe that some of the frustration 3 Α. stemmed from -- my direct involvement was being accused 4 5 of changing the time sheets. As I explained earlier, I was trying to change that in her favor. So to me, it 6 7 wasn't clear where the frustration was coming from 8 exactly. However, I also know that there were ongoing 9 discussions and emails regarding frustration with her 10 schedule going forward and other issues. So I know in general, there were those frustrations from her as well. 11 12 0. But isn't it true that Dr. Kaye had worked 13 from 9:30 to 5:30 shift for years without incident, and 14 then there was a decision made that now -- now, the 15 organization had to adhere to an alleged collective 16 bargaining agreement? 17 MS. CANFIELD: Objection to form. You can 18 answer. I can't speak to what happened prior to CHS. 19 Α. 20 Wasn't there a discrepancy about the 21 interpretation of the provision of the collective 22 bargaining agreement that was referenced to justify Dr. 23 Kaye's shift change? 24 MS. CANFIELD: Objection to form.

facts. You can answer.

A. I don't know.

- Q. Did you ever review the collective bargaining agreement yourself?
- A. I don't believe I reviewed it. I may, at most, have been aware of it. But the specific details, I did not look at. That was -- I knew something being resolved through, again, our labor relations and our HR.
  - Q. Did Dr. Kaye ever accuse you of time fraud?

    MS. CANFIELD: Objection. You can answer.
  - A. Can you please repeat that question.
- Q. I said did Dr. Kaye ever accuse you of time fraud?
- A. I don't -- I'm not sure if those terms were used exactly. I know that when I made efforts to, in her favor, change the Kronos time in her favor, as you mentioned, there was an intense conversation kind of around that period, and there may have been some kind of general statements about something about the time sheet being fraudulent. But didn't accuse me of fraud itself, just something about the system. I didn't really quite follow.
- Q. Now, wasn't -- weren't there multiple incidents where Dr. Kaye was denied access to Kronos?

1 MS. CANFIELD: Objection. You can answer. To my recollection, she was never denied 2 Α. access to Kronos. 3 Were there multiple instances where Dr. Kaye 4 5 could not access Kronos for whatever reason? Kronos, being a computer system, there are 6 Α. 7 sometimes technical glitches where many of us encounter some challenges with Kronos at times. 8 And in those instances where Dr. Kaye could 9 10 not access Kronos herself, didn't you enter her time for 11 her? 12 Based on her request, I entered the times for Α. her in her favor. Also to make sure she doesn't miss a 13 paycheck, I tried to fulfill that responsibility the 14 15 best I could. I also helped reach out to IT and others to make sure that they could help her regain access or 16 17 resolve any technical glitch. 18 Now, by any chance, where there times where you got it -- got it wrong, where you made mistakes in 19 20 entering her time? 21 MS. CANFIELD: Objection. You can answer. I would make a lot of effort to make sure 22 Α.

it's accurate. I would also make my efforts to make

sure if there was any issues that she raised that were

23

176

1 resolved immediately. There were times I would sign off 2 on her time sheet, I noticed that she herself had entered her schedule incorrectly, sometimes in a way 3 that would not be favorable to her. So in her favor, I 4 5 would try to remind her, you don't need to take hours for this time. You don't need to use personal time. So 6 7 8 Q. So this is the question to you, because 9 you're kind of going far afield. Well, I'm answering the question about --10 Α. I asked if you made a mistake, Dr. Jain? 11 Q. Have you ever made a mistake? It's either yes or no. 12 13 Did you make mistakes? MS. CANFIELD: Objection. Please don't 14 15 harass the witness. He's trying to respond to 16 your question. MS. HAGAN: 17 No. 18 MS. CANFIELD: Go ahead, Dr. Jain. 19 MS. HAGAN: He's all over the place. 20 All right. Did you make mistakes on Dr. Kaye's time sheet, that's all I'm asking you, ever? 21 22 MS. CANFIELD: Objection. You can answer. 23 Α. I'm not sure. And if there were mistakes, I 24 would resolve them if they were brought to my intention.

1 They were not intentional mistakes, and there were 2 efforts to make sure that they were accurate. So even though you had this adversarial 3 0. dynamic with Dr. Kaye --4 5 I did not have an adversarial relationship. I said that the position from Dr. Kaye was adversarial 6 7 towards me. 8 Okay. Now, I'm going to show you what's Q. 9 going to be marked as Exhibit 6. 10 (Plaintiff's Exhibit 6, DOCUMENT BATES 11 STAMPED NYC 3947 THROUGH NYC 3957, was 12 marked for identification.) 13 14 15 MS. HAGAN: And for the record, Plaintiff's 16 Exhibit 6 bears the Bates stamp series NYC 3947 --I don't know what this is down here. I don't know 17 18 how you have it stamped over here. I'm not sure 19 what that says. 3948, 3949, 3950, and it goes all 20 the way to 30 -- 3957. So 6 is NYC 3947 to 3957. 21 MS. CANFIELD: Please show him the entire 22 document, please. 23 MS. HAGAN: Sure. I can start from -- I 24 don't know.

- It looks like -- this -- this would be a 0. Kronos time sheet, the login; right? Would you recognize that, Dr. Jain? Yes. Sounds familiar. Α. 0. And when you completed Dr. Kaye's time sheets on occasion, this is what you saw; is that right? Α. I believe so. This is very similar to what I saw. Okay. Well, this instance is -- this is Dr. Q. Brayton's, I guess, time sheet, from March 22nd. guess this is where it starts; right? And at this time,
- Brayton's time; is that right?
- 14 MS. CANFIELD: Objection. You can answer.

it appears that Dr. Kaye might be signing off on Dr.

- 15 A. The way it appears to me, yes, this looks
  16 like it's Dr. Kaye signing off on Dr. Brayton's time
  17 sheet.
- Q. Okay. So can I -- can I move up?
- 19 A. Yes.

1

11

12

20

21

22

23

24

Q. Okay. So then we're now -- I guess we need to start in the middle of the page. Now, there's an email from Ciara Smith to -- I guess it's CC'ing Jessica Laboy. I don't know who it's to but, you know, it looks like the "to" is missing; right? And it says, "Dear

1 colleagues, the 2018 time keeping year will be ending on 2 Saturday, April 27th, 2019." And the 2019, that doesn't seem to be right either. Time keeping year will begin 3 on Sunday, April 28th, 2018. It's a little bit 4 problematic there, isn't it; right? 5 6 Α. Yes. Sure. 7 0. Yeah. And to assist with the closing of the 8 2018 year, supervisors must review and approve or deny 9 employees' request, annual leave, sick leave, et cetera, 10 on a weekly basis in Kronos. Now, were you doing that 11 on a weekly basis with Dr. Kaye, approving or denying 12 employee's request, her request? 13 Sorry. Can you repeat that again? I was Α. reading at the same time you were asking the question, 14 15 so --16 I was asking as her supervisor, were you 17 approving her requests in her time sheets every week? 18 Α. Yes. 19 Okay. Now, you were signing off on them as 0. 20 well? 21 Α. Yes. 22 And you were, you know, informing payroll of Q. 23 any changes you may have made to the employees

previously signed, you know, time card; right?

1 MS. CANFIELD: Objection. You can answer.

- A. Yes. I believe so. If there was any changes or any modifications needed or any particular request needed, I would often reach out to payroll, as I was advised to do so.
- Q. But you weren't just doing so. As it says here in this bullet point, you know, "Previously signed off time card to ensure those changes are accurately processed on the payroll system." You see that; right? Maybe you want to read the rest of that.
  - A. Yes.

- Q. And then it says, "Please ensure above is done no later than May 1st, 2019. Payroll will be unable to process any correction after May 1st, 2019.

  If you have any questions or need assistance, please send an email to CHS payroll." Right? So you see that?
  - A. Yes.
- Q. And there's the Kronos login template again.

  And then, I guess here, Dr. Kaye is asking you, Dr.

  Jain -- they call you Beesh; is that -- that's what they call you?
  - A. Yes.
- Q. Okay. Beesh. So Hi Beesh, please sign off on Anansa's request for sick time on March 22nd. I was

1 out during that time. I believe that you were assigned 2 to her -- you were assigned to sign her time sheets 3 while I was out. So I think it is appropriate for you to sign off on this request. If I'm supposed to do it, 4 5 please let me know. Now, would it have been appropriate for her to sign off on Dr. Brayton's request if she 6 7 wasn't there to actually witness that she wasn't in the office? 8 I'm not sure I can answer that. I don't 9 Α. 10 quite understand the question. 11 Q. Well, I'm going to ask you something. You 12 took vacations and days off; right? 13 Α. Yes. And were there times when your subordinates 14 15 would have you or ask you to sign their time sheets 16 during times when they were out of the office, and you were also out of the office? 17 18 I was providing supervision across four Α. 19 clinics, so there were times when -- maybe not quite 20 understanding the question, but yes, I would sign off on 21 their time sheets. 22 Q. I guess my question would be like, for 23 example, in those instances where both of you are out,

you wouldn't -- you wouldn't have any firsthand

knowledge to know that a person was where they said they were, because neither one of you were at work. Would that be accurate?

MS. CANFIELD: Objection. You can answer.

- A. We would know if people were in the clinic or not in the sense that we had administrative staff. And again, there's work to do. There's schedules. So we generally knew if people were sick or not. People were very forthcoming about their time, and I did not identify any issues with that.
- Q. So how would you describe Dr. Brayton and Dr. Kaye's dynamic? You said that she was adversarial with you. Was she adversarial with Dr. -- Dr. Brayton?
- A. Yes. So the interactions that were shared with me from Dr. Brayton were that she felt intimidated in the clinic. She felt that she could not ask questions of Dr. Kaye. She was often very concerned if she raised a question, that she would be somehow not quite reprimanded but, you know, talked to strongly, or there's a very intense interaction there. So she had reluctance to interact with Dr. Kaye in many instances.
- Q. I'm going to ask you something. From your own personal experience, Dr. Jain, was Dr. Kaye adversarial because she was a woman, and she spoke with

24

some level of certitude, or was she -- was she adversarial because she questioned in the same fashion that her male colleagues questioned some of the policies? MS. CANFIELD: Objection to form. You can answer. Α. I disagree. I don't think it was Yeah. because she was female, not from my standpoint. didn't view it differently from her other female colleagues or male colleagues. I would approach them similarly, both taking their advisement, taking their collaboration equally. It had nothing to do with being a female, from my perspective, whether -- all I can speak is what I observed and what came from my own intent, which was not viewing it as adversarial just because she's female. These were adversarial patterns throughout my work with her that had nothing to do with her being a female. What -- I mean, we discussed the notes, and we are not quite sure how the note -- your notes being

Q. What -- I mean, we discussed the notes, and we are not quite sure how the note -- your notes being taken were resolved. Did you end up reviewing the ten files that Dr. Kaye allegedly took your notes from and finding them later, or were they still missing, and you just never did anything about them?

MS. CANFIELD: Objection. You can answer.

- A. I don't recall how it was resolved. Dr. Kaye was out during that period. So we were not able to resolve that immediately. And then I also brought it to the attention of Dr. Ford at that time. And Dr. Ford provided support to me and also said that she would help resolve that issue. I'm not sure -- I don't recall how that matter finally resolved regarding these ten notes.
- Q. So even though these are very sensitive documents that really required confidentiality, there was no resolution made to determine what happened to those notes; am I right?
  - MS. CANFIELD: Objection to form. You can answer.
- A. These were personal notes that I took in the course of an examination to render an opinion regarding a 730 examinations.
  - Q. And aren't they confidential?
- A. They're not treated exactly the same as confidentiality as other protected health information.

  These are evaluations for the court.
- Q. Right.

- A. And so --
  - Q. They're HIPAA exempt; right?

1	A. Excuse me?
2	Q. They're HIPAA exempt?
3	A. Yes. My understanding is that they don't
4	fall under the same protective health information as
5	typically as defined in HIPAA, where there is a
6	purpose for healthcare and treatment. These are court
7	evaluations.
8	Q. Now, I'll let you read the rest of the email,
9	but I want to bring your attention to the top.
10	MS. CANFIELD: Can he read the rest first,
11	because he's missing context.
12	MS. HAGAN: I would like to ask him some
13	questions, and then we can go back to these.
14	MS. CANFIELD: Well, he's entitled to look at
15	the whole document before you question him.
16	MS. HAGAN: Well, he's entitled to look at

21	MS. HAGAN: I would like, for purposes of

23	MS. CANFIELD: And then I would like to read
24	all the documents.

1	MS. HAGAN: You have it.
2	MS. CANFIELD: I'm entitled to that. I don't

4	MS. HAGAN: Yes, you do.
5	MS. CANFIELD: You sent me a book of 600 and
6	something documents. I can't find this one.
7	MS. HAGAN: It wasn't 600 pages. It was 275.
8	MS. CANFIELD: All right. 475. It's still

10	MS. HAGAN: 204. It wasn't 405. It was 204
11	pages of exhibits this morning. So thank you.
12	Please do not misrepresent.
13	MS. CANFIELD: It's 476 pages.
14	MS. HAGAN: You're combining two different

16	MS. CANFIELD: No, I'm not. Ms. Hagan, I
17	want to see the entire document, please. I'm
18	entitled I want to look at them now, please.
19	MS. HAGAN: Why don't you pull it up. You
20	have it. So
21	MS. CANFIELD: I can't find it in the 476

23	MS. HAGAN: No. It was 204 pages of exhibits

1	MS. CANFIELD: Ms. Hagan, do you we need to
2	call the court now.
3	MS. HAGAN: We can call the court because

8	MS. CANFIELD: please scroll back down.
9	Please stop yelling.
10	MS. HAGAN: Because you're stalling, so you

12	MS. CANFIELD: No. I'm if you had
13	produced the documents to me, I wouldn't have to
14	have you do this.
15	MS. HAGAN: It's 63 hours, that's what I'm
16	trying to get at.
17	Q. Dr. Jain, right now

19	I'm going to call the court. I want to read
20	the rest of the document. I'm entitled to see the

24	asking the question.

4	MC CAMPIELD Of the second of t
1	MS. CANFIELD: Okay. I'm going to take a
2	break right now. I'm going to call the court.
3	MS. HAGAN: Go ahead. I'm going to ask the
4	question though.
5	MS. CANFIELD: No. No. Excuse me. No,
6	excuse me. Ms. Hagan, you're wasting time. Let
7	me review the document.
8	Q. Well, I'm going to ask. Was there ever a
9	time that Dr. Kaye

13	exhibit.
14	Q. Did you mistakenly did you make a mistake
15	in
16	MS. CANFIELD: Don't answer that question,
17	because it's out of context.
18	MS. HAGAN: I've already removed the

20	Q. So was there ever a time when you erroneously

22	MS. CANFIELD: Hold on. Hold on. I need to
23	call the court now. Excuse me, Dr. Jain. Dr.
24	Jain, excuse me. Do not answer. We need to call

1 the court. MS. HAGAN: Because she's running down the 2 3 clock intentionally. MS. CANFIELD: No, I'm not. If you would 4 5 just show the document, I would not need to do 6 this. 7 MS. HAGAN: Ten pages, he's supposed to read ten pages during a seven-hour deposition? I don't 8 9 think so. Go ahead. Call the court. 10 MS. CANFIELD: Yes. Yes. You need to show 11 us the document. 12 MS. HAGAN: You have it. 13 MS. CANFIELD: I do not. You sent me --14 MS. HAGAN: Let's call the court. It's 204 15 pages. You're going to call the court. Let's go ahead. Let's do it. 16 17 18 (Whereupon, the Court was called, and a 19 voicemail was left.) 20 21 MS. CANFIELD: I will email him. We can stay 22 on the record while I do this email, or we can run 23 down the clock --24 MS. HAGAN: No.

#### 

# MS. CANFIELD: -- o you can show me -- you have two options. You can show me the email.

ABHISHEK JAIN, M.D.

MS. HAGAN: I'm going to ask questions. You're not going to --

MS. CANFIELD: Hold on. You can show me the email, or you can stay on the record while I send an email to Magistrate Judge Cott. I don't know how you want to spend time, but it seems to me it would be better if you just showed me the email.

MS. HAGAN: No. You're running down the clock either way, and it's not going to happen. So we're going to go to another topic, and then we can revisit this one.

MS. CANFIELD: No. I am going to write to Magistrate Judge Cott first.

MS. HAGAN: Why don't you write him while we're --

MS. CANFIELD: No, I'm not going to do that, because I need to concentrate on what questions you ask. So --

MS. HAGAN: Okay.

Q. So Dr. Jain --

MS. CANFIELD: I'm sorry. Dr. Jain, wait until I finish doing this.

1	MS. HAGAN: So we're off the clock. That
2	means
3	MS. CANFIELD: Now, we're on the clock
4	because
5	MS. HAGAN: We're off the clock because
6	it's not my fault the Magistrate Cott is not there
7	to pick up his call. You need to email him.
8	MS. CANFIELD: I'm doing that right now, Ms.
9	Hagan.
10	MS. HAGAN: Okay. So we're going to put it
11	back up so that you can see it, and you can read
12	it. I think you should have it by now. Do you
13	need to see it from the beginning again, Ms.
14	Canfield? This is where we stopped, right here.
15	You're not reading the email. I would like to
16	note for the record that counsel is not reading
17	the email. She's proceeding
18	MS. CANFIELD: I'm still writing it.
19	MS. HAGAN: Yes, please read. I'm trying to
20	cooperate with counsel's demands.
21	MS. CANFIELD: Okay. Dear Magistrate Judge
22	Cott, the parties have an issue that requires
23	Court's intervention. Plaintiff's counsel has
24	presented an email on screen for the witness, but

192

23

24

1	has refused to allow the witness and his
2	counsel
3	MS. HAGAN: No. You're looking at it now.
4	MS. CANFIELD: to review the completed
5	complete email. Plaintiff claims she had provided
6	the documents to counsel, consistent with your
7	Honor's orders. She has, instead, sent a PDF of
8	476 pages which are in no order, and the exhibits
9	are not marked. I will copy you on this.
10	MS. HAGAN: They don't have to be ordered,
11	and they don't have to be marked. And you are
12	looking at them. They are up right now in front
13	of of counsel, and counsel continues to right,
14	even though I am cooperating with her request. I
15	am on page 9 of the exhibit, because we read them
16	together, but now she is saying that she needs to
17	read them again.
18	So we will sit here and wait for counsel to
19	read. Have you have you made any progress in
20	reading the document, Counsel, because we've been
21	on this page
22	MS. CANFIELD: I can't I can't scroll up.

MS. CANFIELD: I can't -- I can't scroll up.

I see what --

MS. HAGAN: Can you just scroll up now?

1	MS. CANFIELD: Please be professional, Ms.
2	Hagan.
3	MS. HAGAN: I think you need to be
4	professional.
5	MS. CANFIELD: I'm asking to review the
6	document, which is within my rights, and the
7	witness's rights.
8	MS. HAGAN: Yeah. And it's right here.
9	MS. CANFIELD: Can you can you scroll up?
10	We've already read this part.
11	MS. HAGAN: Yeah. I've already asked you if
12	I could
13	MS. CANFIELD: Okay. Can you please stop.
14	So I want the witness, Dr. Jain, to read this.
15	Okay. You questioned him on that. Can you scroll
16	up again. Dr. Jain, are you satisfied with this?
17	THE WITNESS: So I just want to clarify that
18	this is the balances and projections for Dr. Kaye
19	through Kronos. I just want to make sure that's
20	what we're looking at.
21	MS. HAGAN: Yes.
22	MS. CANFIELD: Okay. Can we scroll up again?
23	THE WITNESS: Yes.
24	Q. Now, before I go into it, do you notice that

Dr. Kaye has a negative balance that would go against 1 2 her pension at this point in the time sheets? MS. CANFIELD: Objection as to form. You can 3 answer if you're able. 4 5 The vested annual, you see this portion, it says negative 27 here (indicating)? 6 7 A. Yeah. I'm not entirely sure how this would 8 work or what implication this particular number would 9 have. So you're finished with that part; right? 10 0. MS. CANFIELD: Yes. Can you scroll? 11 12 MS. HAGAN: No, I'm asking him. 13 supposed to be reading it; right? 14 Are you finished, Dr. Jain? 0. 15 Well, there's no specific question yet. Α. 16 don't have a specific --17 18 (Cell phone interruption.) 19 MS. CANFIELD: Yes, this is Donna Canfield. 20 Yes. So now we're going up to --21 Q. 22 MS. CANFIELD: Can you hold on one second, 23 your Honor. I have the Court on the phone. 24 MS. HAGAN: Sure.

1 MS. CANFIELD: Your Honor, you're on --2 you're on speaker. 3 JUDGE COTT: Are we on the record? MS. HAGAN: Yes, Judge Cott. Good afternoon. 4 JUDGE COTT: Good afternoon, everyone. 5 seems to be the issue? 6 7 MS. CANFIELD: The issue appears to have been resolved. The issue was that Ms. Hagan was 8 showing an exhibit on the screen, but was not 9 10 allowing myself or the witness to review the 11 entire document before questioning on one portion 12 of the document. And when I had asked for an 13 opportunity to review, she had refused, which And also to 14 prompted me to write to the Court. 15 point out, which I have not pointed out up to this 16 point, because I do not want to trouble the court, 17 is that rather than providing the exhibits before 18 the deposition, I have been provided like almost a 19 like a dump of documents that are not marked. 20 today before the deposition, I received a PDF of 21 476 pages that was represented to me to be the 22 exhibits for this particular witness for this deposition today. And you know, the form that has 23 24 been provided, it's impossible for me to find a

document as we're being shown on the screen because the Bates stamps aren't searchable.

And so that's -- in a nutshell, that's the issue. At this point, the problem seems to be resolved, because Ms. Hagan has agreed to let me review the full document on the screen. That satisfied parts of the problem, but again, she's not provided the exhibits that are consistent with your Honor's order.

MS. HAGAN: Your Honor, I beg to differ with counsel's representation as to what has transpired. The court ordered, from what I understand, that the exhibits be provided prior to the deposition. I have complied with that. Counsel has insisted that they be stamped and ordered in a certain fashion so that she would prefer them to be a certain way. I didn't believe, nor have I ever experienced in the 20 years of my practice that one, I -- and especially from the law department who I am opposing counsel with every other time I sue, that I had to provide these exhibits in advance, premarked, for usage at a deposition. And I, again, this is not the first Zoom deposition that counsel and I had prior to

your Honor's order. This group of depositions is the first time that this counsel has raised this issue with me and/or the court. And I've said as much in the letter.

But I would like to stress to you, Judge Cott, I have been in compliance. All of the documents are Bates stamped. And she can easily put -- she could easily make them searchable herself, but she's chosen not to. happened that this set of documents were not searchable. But counsel has not only a document production with the same documents, she also has the exhibits that I may or may not use today. what I'm concerned about is that counsel has ended these depositions every day early, and that she's using this opportunity to run down the clock and read ten pages of the document, when I'm only asking the deponent to look at the first paragraph of the first email. The rest of them are time sheets, your Honor.

JUDGE COTT: Well, it sounds to me like the issue that prompted Ms. Canfield to email me has been resolved. So I'm not sure you need the court to take any further action. I would just suggest

that you both practice what I call the golden rule of litigation, which is do unto others as you would have them do unto you. So Ms. Hagan, I'm not sure you would be happy if Ms. Canfield gave you 474 pages of documents right before a deposition she was taking, and you had to scramble during the deposition to try and find things either, if that's, in fact, what's happening. But I don't know what's happening exactly. And all I've been told is the issue that caused the email has been resolved. So if that's true, then I don't think there's anything that you need to decide.

MS. CANFIELD: For the immediate instance, the issue has been resolved. I would like going forward that -- that in order for Ms. Hagan to provide the exhibits as they are marked, and not do a dump of 476 documents, which as your Honor recognized. I can't search, at the same time I'm trying to listen to the questions, and defend a deposition. It's just impossible.

JUDGE COTT: Can I just say the following:

In the normal course, when a deposition takes

place and people are all sitting in the deposition

room, the lawyer who is taking the deposition, if they mark an exhibit, they're going to mark an exhibit and say to the court reporter, this is Exhibit 1 to the deposition of Mr. Smith. And then the lawyer will hand a copy to the court reporter to either put the sticker on or to mark it as such, and then will similarly hand that exhibit, a copy of it, to adversary counsel. That's how it's been time from time immemorial.

Now, we're dealing with remote depositions, and we should try and replicate that process as much as possible. And for either side to give the other hundreds of pages in advance, doesn't really serve that purpose. It just requires the non-deposing lawyer to have to scramble each time the deposing lawyer is going to ask questions about a particular exhibit. And I'm sure, Ms. Hagan, it would frustrate you if Ms. Canfield gave you hundreds of documents too. So I would just encourage the parties to try and replicate the normal process as much as possible in a remote deposition, because that is expeditious, serves the witness the best, which both sides want. The parties want a clear record, so otherwise, you're

going to have a lot of this stuff that has nothing to do with getting factual information from a witness.

So whatever you want me to work out, you should see that there isn't delay, so either side has to go find the document or tell the other side where the document is. These are not trade secrets. If you're going to have ten exhibits for a witness at a deposition, then say it's 1 through 10, and here they are. Mark them as such, and then pass them along to the other side. It seems pretty straightforward to me. I don't know why this would be problematic. So that's what I would encourage you all to do.

But in any event -- and also, I'm not going to be at the ready every time an email comes. I just happened to see your email and happened to be free at this moment. So, you know, if you have other issues, I'm not necessarily be able to snap to it like this either, just for the record. But I trust that you are all, as officers of the court, will be able to work these issues out going forward. Okay. Thank you both very much. Have a good afternoon.

```
1
               MS. CANFIELD:
                               Thank you, your Honor.
               MS. HAGAN:
 2
                            Thank you.
 3
                (Recess taken from 3:54 p.m. until 4:01
 4
 5
               p.m.)
 6
 7
    BY MS. HAGAN:
 8
               At any point, did Dr. Kaye claim at a
          Q.
 9
    breakfast meeting about the CHS private practice policy?
10
                I don't recall Dr. Kaye complaining about the
11
    private practice policy.
12
          0.
               So, for example -- so is it your testimony
13
    that on July 13th, 2018, that Dr. Kaye didn't complain
14
    about the private practices policy and pay
15
    discrimination she was experiencing?
16
               MS. CANFIELD: Objection. You can answer.
17
          Α.
                I think there were two separate issues there.
18
    I think the pay parity issue was something that was
19
    brought to my attention, as we discussed previously.
20
    Specifically, regarding the private practice policy, I
21
    remember discussions that the private practice policy
22
    that we drafted, including with her input, that what's
23
    favorable, including that she support that private
24
    practice policy.

0. Did Dr. Mundy -- did you ever recall Dr. Mundy making a statement that, quote: I don't care about that. I get paid \$200,000 to go to a few meetings and work on my private practice. Do you ever remember him saying something to that effect? MS. CANFIELD: Objection. You can answer. Α. I don't recall that, no. Q. Then on August 13th, did at any point, Okay. Dr. Kaye complain about a pay discrepancy of being docked five hours a week in pay? MS. CANFIELD: Objection. You can answer. Α. Yeah. I'm not sure about that specific date. Was there ever a time that Dr. Kaye Q. complained that you were incorrectly inputted her time? Yes. As we discussed previously, when we Α. transitioned to Kronos time system and I was putting in the hours on her behalf, she had raised the complaint -the accusation that I had done it intentionally or incorrectly, which was not accurate. I had made efforts to do that in her support and in her favor. But was it incorrect regardless of whether or 0. not it was intentional? I don't know whether it was incorrect. Α.

hours that I was asked to enter are the hours that I

1 entered, I didn't see any -- I don't recall any specific 2 discrepancy there. And if there were some errors, I 3 made efforts to resolve those errors if they were brought to my attention. 4 Now, in August -- the end of August -- well, 5 would it be fair to say that in August of 2018, you told 6 7 Dr. Kaye officially that her hours had been changed? 8 MS. CANFIELD: Objection to form. You can 9 answer. 10 Yeah. I don't recall exactly when, but I do recall it would have been in the summer of 2018 when she 11 was informed that her hours were formally changed. 12 13 And also, during that same summer, Q. specifically on August 28th, did Dr. Kaye take an educ 14 15 -- I guess an educational leave for the child and 16 adolescent -- adolescent psychiatry board examination? Α. I believe --17 18 MS. CANFIELD: Objection to form. Go ahead. I believe it was around that time, yes. 19 Α. 20 And initially, was she docked for taking that Q. 21 certification? I believe, initially, we had some 22 Α. 23 discussion on what -- that would be granted as an

educational leave or whether that would be taken out of

her personal time. There were those early discussions regarding that.

- Q. Who made a decision to dock, Dr. Jain?

  MS. CANFIELD: Objection as to form. I think she took annual leave. She wasn't docked. Go ahead. You can answer.
- Q. Who made the decision?

  MS. CANFIELD: Objection to form. You can answer.
- A. I'm not sure she was docked. Her request was to use educational time, not personal time or annual leave, for that purpose. And so from my standpoint, I tried supporting that. I reached out to our HR and labor to make sure that we could accommodate that for her. And then the decision was made, I'm not sure exactly by whom, but that -- the early decision was that this particular type of exam would not be covered, the educational leave. But then it was my understanding that she eventually was able to use educational leave. So I believe that issue was resolved.
- Q. Now, was Dr. Kaye originally made to use vacation time in order to sit for this examination?

  MS. CANFIELD: Objection as to form.
  - A. I don't recall. But I do -- I don't recall

1 exactly what she was asked to do, but I do know that, 2 initially, there was a discussion on whether she would be able to take educational leave for that or not. So 3 she may have been advised, at some point, to take 4 5 vacation time or personal time or annual leave for that 6 exam. 7 Now, also during the fall -- the fall --Q. summer of -- September of 2018, did you also -- did Dr. 8 Kaye -- did you and Dr. Kaye and Ms. Swenson have issues 9 10 with scheduling of meetings? 11 Α. Can you please repeat those dates again? 12 was just --13 Dr. Kaye -- Dr. Kaye alleges that you and Ms. Swenson intentionally scheduled meetings that would 14 15 conflict with her schedule or with her obligations as 16 the director at the Bronx Court Clinic. Would you agree 17 or disagree with that assertion?

A. I disagree.

18

19

20

21

22

23

- Q. Okay. And why would you disagree?
- A. Because we made every effort to include her in the meetings, to schedule them around her availability. We also rescheduled meetings if she was not able to make them. If there were some instances where we had to proceed with the meeting such as with a

judge or court personnel because they had blocked off their time, then we asked Dr. Kaye if that would be okay with us to proceed, or should we try to reschedule. So we made every efforts to schedule those meetings with her. So our intent was not to schedule without her at all. In fact, we made efforts to include her in that process.

Q. And for example, on September 7th, 2018, was there an instance where you -- you and Ms. Swenson scheduled a meeting when you knew that Dr. Kaye would be at Water Street discussing her issues with her shift change and -- and time sheets?

MS. CANFIELD: Objection to form. You can answer.

A. Yeah. I'm not sure if I recall the exact instance. I know that there were times, as I've mentioned previously, that if we scheduled, it would be trying to accommodate her schedule and her availability. But then after it was scheduled, if she had another -- a conflict, then we would ask if it's okay to proceed without her or if we should reschedule. So there may have been an instance where we had to proceed. But this is after discussing it with Dr. Kaye and certainly keeping her in the loop regarding the meeting.

1	Q. So like had there ever been instance like,
2	for example, you and/or Ms. Swenson scheduled a
3	mandatory training for iSight in the Bronx during the
4	Jewish holidays?
5	MS. CANFIELD: Objection as to form. You can
6	answer.
7	A. Yeah. I'm not sure if they were
8	intentionally scheduled around any particular religious
9	observance. And if if they were and people brought
10	it to our attention, we would make efforts to change
11	that, depending on if there were conflicts or scheduling
12	raised by any director or any examiner.
13	Q. Now, we discussed earlier when Dr. Brayton
14	was hired. Would it be fair to say that Dr. Brayton may
15	have been hired on September 17, 2018?
16	A. I believe that's about the right time period,
17	fall of 2018, yes.
18	Q. And then she worked at the well, she was
19	being trained at the Brooklyn Court Clinic from would
20	you say September of 2018 until when in 2018.
21	MS. CANFIELD: Objection. If you know.
22	A. Yeah. I'm not sure of the exact date or
23	time. My rough recollection is about a couple of
24	months.

Q. Okay. Now, during that time, Dr. Kaye was the only full-time employee at the clinic as we established earlier. Were any other efforts made, such as transferring -- the possible transfer of any of the other evaluators to the Bronx?

- A. So one clarification. She was not the only full-time employee. We had a full-time administrative time.
  - Q. You're talking about Lucrecia Persaud?
  - A. Yes.
  - Q. Would Ms. Persaud do any 730 evaluations?
- 12 A. No.

- Q. So was the only -- so Dr. Kaye was the only full-time staff person that could do a 730 evaluation at the Bronx Court Clinic; right?
- A. That's correct.
- Q. From -- and 730 evaluations need at least two evaluators; am I right?
- A. That's correct, yes.
- Q. So the question I had was, was there ever a discussion of transferring one of the other evaluators from one of other sites to work in the Bronx so that the cases that came through the Bronx were seen in a timely fashion?

A. Yes.

22

23

Q. And what happened?

Α. So multiple instances of this occurred throughout my period where we would reach out to my directors and see if there was some way to accommodate that. And you know, one example is, Dr. Winkler would sometimes go and do those examinations. In other instances, there were challenges and some resistance because of, as we mentioned previously, some of the tense environment that was described in the Bronx, some of the concerns with interacting with some of the Legal Aid Society attorneys regarding the examiners. And also -- Dr. Kaye also expressed, in general, that she had a -- you know, that she would work with some individuals. And so in order to accommodate those, we would make efforts to either have the directors offered to have some of their examiners go to the Bronx, two examiners to go to the Bronx to do those examinations, or have the Bronx cases produced to another clinic, so they could be seen there.

- Q. Who were the other examiners that were produced to see the exams in the Bronx from the other clinics?
- A. I just want to finish up one thing with that

answer. Also, part of the scheduling challenges was to have -- to make sure that the attorney who was sitting in on the case, their schedule could be accommodated as well. So yeah. Sorry.

- Q. Back to the people who you said that would be transferred to the Bronx from time to time to see these examinations, who were these individuals?
- A. So sometimes, it was Dr. Winkler from the Brooklyn Court Clinic. Sometimes, it would be two examiners from Manhattan. Sometimes, it was -- it may have included Dr. Mundy. Dr. Dimitri comes to mind also. Dr. Harper comes to mind. And then Dr. Owen, I believe, also had helped out. So there -- I don't remember each -- each individual instance, but there were a number of examiners that we would try to reach out to and try to accommodate.
- Q. Now, eventually, did -- in October of 2018, do you recall that Dr. Kaye filed a request for a reasonable accommodation?

MS. CANFIELD: Objection to form. You can answer.

- A. I don't recall the exact date.
- Q. Do you recall that she did actually file for a reasonable accommodation?

A. As I recall, yes.

- Q. And what was the outcome of her application?
- A. So the extent of my involvement was asking about the court clinic hours and what our needs were in the court clinic, and I provided that information. And then I believe the outcome was that they were able to make some accommodations to her schedule. I believe that that was the eventual outcome in her case.
- Q. But Dr. Kaye specifically sought a restoration of the eight-hour workday that she previously worked rather than the nine-hour workday that she had been required to work. Was that ever a proposed alternative to what she had?
  - MS. CANFIELD: Objection as to form. You can answer if you're able.
- A. Yeah. I'm not sure of the exact question. But certainly, there were different proposals regarding what could meet both her request, as well as any requirements from the agreement. So that would have some preliminary discussions, share what I could to be supportive of her request. But ultimately, the final decisions were not in my hand. Those are with HR and labor.
  - Q. Well, you keep saying "HR and labor." Are

you saying that the final decision makers as to whether or not Dr. Kaye was allowed to work an eight-hour day or a nine-hour day rested in, I guess, Ms. Laboy and Mr. Wangel's hands? MS. CANFIELD: Objection to form. You can answer. Α. Yeah. And thank you for the clarification. I worked directly with HR and labor. Those were my primary contacts. Who they spoke to and who they made the final decision with, I'm not sure about that. But you didn't make the final decision. Q. That's what you're saying? Α. No, I did not. And did you -- I mean, to the extent that you 0. know, because you did go through this with Dr. Kaye. Dr. Kaye originally asked to work remotely when she initially filled out her reasonable accommodation request. Do you recall that? MS. CANFIELD: Objection to form. You can answer. I don't recall that specifically, no. Α. Okay. Did you engage in what's known as an Q. interactive process with Dr. Kaye, meaning --

MS. CANFIELD: Objection.

1 MS. HAGAN: I'm going to explain what I'm asking him. Could you let me finish. 2 3 0. My question is: When Dr. Kaye initially proposed or asked to work remotely, did you offer -- or 4 5 did someone, I guess, from the management offer Dr. Kaye an alternative to the remote option that she was 6 7 seeking? 8 MS. CANFIELD: Objection as to form. assumes that he's in charge of reasonable 9 10 accommodations, but you can go ahead and answer. 11 MS. HAGAN: Again, please don't coach your 12 witness. I don't recall. 13 Α. At any point, did you review Dr. Kaye's 14 Q. 15 application in conjunction with the management involved 16 in making the decision-making process? 17 MS. CANFIELD: Objection to form. You can 18 answer. I don't recall if I reviewed the application. 19 20 I know there are some general questions sent to me about 21 the court clinics and the hours and what our needs are, 22 and I answered those. But otherwise, as I recall, I was 23 not directly involved in the actual application or the 24 review process of the application, just those specific

questions that were posed to me.

- Q. Were inmates ever presented to the court clinic before 10:00 in the morning?
  - MS. CANFIELD: Objection to the form. Asked and answered. You can answer it again.
- A. Before 10, they may have been. I'm not sure the exact hour each and every time.
- Q. In making your assessment, isn't that one of questions you probably needed to ask or to answer in order to determine whether or not Dr. Kaye's schedule, you know, would actually meet the needs of the clinic?

  MS. CANFIELD: Objection to form. You can answer.
- A. Yes. Generally speaking, when I was asked about the hours, I did share that we -- as I recall, generally have defendants produced after or around 10:00. However, there are instances where they may come early or there might be an out defendant who is scheduled earlier. So some of those are determined case by case and by each individual court clinic. So I did my best to share that information.
- Q. Now, what -- did there ever come a time when Dr. Kaye made complaints that her personal information and health information were being disclosed to a Dr.

1 Mundy in -- in the emails? That particular issue was brought up 2 Α. regarding a schedule of a -- what I recall, a annual 3 examination, a physical examination. It was just a 4 5 scheduling type of email. And that's -- that's one that I remember. 6 7 0. Was there an instance where Dr. Mundy was 8 reflected to be her supervisor in PeopleSoft? Α. Yes. 9 10 And did Dr. Kaye raise this issue on more 11 than one occasion that Dr. Mundy should not have been her supervisor in PeopleSoft? 12 13 Α. Yes. 14 Was there a time when Dr. Mundy -- when Dr. Ο. 15 Kaye complained that Dr. Mundy was reflected 16 inappropriately as her supervisor in PeopleSoft? 17 He was incorrectly listed as her Α. Yes. 18 supervisor in PeopleSoft. 19 And who is responsible for entering that 0. 20 information into PeopleSoft? 21 So my main contact there was through our HR 22 department. And when I reached out when this was first 23 brought to my attention, I believe it may have been

September or at least fall of 2017, I immediately

informed our HR. And she said that they'll -- they did notice that there was an incorrect identification there, and that they made that change in PeopleSoft. But then they also advised me that there's other computer systems. So they made the change to the best of their ability at that time. And so from my standpoint, I thought the matter was addressed and resolved.

- Q. Did you ever seek to distance yourself from Dr. Kaye at some point due to the quote, unquote, adversarial dynamic that the two of you had?
- A. We tried to maintain the work and the court clinic. As I described earlier, also after discussing with Dr. Ford and also Dr. Kaye, commenting that she did not want to have meetings with me alone, and also was very resistant to our, like, a weekly directors meeting with me, then through advisement through Dr. Ford, especially with the tense environment that was there and other types of issues such as being accused regarding her schedule and my notes missing from the clinic, I was advised that if there were direct supervision issues, I would talk to Dr. Ford, and we would discuss how to handle those.
- Q. Well, Dr. Mundy, being reflected as her supervisor in PeopleSoft, you say it was inadvertent.

1 But are you testifying that it wasn't an effort to avoid further contact with Dr. Kaye? 2 Α. 3 No. Okay. Now, at any point after, I guess -- I 4 0. 5 guess I'm going to get more into the exchange that you 6 had with Dr. Kaye in her office. In or around October 7 11th, is it true to say that you and Dr. Kaye may have 8 had a spirited discussion about the shift change that she experienced under your -- your watch during the 9 summer of 2018? 10 11 MS. CANFIELD: Objection as to form. 12 Compound. You can answer if you're able to. 13 Sorry. Can you please repeat that. Α. Did you have a spirited exchange with Dr. 14 Q. 15 Kaye about the shift change in her -- in her office? MS. CANFIELD: Objection as to form. 16 17 answer. 18 I believe this was the question that was also 19 asked earlier about the intense exchange or spirited 20 Yes. There was some -- as I recall, some exchange. 21 interaction where Dr. Kaye had raised those concerns about her schedule and about her shift. And so that 22 23 would be another example also of what I was describing

as kind of an adversarial interaction, part of that

pattern where it was unclear to me. I had made efforts to try to change the schedule in her favor. I had tried to resolve the issue the best I could, but still, that heated exchange and intensity was directed at me, which was unclear.

- Q. So you were not part of the effort by the defendant or Dr. Ford and other management to manage Dr. Kaye out?
- 9 MS. CANFIELD: Objection to form. You can answer.
  - A. I never had the intention of managing her out. I'm not sure what that even means.
  - Q. Did you ever view Dr. Kaye as a problem employee?
  - A. We made all efforts to work with her. And as I described, as time went on, I knew that there were challenges, but I still focused on trying to work with her, trying to support her, trying to make sure that the clinic works. So I know there were challenges as I described in that adversarial type of posture that she would often have with me. But I would not label someone as, quote, unquote, a problem. I would try to work with them and resolve them, and that's the efforts I made.
    - Q. When you say, "There were challenges," what

do you mean by that?

- A. So there were a lot of the things I described already. Resistance to meet with me, have a regular meetings, to work together. There were a number of policies where there was a lot of resistance, which is fine, because we received feedback from the directors, and I welcomed that. But then there were times when policies that were only in draft form were then mentioned by various attorneys, and they said that they obtained this from the Bronx Clinic. And there were questions about those -- those policies. And so as I also mentioned, notes were taken. There were a lot of challenges in having that collegial interaction, despite all my efforts to be supportive. And so that was a challenge compared to the other directors.
- Q. Now, I'm going to ask you something. You mentioned these other attorneys from the Bronx that claim they got a policy that you and Dr. Ford may have written together that was in draft form. Who were those other attorneys in the Bronx that may have gotten this draft policy?
- A. So I'm not sure who the attorneys were exactly. But what I was told is from individuals and Legal Aid Society, that there is a draft of a policy

being sent around. And then when I asked where it came from, they said that it was from the Bronx.

- Q. Who were the individuals from the Legal Aid Society that claimed that they got the draft policy? Who were they?
- A. There were multiple -- there were multiple individuals.
  - O. What are their names?
  - A. They -- they're there during meetings, so I don't recall exactly who. But other Legal Aid Society attorneys that spoke generally about policies that were being made available --
- Q. Dr. Jain, did you speak to someone specifically?
  - A. Yes.

- Q. What was their name? Who was this person?
- A. So I was informed by individuals at various meetings, such as Dr. -- I'm sorry, Mr. Bob Peck who is a Legal Aid Society attorney. And again, I can't verify who sent the email or where it was from or who specifically sent it. But he had informed me that these policies were being circulated around Legal Aid.
  - Q. Now, at any point --
  - A. I will also -- I will add. Other attorneys

from other Legal Aid Society boroughs as well had mentioned that there were policy drafts being circulated.

- O. What were their names then?
- A. So I can speak generally that the other Legal Aid Society attorneys were Samantha Smalls from Staten Island, and Rosemary Vassallo from Manhattan, and Bryan Coakley from Queens. I'm just listing off all of the Legal Aid Society attorneys who we would interact with.
- Q. Did they tell you -- they each told you that they had draft policies that she shouldn't have, that that came out of Bronx Court Clinic specifically?
- A. They mentioned that there were policies that were being -- that Legal Aid had policies that were being circulated. I don't know exactly who sent them, and they wouldn't tell me where exactly, but --
- Q. Why was it determined it was from the Bronx Court Clinic and not somewhere else?
- A. Because that was one of the places they said was circulated from the Bronx.
  - Q. Okay.

A. I don't recall who exactly -- I don't recall who said that. And I don't recall who from the Bronx sent that. What I do recall is in that multiple CHS

meetings, there were comments made from Mr. Bloom that were, in my opinion, only based on information that he would have had from policies, that he would have had from drafts or internal discussions we've had. So based again, I'm being careful here, because I'm telling you how I know this information and how I determined it. It was based on suggestion from some Legal Aid Society attorneys, as well as also observing Mr. Bloom's interactions in our mayor's office meetings. So do I know for sure that it was sent by the Bronx, and specifically whom? No. However, the pattern to me was suggestive that that was a concern.

- Q. I'm going to ask you something. Did you, in fact, report that Dr. Kaye possibly circulated this draft policy to Dr. Wangel?
  - A. Sorry. Can you repeat that question, please?
- Q. Did you ever report Dr. Kaye as circulating a draft policy -- one of the draft policies that we're going to probably discuss within the next few minutes to outside of agency to Dr. Wangel?
- A. I raised general concerns that there's suspicion that a policy that was in draft form was being circulated to Legal Aid Society. I don't recall if I specified whom exactly at that time, but I did outline

what I had heard and the different concerns that were 1 2 raised. 3 Did you -- or were you aware that there was an investigation conducted by Dr. Wangel into Dr. Kaye's 4 5 email usage? 6 MS. CANFIELD: Objection as to form. You can 7 answer. I'm not aware if there were -- I'm not sure 8 9 if I'm aware of that. So did Dr. -- did Mr. Wangel ever come back 10 to you and tell you that Dr. Kaye had, in fact, 11 12 circulated the policy? I had heard nothing specific regarding that, 13 that I recall. 14 15 Did you ever ask Dr. Kaye yourself whether or 16 not she circulated the policy outside of the court 17 clinics? 18 I was not given that opportunity, no. How could you not be given that opportunity 19 0. 20 if you were her supervisor? 21 MS. CANFIELD: Objection. You can answer. 22 Yeah. As I mentioned from the beginning, Α. 23 that my ability to have direct conversations with Dr. 24 Kaye were compromised because of her resistance to meet

with me directly and to have those types of discussions.

- Q. So you couldn't call Dr. Kaye and ask her,

  Dr. Kaye, are you circulating my policy outside of CHS?

  MS. CANFIELD: Objection. You can answer.
- A. At that time, it would not have been a reasonable option.
  - Q. Now, at any given point, were you aware that Dr. Kaye's request for a reasonable accommodation was denied by Mr. Granderson?
- MS. CANFIELD: Objection as to form. Assumes facts. You can answer.
  - A. I'm not sure I was aware of what was approved or denied.
    - Q. Okay. Were you ever -- did you ever learn -- okay. Well, did you ever learn that Dr. Kaye actually requested a reasonable accommodation? We talked about this some; right?
- 18 A. Yes.

224

- MS. CANFIELD: Objection. Go ahead.
  - Q. And do you know the outcome of that request?
- A. From what -- from what I recall, I believe that the outcome was they provided some accommodation for her schedule.
  - Q. Was Dr. Kaye ever told that a reasonable

1 accommodation could not be provided for a third-party, 2 meaning her son? 3 Sorry. Can you please repeat that. Did you ever learn or find out that Dr. Kaye 4 5 was denied a reasonable accommodation because it was for her -- to take care of her son? 6 7 MS. CANFIELD: Objection as to form. You can answer. 8 Α. Yeah. I don't think I'm aware of that 9 10 specific issue. 11 Did you follow up to find out what the exact Q. outcome of the reasonable accommodation was? 12 13 MS. CANFIELD: Objection. You can answer. From what I recall, that there was a -- some 14 Α. 15 decision made about her schedule and a reasonable 16 accommodation. And I tried -- and then based on that, 17 my recollection is that I supported that, and that we 18 would accommodate the schedule accordingly. I don't 19 remember the details of the outcome.

20

21

22

23

24

0.

1 MS. CANFIELD: Objection to form. Do you have something to refresh his recollection as to 2 the dates? 3 MS. HAGAN: No, I don't. No, I don't. 4 5 don't. Did you have a psychological testing policy, 6 0. 7 Dr. Jain, that you drafted along with Dr. Ford? 8 Α. Along with all the other directors, yes. 9 Right. And did -- and along with the other 0. 10 directors, did that mean that you solicited their 11 comments on the actual psychological testing policy? 12 Α. Yes. And did Dr. Kaye provide her input into the 13 Q. discussion? 14 15 Α. Yes. 16 And did she raise questions about the policy being restrictive and preventing physicians from 17 18 ordering psychological testing when deemed necessary to 19 complete a 730 evaluation, specifically? I believe the issues were about any 20 21 restriction in being able to render an independent 22 opinion or independent examination. So I do recall some 23 email exchanges regarding that.

Now, that -- that concern goes to an inmate's

1 constitutional right; isn't that right, Dr. Jain? 2 MS. CANFIELD: Objection. Answer if you can. I'm not sure if I can answer that. 3 Α. Well, I'm going to probe you. The whole 4 0. 5 field of forensic psychiatry involves the intersection between the law and psychiatry; right? 6 7 Α. Yes. MS. CANFIELD: Objection. 8 The medical legal standards, that's the 9 Q. 10 terminology I've been hearing. Is that -- is that the 11 correct term? 12 Α. It's the intersection of psychiatry and the 13 law, yes. A medical legal standard; right? So then, 14 0. 15 the constitutional provisions that would be invoked in this instance would be the Fifth Amendment. Would that 16 17 be true, Dr. Jain? 18 MS. CANFIELD: Objection. You can answer if 19 you can. 20 So there are various constitutional 21 provisions that go into -- not just one particular 22 amendment, but various provisions that go into the 23 standards regarding competency to stand trial and 24 protection of due process procedures --

A.

Q. So what constitutional amendments what
constitutional amendments would be invoked, Dr. Jain?
MS. CANFIELD: Objection. He's not a lawyer.
You can answer if you can.
MS. HAGAN: Yes. It's a medical-legal
profession. So he does have some expertise.
Q. So what constitutional provisions are
invoked, Dr. Jain?
A. The various provisions regarding
self-incrimination. There's provisions regarding
disclosure of information, rights to due process.
There's various constitutional provisions that are
afforded, and that we pay attention to when thinking of
competency to stand trial.
Q. So primarily the Fifth and Fourteenth
Amendment. Would that be accurate?
A. I think those are two important amendments in
this context.
Q. Okay. So would you say that Dr. Kaye's
concerns about some of the policies invoke those
constitutional amendments?
MS. CANFIELD: Objection. You can answer if
you can.

I think those broad constitutional concerns

1 is something that we all think about when we draft these 2 policies and that we think about with our procedures. 3 So Dr. Kaye wasn't really specifically just thinking about doing her job, per se. But she was also 4 5 thinking about the constitutional protections that are afforded to the inmates that you, guys, encounter in the 6 7 course of your daily work; is that right? 8 MS. CANFIELD: Objection. How does he know what Dr. Kaye thinks? Go ahead. 9 10 MS. HAGAN: Uh-huh. Keep going. That's -- I don't know what she was 11 Α. Yeah. 12 thinking at that time. 13 Q. Well, in this instance, she raised issues about, you know, the policy being restrictive. 14 15 assuming that you -- you addressed those concerns; right? 16 17 MS. CANFIELD: Objection. You can answer. 18 In terms of preserving the independent Α. -- the examiners' ability to render an independent 19 20 opinion and independent examination, those were concerns 21 I also shared, and that also reflected in the policy. 22 Those are also concerns that Dr. Kaye raised. 23 Now, again, you have -- I'm going to go back Q.

to your discussion about Dr. Kaye being adversarial.

But yet, you're incorporating some of the concerns that she raised in the very policies that we're discussing.

Now, was it adversarial because she asked the question, or was it adversarial because you just didn't like Dr.

Kaye?

MS. CANFIELD: Objection. You can answer.

- A. Neither. I didn't view that as adversarial.
- Q. But this is yet a third instance where Dr. Kaye's input seems to have been somewhat of a help to the furtherance of CHS and its -- and its goals; am I right?
  - MS. CANFIELD: Objection to form. You can answer.
- A. Yes. I made efforts to collaborate with Dr. Kaye, incorporate her opinion, and I did not -- I did not have an adversarial posture towards her. But the adversarial posture was from her towards me and others and the totality of the time we were together. But yes, there were other instances where I made efforts to incorporate her input. They were welcomed, and I valued her experience and thoughts on those types of policies.
- Q. Now, I'm going to ask you something. Was there ever a time where there was a complaint filed against you about your failure to fill out the New York

State Physician's Profile?

- A. There was an anonymous letter sent around about me. I'm not sure who sent that. It was very concerning. I was made aware that certain people at the court clinics were aware of it, and had brought it to my attention. But then when the anonymous letter came forward, then I addressed it immediately. That was another example of somebody who I felt was, perhaps, targeting me incorrectly.
- Q. Did you complete the physician's profile before this complaint surfaced?
- A. I completed it when I was made aware that I needed to complete it, so I could be in compliance with it.
  - Q. But you weren't in compliance before the anonymous complaint; right?
  - A. I'm not sure of the exact nature of -- at that time. Whatever was brought to my attention, I resolved immediately when it was brought to my attention.
  - Q. So before it was brought to your attention, you had not completed the profile; am I right?
- MS. CANFIELD: Objection. You can answer again.

A. I don't recall exactly what was completed or
not in the profile or whether there were elements that
needed to be completed. What I know is after it was
brought to the my attention, I immediately addressed it.
Q. So you completed it after it was brought to
your attention; am I right?
MS. CANFIELD: Objection. Asked and
answered.
A. I
Q. Yes, you completed
A. I addressed whatever issues were brought
forward.
Q. After it was brought to your attention; am I
right?
A. I cannot have addressed that I was not aware
of. So yes, I addressed them after they were brought
forward.
Q. So they weren't false allegations they
weren't false allegations; am I right?
MS. CANFIELD: Objection. You can answer.
A. They were false.
Q. But you hadn't completed the profile until
after you were made aware; am I right?

MS. CANFIELD: Objection.

1 Α. Yes. That letter had multiple accusations. 2 Those were not founded. 3 0. What were the - what were the accusations in the letter, the anonymous letter? 4 I don't recall each accusation, but the one 5 about the profile I addressed, and that was something 6 7 that was brought to my attention. The other accusations had to do with matters such as I was not qualified, some 8 other attacks of my ability to do that work, which were 9 10 not true. 11 Q. Well, did the allegations basically assert 12 that because you hadn't completed the profile, that --13 that impacted your ability to practice medicine pursuant to 2995-A? 14 15

A. I'm not sure what exactly was in that letter. I don't recall the exact details, but I remember those general accusations. And I'm not sure if that necessarily even disqualified me. I know it didn't, because I reviewed it with legal counsel and made sure that I was following all the appropriate requirements that were asked of me. If there was some elements of that profile that was not there, then I addressed it when it was brought to my attention.

16

22

23

24

MS. CANFIELD: Do we have a copy --

William Kalish. Do you recall him?

24

1 Α. I did take it very seriously. MS. CANFIELD: Do we have a copy of this 2 letter? 3 MS. HAGAN: No, I don't. 4 Now, on November 20th, 2018, was there an 5 instance where Dr. Winkler and Dr. Mullan got into a 6 7 dispute with each other about how Dr. Winkler administered psychological tests? 8 9 A. I don't recall a dispute. 10 0. Okay. What do you recall? I actually don't recall specifically of this 11 Α. incident. So if there's more, that might help me 12 13 refresh my memory. 14 Now, did you ever exclude Dr. Kaye from a 0. 15 meeting in or around November 30th, 2018? 16 I don't recall ever excluding Dr. Kaye from a 17 meeting. Again, if there were meetings in the court 18 clinic, we accommodated and tried to work around her 19 schedule. And if there were some conflict, we'd try to 20 resolve that or ask if it was appropriate to move 21 forward. 22 Q. For example, around that time, there seemed 23 to have been an effort being made by a clerk named

1 Α. Mr. Kalish was a clerk in the Bronx 2 courts. And was there -- and initially, wasn't there 3 an email sent out that excluded Dr. Kaye from this 4 5 meeting? MS. CANFIELD: Objection. You could answer. 6 7 I wouldn't characterize it as excluding her. Α. I think we tried scheduling it, including her schedule 8 9 and her availability. 10 0. I'm sorry. Keep going. I'm sorry. And then if there were instances that 11 Α. Yeah. 12 after we scheduled it, we're made aware that there was a 13 change or that she was unable to attend, then we would 14 ask, is it okay to be able to proceed with the meeting, 15 especially with court personnel, judges, because we also 16 wanted to respect their schedule and their time. At the 17 same time, we also made it clear that we would

Q. But ultimately, didn't Dr. -- didn't

Mr. Kalish kind of initiate or, I guess, somewhat insist

there was no intention to exclude her. We made all

attempts to include her.

incorporate any information that Dr. Kaye wanted to

include in the meeting, and then follow up with her to

share anything that came from the meeting as well. So

18

19

20

21

that the meeting eventually take place in Dr. Kaye's office so that she would be included?

A. I don't recall exactly.

236

1

2

3

4

5

6

7

8

9

10

11

15

16

17

18

19

- Q. Didn't Mr. Kalish basically say, oh, the meeting's going to take place in your house, Dr. Kaye, see you when we have our meeting?
  - MS. CANFIELD: Objection. Again, if you have a document, you want to refresh the recollection of the witness, I have no objection to it.
- Q. Did you meet in Dr. Kaye's office when you met with Mr. Kalish; do you recall?
- A. I don't recall meeting with Dr. Kalish -
  Mr. Kalish in Dr. Kaye's office. I don't recall that

  specific instance.
  - Q. Did you meet Mr. Kalish at the Bronx Court Clinic with Dr. Kaye?
  - A. I believe we did meet with Mr. Kalish. I met with Mr. Kalish so that -- a few times in the Bronx Court Clinic. And I do recall, to the best of my recollection, that at least one instance was with Dr.
- 21 Kaye. I'm not sure if that's what you're referring to.
- Q. Now, on the same day, did Dr. -- did Ms. -
  Ms. Lloyd from -- from MOCJ work with Ms. Swenson to

  schedule a meeting with several judges from the Bronx

1 Supreme Court without Dr. Kaye? 2 MS. CANFIELD: Objection. You can answer. 3 Α. I'm not sure if it was without Dr. Kaye. not aware of that. Again, all my interactions were --4 5 made efforts to include Dr. Kaye. Then would you say around December 3rd -- I 6 0. 7 mean, I guess -- was the -- the emails with Dr. Mundy 8 being CC'd on Dr. Kaye's personal matters resolved 9 immediately, or did it take some time, Dr. Jain? 10 MS. CANFIELD: Objection as to form. You can 11 answer. 12 So my understanding is from my end, I 13 addressed them immediately by telling who I thought would resolve it. I learned later there was another 14 15 email also sent that listed Dr. Mundy as Dr. Kaye's supervisor, for which I felt was initially addressed. 16 17 However, when that came to my attention, I brought that 18 forward as well. And I was told that there may be 19 multiple places within the system that that issue was 20 not resolved. So they may have made the change in one 21 place, in the computer system initially. And then later 22 on, there may have been other places where -- that they 23 were not aware of. So I don't know all the details, but 24 as far as my involvement was, I made efforts to try to

inform and resolve that.

19

- Q. Now, at any point, did Lorraine McEvilley
  from Legal Aid ever complain about you, Dr. Jain?
  - A. I was -- never directly to me, no.
  - Q. Did she ever complain about you? I didn't ask if she complained directly to you. I asked if she complained about you?
- A. I don't know who she complained about me to,

  so I don't know --
  - Q. I asked if she did. That is what I asked you. I asked if Lorraine McEvilley complained about you. Yes or no?
- 13 A. I don't know.
- MS. CANFIELD: Objection.
  - Q. Was there ever a time that Ms. McEvilley alleged that you were more inclined to find a person malingering than to find them fit when you conducted 730 examinations?
    - A. I was never notified of this.
- Q. How many 730 exams did you perform while you were at -- while you were at the CHS?
- A. I would estimate over a hundred, but I'm not sure of the exact number.
  - Q. How many of those exams took place in the

#### Bronx?

1

2

3

4

5

6

8

14

15

16

17

18

19

20

21

- A. Early on, there was a lot of those exams that were conducted in the Bronx. I was hoping to provide coverage in the clinic, supporting those needs there. I don't know exactly the number.
  - Q. Would you say between 20 and 30?
- 7 A. I'm not sure.
  - Q. Would you say it's more than 30?
- 9 A. I'm not sure.
- 10 Q. Would you say it's more than 50?
- 11 A. I'm not sure.
- Q. How often would you say you went to the Bronx to help with coverage?
  - A. Initially, it was with some frequency. As I recall, some instances, multiple times a week. At least at the beginning, certainly multiple times a month. But I don't recall, in my entire time there, how often it was. But it was much more frequently at the beginning.
  - Q. Now, by any chance, how often would you say that you would make finding space on the records and not necessarily evaluations as well?
- A. Very rarely. And I can maybe -- it would be very rare. It would not be very frequently.
  - Q. Now, I alluded to the assistance of Tasha

Lloyd and her assistance of cultivating a relationship of the judges in the Bronx. I wanted to kind of -- kind of refer to it a little bit more in depth. Was a representation ever made, quote, unquote, we consider judges in the court to be our client. It's helpful to interact with judges to know what sort of issues are happening. Was that CHS's general position -- in general when it came to the judges?

- A. I'm not sure if it was a general position, but I certainly agree with that general sentiment that we served the courts. We served the judges' orders. So we would make efforts to listen and understand what the judges' needs were in the court clinic. So relationship and interactions with the judges were an important component of -- of the work that we did.
- Q. Now, the meeting I was referring to involved Judges Torres, Grosso, and Michelle. Do you recall that meeting?
- A. There were, I believe, two separate meetings of Judge Torres and Judge Grosso, if I'm recalling correctly.
  - Q. And was Dr. Kaye at either of these meetings?
- A. Yes.

Q. Okay. Were there ever a meeting -- was she

at both of the meetings?

- A. From what I recall, she was at one of the meetings that had to be rescheduled with her input. At the other meeting, I believe that she said she was not able to make it to that one.
- Q. Now, how often would you say that you would read an order from the court regarding, I guess, the issuance of, in some instances, medical records?
  - A. How often would we request medical records?
- Q. Like for example, how often would you say -- what was your experience with CHS interacting with the court regarding the usage of redacted medical records?
- A. So as -- as we discussed earlier, sometimes when we needed records to render an opinion on an examination and the -- and the examiners thought that the records would be helpful to them, they would seek an order from the court to have those records released and sent to the examiners for their evaluation. In those instances, we would make efforts to make sure that they were un-redacted, so they would have a full record. In some instances, the judges did not want to sign an order regarding un-redacted records. They would only sign an order for redacted records.
  - Q. Was there ever an instance where CHS refused

to comply with an order from the court to produce redact
-- un-redacted medical records?

- A. I'm not sure if there was ever an instance where CHS refused if the order was to release un-redacted records. Sometimes, the orders were not clear or the orders specified redacted records from judges. In those instances, as I recall, CHS would not be able to release un-redacted records unless that was specified in the orders.
- Q. So did CHS insist that the orders specify that the records be un-redacted, or was that something that came from the court?
- A. The court would have to be the final -- the signature from the judge would have to be on the order in order for CHS to release un-redacted records.
- Q. Was CHS ever threatened with contempt if they failed to produced un-redacted medical records?
- A. That I'm not aware of. I don't recall the issue of contempt coming up specifically.
- Q. Now, I have some questions about -- and I'll revisit this a little bit more.

On December 10th, 2018, there were minutes that were circulating about citywide pilot agenda and the turnaround to complete reports. At any point, was

it represented that it took, on average, 11 days for reports to be -- I guess, evaluations to be turned around for felonies and eight days for misdemeanors?

- A. I'm sorry. Can you repeat the question? I just wanted to get the --
- Q. For example, for the citywide pilot agenda, right, was it ever represented that it took, on average, 11 days for an evaluator to produce a report and eight days for an evaluator to produce a report for a misdemeanor?
- A. I'm not sure of the exact time period. I know there were general timelines when I first started regarding the procedures and the duration it took for the orders, the examination, the next court date, but I don't remember the exact times.
- Q. Did you ever represent to any judges in the Bronx that it would only take three weeks to -- for an evaluator to produce an evaluation once they've seen an actual inmate?
- A. From what I recall, each judge's would try to see if there's a way we could have an efficient process to have the reports submitted to court. The pilot, for example, in Queens, I know you're asking about the Bronx, but just as an example, the pilot in Queens,

represented, from what I can recall, that the report would be submitted back to court for misdemeanors in seven business days and 14 business days for felonies. And then other judges in our boroughs were asking about if there was a similar type of timeline we can duplicate in the other boroughs. And so you weren't always able to accomplish that in all four court clinics. So we had to meet with the judges and see what their needs were. And in one instance, I do recall a judge in the Bronx asking if we turn them around in three weeks. And at that time, I think we were still undecided whether that would be -- it would be accomplished or not. But that iddge's request.

Q. You didn't -- did you represent to that judge that you could -- that the Bronx Court Clinic could, in fact, turn around the report in three weeks, and she made that representation without Dr. Kaye?

MS. CANFIELD: Objection to form. You can answer.

A. Yeah. So as I recall, there may have been request of that in a meeting. And then I knew it would be important to also make sure that that's okay with Dr. Kaye before we finalized that. And so it may have been

brought up in a meeting with the judges, but my recollection is I also wanted to make sure that Dr. Kaye would be on board with that or at least have that discussion with Dr. Kaye first.

- Q. Now, at any point, and I guess this is -- I'm not sure how central this is to the practice of forensic psychiatry. And by no -- by no means am I an expert in this. But what is your understanding of the term "dual agency," Dr. Jain?
- A. So dual agency is a term that we use regarding the dual role between treatment providers and forensic examiners for the court system. So treatment providers have a particular relationship, particular goal in providing treatment to the patient; whereas, forensic examiners provide an objective examination and opinion for a third-party, usually on a very specific legal matter. And so a dual agency is something that we make efforts to avoid so that we can keep the treatment rules separate from the forensic examination rules.
- Q. Now, were there concerns raised about the participation or involvement of Dr. Alex Garcia-Mansilla sitting in on a 730 exam and the supervision of Dr. Brayton?
  - A. Yes. There were discussions regarding what

her role would be and how we would be able to balance and keep the treatment role separate from -- from the forensic examination role.

246

4

5

6

7

8

9

10

14

15

16

17

18

19

20

21

- Q. Now, Doctor, earlier I think we established that Dr. Alex Garcia-Mansilla managed the treatment at Rikers; is that right?
- A. My understanding is she oversaw the psychological assessments for CHS.
- Q. For CHS. The psychological assessments for CHS all together?
- 11 A. I believe her -- her -- I'm going by my
  12 memory. But my recollection was she was director of
  13 psychological assessments for CHS.
  - Q. And what about Rikers Island; didn't she provide treatment as well or oversee treatment?
  - A. So I don't know specifically, but my recollection is that she did provide some oversight of treatment at the Rikers Island side.
  - Q. Wasn't it the -- because I think it was -- wasn't it the understanding that Dr. Alex

    Garcia-Mansilla supervised both clinical and forensic assessment?
- A. She oversaw the psychological testing, not the actual opinions of the forensic examinations.

1	Q. Now, I'm using the term "doctor"
2	euphemistically I said I'm using the term "doctor"
3	euphemistically. That's what I said. Is Dr. Alex
4	Garcia-Mansilla a medical doctor?
5	A. No.
6	Q. So wouldn't it be somewhat problematic that
7	she is providing the oversight she is providing
8	oversight over clinical assessment?
9	A. No.
10	MS. CANFIELD: Objection. You can answer.
11	Q. You said no. And why why not? Why isn't
12	this a problem?
13	A. She's not if I understand the question,
14	she's not prescribing medication. She is involved in
15	the oversight of psychological assessment, psychological
16	testing for CHS.
17	Q. Now, did there come a time when Mr. Bloom
18	objected to the presence of Dr. Garcia-Mansilla at one
19	of the evaluations with Dr. Brayton because he felt that
20	his client would be prejudiced?
21	MS. CANFIELD: Can you repeat that?
22	Q. Did there did there ever come a time when
23	Mr. Bloom objected to the presence of Dr.
24	Garcia-Mansilla because he felt that it would prejudice

#### his client?

248

1

22

23

- A. Yes. I recall there was one instance where that was brought to my attention.
- Q. And what was the reaction of CHS? I mean, did Mr. Bloom's concerns, were they -- were they
- addressed? 6 7 Α. They were not appropriate concerns. Prior to 8 this, we had discussed with Dr. Ford, Dr. Kaye, Dr. 9 Garcia-Mansilla, about the appropriate role Dr. Garcia-Mansilla would have in the clinic. After 10 discussion with Dr. Ford, Dr. Kaye, Dr. 11 12 Garcia-Mansilla, we agreed that it would be appropriate for her to sit in and observe the examination in the 13 court clinic. And she also, being a forensic examiner, 14 15 forensic expert, appreciates the difference between treatment and forensic examinations. So she also 16 17 discussed that there was some overlap or potential 18 concerns of a dual agency, that she would recuse herself. But we, as I recall, for those instances --19 for that instance, I believe there was one. We also 20 21 made an effort to make sure there wasn't a patient that
  - made an effort to make sure there wasn't a patient that she provided treatment of at Rikers Island. So we were very careful of the procedures there, also careful of keeping the dual agencies separate. And so in that

1 context, the concerns were due to the environment that was created and the confrontation from Mr. Bloom. 2 decision was that Dr. Garcia-Mansilla would not sit in 3 to avoid that confrontation. But the concern itself was 4 not valid, because we had thought through those 5 potential dual agency issues beforehand. 6 7 Well, wasn't the -- and I'm going to jog your Q. memory a little bit. 8 Wasn't there a managing dual agency policy 9 written and then backdated after this incident on 10 11 December 12th with Mr. Bloom? 12 MS. CANFIELD: Objection as to form. You can 13 answer. 14 Can you repeat the question? 15 For example, from my understanding, this 16 incident with Mr. Bloom took place in or around December 17 12th of 2018, right, Decemberish; right? 18 MS. CANFIELD: Objection. You can answer. I don't recall exactly. I'm not sure. 19 Α. 20 Would you say it was around the holiday time, Q. 21 the holiday season? 22 I don't recall exactly when it was. Α. 23 Now, there was also a managing dual agency 0. 24 policy that was circulated by yourself and Dr. Ford,

250

23

24

Α.

1 wasn't it? There was a policy that was drafted 2 Α. Yes. 3 along with input from the directors and from Dr. Ford and others. 4 Now, didn't this policy take place after this 5 incident with Dr. Garcia-Mansilla? 6 7 MS. CANFIELD: Objection as to form. You can answer. 8 Yeah. I don't recall exactly when that 9 Α. 10 policy was. And just for purposes of clarity, a physician 11 Q. 12 is bound by HIPAA; is that right? MS. CANFIELD: Objection. You can answer. 13 Maybe, depending on the context of the 14 15 interaction with the individual and whether they're under HIPAA covered entity. There's various factors. 16 Well, the forensic --17 Q. 18 Α. It's a very broad term. 19 Is a forensic examiner who administers 730 0. examinations ever bound by HIPAA? 20 MS. CANFIELD: Objection to form. You can 21 22 answer.

I think ever, yes, there may be

instances where HIPAA would be relevant in a forensic

examination.

- Q. When would those be?
- A. So for example, if someone's doing an evaluation under a HIPAA-covered entity, whether they're providing treatment -- it's a forensic examination, but there's some treatment, a component along with that. For certain civil matters, my understanding is that there might be more HIPAA provisions that have to be followed. And other instances like certain criminal evaluations, it becomes more complex, because those are court-ordered and inherently non-confidential examinations. So the similar types of privacy issues, confidentiality may not apply.
- Q. Now, was there another policy that was drafted by you and Dr. Ford regarding the presence of third-party observers during exams?
- A. I believe there may have been an early draft.

  I don't recall if that particular policy was finalized.
- Q. Okay. Now, we touched upon the Jose Gonzalez controversial hearing. Now, I asked you some questions earlier, but I want to kind of revisit that a little bit. Did you read Dr. Kaye's testimony at the hearing for Jose Gonzalez?
- MS. CANFIELD: Objection. Asked and

answered. You can answer -- answer again.

- A. Yeah. I believe I reviewed the transcript of her testimony.
- Q. Did you find Dr. Kaye's recording of the exam to be problematic?
  - A. I had concerns about it.

- Q. What were those concerns, Dr. Jain?
- So ethically, there might be instances where Α. recordings are appropriate in a forensic examination. But surreptitious recordings are something that are not consistent with our quidelines in forensic psychiatry. Also, whether recordings are permitted in our court clinics as part of our evaluation process, that was also unclear. Also, whether recordings are permitted within the courts or court clinics, those were a concern as And so those were my questions regarding the appropriateness of that type of recording, especially if it was done without consent and surreptitiously, and I needed guidance on how to proceed, particularly because this issue was brought up in the context of another 730 examination and whether those recordings needed to be accessed, and if those recordings were appropriate, and how we would handle those procedures going forward.
  - Q. Now, I'm going to ask you a question. How

1 did you learn that Dr. Kaye recorded the examination of 2 Jose Gonzalez? In -- there was a second 730 examination 3 ordered on that case, and the two examiners, Dr. Brayton 4 5 and Dr. Mullan were the appointed examiners there. And it was --6 7 Q. I'm asking you how did you learn about Dr. Kaye recording it? I'm not asking about the second set. 8 I'm asking you how you learn Dr. Kaye recorded the exam 9 that she took? 10 11 Α. Yeah. 12 MS. CANFIELD: Objection. He's answering the 13 question. Please. It was based on that second set of 730 14 15 examinations by those doctors. That's how it was 16 brought to my attention. So did Dr. Brayton tell you that Dr. Kaye had 17 18 recorded the exam? 19 I was aware that it was in the transcript 20 which Dr. Brayton had, and I'm not sure. I don't recall 21 exactly if she told me or I came across it in the 22 transcript or not, but --23 Did Dr. Brayton share the transcript that she

24

obtained with you, Dr. Jain?

A. Yes.

- Q. Okay. Did you ask her for that transcript?
- A. Yes.
  - Q. Why did you ask Dr. Brayton for the transcript?
  - A. If I'm recalling correctly, there was supervision of that case in general, because it was a very complex case. And in the course of providing that supervision, it was -- again, I'm not sure, but it was brought to my attention that there was a recording that was done in a previous 730 exam on that case.
    - Q. Okay. Who else did the recording?

      MS. CANFIELD: Objection to form. You can answer.
  - A. Who else did the recording? My understanding is, based on the transcript, the only recording I was aware of was Dr. Kaye in that particular case.
  - Q. What about Dr. Charter, the other expert involved, did she record the exam?
  - A. That I don't recall, because Dr. Charter did not work with us in CHS.
  - Q. Did you read the entire controversion hearing transcripts, or did you just read Dr. Kaye's?
    - A. I don't recall if I read all of it. I did

recall reading parts of it. So I don't recall if I read all of it.

- Q. At any point, did you discuss with Dr. Kaye why she recorded the exam to begin with?
  - A. I was not given that opportunity, no.
- Q. How could you say you weren't given that opportunity when you were her supervisor? What stopped you from asking Dr. Kaye, did you record the exam and why?
- MS. CANFIELD: Objection as to form. Asked and answered. Answer it again.
  - A. Yeah. As mentioned previously, there were many factors that it would not be reasonable for me to speak to Dr. Kaye directly because of the other pattern of interactions that I've described. So I spoke with Dr. Ford about how to proceed. Also, I was interested in knowing what implications this would have for our procedures going forward in the court clinic regarding recordings and so forth.
  - Q. I'm going to ask you something: Did the fact that Dr. Kaye -- had the fact that Dr. Kaye had filed an EEO complaint, an EEO charge, and a lawsuit by that time, stopped you from engaging with Dr. Kaye?
    - A. It was not those specific issues, but it was

the general adversarial pattern that was created, which may have been connected to those issues. But it wasn't just because of those complaints that were filed.

Q. Did you speak to Dr. Kaye before she filed her first EEO complaint against management at CHS?

MS. CANFIELD: Objection as to form. You can answer if you're able.

- A. I can't -- I don't know when the first complaint was.
- Q. Would you say filing a complaint is adversarial?
  - A. I think the inherent nature of that suggests an adversarial -- adversarial procedure.
  - Q. So because she complained, you determined that Dr. Kaye was adversarial; is that right?
  - A. No.

MS. CANFIELD: Objection.

- Q. Did Dr. Kaye -- outside of, you know, trying to get you or to convince you to change her shift back, besides that one -- besides that one intense conversation that we discussed earlier, had there been any other intense exchanges with Dr. Kaye verbally that you had?
  - A. As I recall, there were different

1 interactions that were intense, not just with myself. I'm asking about you -- I'd like to keep you 2 Q. focused. We only have until 6:00. 3 Α. Right. 4 5 Did Dr. Kaye have any more adversarial intense conversation with you, Dr. Jain, outside of the 6 7 October 2018 discussion when her shift was changed? 8 MS. CANFIELD: Objection to the form. You 9 can answer. 10 Α. Sorry. Was there a --11 Q. I'm waiting for you. Did she have any No. 12 more intense exchanges with you after -- after the 13 October '18 meeting? Was that directed at me? 14 Α. 15 0. Yes, you. I'm only talking to you. Well, no, there was an objection, so I wanted 16 Α. 17 to clarify. 18 MS. CANFIELD: You can answer, Dr. Jain. 19 THE WITNESS: Okay. Thank you. 20 As I was answering previously, there So yes. 21 were exchanges where I was present, and also with me 22 regarding those various matters. I don't recall each 23 and every instance, but there were those -- there was 24 intense exchanges.

0. I want -- I want to ask you about the other intense exchanges that Dr. Kaye had with you. What were the other instances? I don't recall each instance. 0. How much of these intense exchanges would you say you had with Dr. Kaye? Α. Again, there was a pattern of these throughout my time in working there. I'm asking you: How many did you have, you, 0. yourself, have with Dr. Kaye? MS. CANFIELD: Objection. Asked and answered. You can answer again. Α. I can't put a number on that. You can't put a number on it, and you can't Ο. give me any circumstances for the other instances. trying to understand how you say that this is a pattern, if you can only give me one example. Are the other ones so traumatic that you don't remember what happened during those arguments that you had with Dr. Kaye? MS. CANFIELD: Objection. You're harassing the witness now. You can answer, Dr. Jain.

A. So there was a pattern based on the totality of my time there, of my interactions, and also based on other interactions when I was present with her as well.

```
1
    So --
               But Dr. -- but Dr. Jain, you only remember
 2
          Q.
 3
    one instance that happened with you. You only remember
    the time that Dr. Kaye asked you about the shift change.
 4
 5
    You cannot give me any other details about any other
 6
    intense conversations you had with Dr. Kaye. You had --
 7
               MS. CANFIELD: You keep interrupting him. He
          was still talking.
 8
 9
               MS. HAGAN: He keeps talking about other
10
          things. I'm asking him about his particular
11
          interactions with Dr. Kaye. That's all. That's
12
          it.
13
               MS. CANFIELD: And he's providing it. He's
14
          providing it.
15
               MS. HAGAN: I'm asking him about other
16
          intense argument with Dr. Kaye. That's what I'm
17
          asking.
18
               What was it about, specifically?
          0.
               So as I recall, there were at least two
19
          Α.
20
    instances of that in that summer of those interactions.
21
               Right. And what was the second one about?
          Q.
22
          Α.
               The second one about?
23
               Yes.
          Q.
24
               There were similar matters regarding her
          Α.
```

complaint about the scheduling, about the hours. It was also complaints about the meeting with me. And then, those were two that I recall at this time. Again, there was a pattern of other interactions that were concerning to me, such as my notes being taken out of the chart, and other times where there was suggestion that I was being targeted. And so based on those, that was a sufficient pattern for me, along with all the other concerns that were occurring at the clinic. And --

Q. Now, you agree that you -
MS. CANFIELD: Let him finish, please. Let's
him finish.

MS. HAGAN: Okay. (Indiscernible) yes.

- A. So to me, this was a sufficient -- those patterns -- along, again, it's not in a vacuum. I can't answer this in a vacuum. But those interactions, other interactions, other observations, other information I was getting from other staff, all of that built towards the totality of this concerning interaction, this concerning pattern.
- Q. Now, Dr. Jain, I'm going to ask you some more questions about the hostile work environment you're describing for yourself. However, the crux -- one of the crux -- one of the crux -- one of this lawsuit

1 involves Dr. Kaye alleging that she experienced hostile work environment that you participated in creating, so 2 3 much so that Dr. Kaye felt compelled to -- to retire before she intended to. Now, one of the things that she 4 cites is that, you know, first and foremost, there was 5 this whole push to do off-site examinations. Do you 6 7 recall that? There was a discussion about off-site 8 examinations, yes. 9 10 Right. And at one point, was there an 11 off-site examination scheduled with a highly dangerous 12 inmate by the name of Jose Ramirez? I don't recall. 13 Α. 14 Now, was there a policy that was actually 15 distributed after or right before this whole, I guess, 16 initiative to see Mr. Ramirez took place? 17 MS. CANFIELD: Objection to form. You can 18 answer. I don't recall when that discussion regarding 19 20 Mr. Ramirez took place. I do recall that we drafted a policy regarding off-site examinations. 21 22 So you drafted a policy regarding off-site Q. 23 examinations. And what was that policy; do you recall?

24

Α.

Yeah.

The general elements of the policy, I

262

24

1 may not remember each individual detail, but it was generally along the lines of that if there is a 2 defendant, a 730 defendant, who is hospitalized and not 3 able to be seen in the court clinic, what would be the 4 appropriate procedure, to see them in the hospital. And 5 so we were very careful in saying that we would not 6 7 automatically go and see them in the hospital. 8 ultimately, there would have to be various safety 9 provisions, a court order to see them in the hospital. 10 The hospital would have to be in agreement. There would have to be a safe space to see them. The directors --11 12 yeah, the court clinic directors would have to be in 13 agreement. And it would be the final call after having those discussions with the court clinic directors and 14 15 myself, on whether it was appropriate to have them be seen in the hospitals. Each clinic had functioned 16 17 differently. Some clinics had gone to the hospitals to 18 see these examinations, and some had to declined to do And so we wanted to reach some parameters where 19 20 there was guidance on when it would be appropriate to go 21 and when it would not be appropriate to go to the outside hospitals. 22 23

Q. So now, Dr. Kaye alleges that efforts were, I guess, intensified to push her out when this outside

policy was intensified to push her out when this off-site policy was cultivated so that she would be required to see this Jose Ramirez. Would you agree or disagree with that?

A. I disagree with that.

- Q. Now, did you ever see email exchanges from, let's say for example, Jeremy Colley and others that they basically described how violent Mr. Ramirez was?
- A. I don't recall specifics, but it would not be unusual if there was a consideration of a 730 defendant in a hospital to have that type of exchange with a hospital director to see -- to even consider if it was appropriate to even see them in the hospital.
- Q. Did Dr. Kaye express concern about the security in place to see Mr. Ramirez?
- A. I don't recall specifically about that case, but in general, yes. Those types of concerns were brought up by Dr. Kaye and other directors as well, case by case.
- Q. But I'm talking about Mr. Ramirez. So we're really specifically talking about Dr. Kaye and Dr. Colley and other people expressing concerning that it may not be such a good idea to engage in an off-site examination of this particular inmate. Do you know how

that particular case was resolved?

- A. There -- there was a beep there, but I think
  how that case was resolved --
  - Q. Yes.

- A. Yes. In that instance, I don't recall exactly. I remember discussions about making sure that it would be safe. However, if an examiner or director were not in support of seeing them off-site, we would support that decision. So I don't recall how that was decision was made. So as far as I recall, there was no directive to require an examiner to see any defendant off-site.
- Q. Was there -- you know, did it take the corroboration of others to support Dr. Kaye's position in order for the exam to be forgone, rather than just Dr. Kaye's reluctance?
  - A. Sorry. Can you repeat that?
- Q. Did -- did the reconsideration to see Dr. -I mean to see Mr. Ramirez, require the corroboration of
  Dr. Kaye's other colleagues in order for the decision to
  be made that Dr. Kaye would not have to see Mr. Ramirez
  by herself in this setting?
- MS. CANFIELD: Objection to the form. You can answer.

A. I'm not sure if I follow the question.

- Q. Was Dr. Kaye's refusal enough for CHS to reconsider its position, or did she need Dr. Colley and whomever else to support her in order for the decision to be made that she did not have to see Mr. Ramirez off site?
- 7 MS. CANFIELD: Objection. You can answer.
  - A. Yeah. From -- from my position, if a director raises that, including Dr. Kaye, that I would support that decision. If there were some extenuating circumstance or we really needed to have the individual seen, those discussions would occur with Dr. Ford, other leadership to see if that would be appropriate how to handle. But -- and sometimes, some examiners were more willing to go to see examinations off-site than others. So --
  - Q. Now, I'm going to ask you some questions about Dr. Kaye's concerns about a phishing email from a Teleakie Parker. Teleakie is spelled T-E-L-E-A-K-I-E, Parker. Now do you recall that email exchange or some kind of interaction surrounding the quote, unquote, phishing email?
  - A. Yeah, I remember a general email exchange regarding that.

Q.	Now, wh	at part	, if	any,	did	you	play	in
addressing	concern	s raise	d bv	Dr.	Kave?	?		

- A. From what I recall, when those questions came up, if I'm recalling correctly, it was -- I'm not sure if it was a phishing email. I'm not entirely sure what the email was. But there were some information in there, as I recall, such as a -- requesting social security numbers, which was -- I thought, you know, a somewhat unusual request. So I reached out to our CHS leadership, including Dr. Ford and others, my immediate supervisor, regarding how to proceed, because this was an unusual email. So, you know, so I certainly supported the idea that such a request over email was puzzling and concerning. So we wanted to make sure to address that before information was shared.
- Q. The question I would pose in this regard would be, you said it was a puzzling email. But was there also a project, per se, that was taking place that involved Dr. Kaye? Was that ultimately the determination as to what precipitated that email in the first place?

MS. CANFIELD: Objection. You can answer.

- A. Yeah. I'm not aware of a project.
- Q. Okay. Are you aware that Dr. Kaye was the

1 only director on the -- involved in this query of sorts 2 from Ms. Parker's unit? 3 MS. CANFIELD: Objection as to form. 4 answer. I don't recall who all was involved there. 5 know -- I do recall that Dr. Kaye was involved. I'm not 6 7 sure if others were involved as well. What steps did you take as Dr. Kaye's direct 8 Q. supervisor to ensure that her email -- that her personal 9 10 information was not, in fact, compromised? 11 MS. CANFIELD: Objection. You can answer. 12 Α. So from what I recall, you know naturally, in 13 a circumstance like that, I would advise, please don't 14 share that information. And then I brought it to other 15 leadership at CHS to make sure this was appropriate, 16 what information was needed. Is there -- if truly this 17 information is needed for some purpose, that's a 18 legitimate HR purpose. For example, is there a way to 19 share that information without sharing social security 20 number or other more secure types of data? 21 tried addressing that with our HR and their leadership 22 to try to make sure (indiscernible) --23 What's the -- I'm sorry. I'm sorry. Q. 24 Was there ever a clear-cut discussion as to

24

why Ms. Parker was seeking that information from Dr. 1 Kaye? 2 3 MS. CANFIELD: Objection to form. You can answer. 4 5 Α. I don't recall if there's a clear-cut answer at that point. 6 7 Q. Ever? Was there a clear-cut answer ever as 8 to why Ms. Parker was asking Dr. Kaye for that 9 information? I don't know. 10 Α. Okay. Now, do you recall an inmate by the 11 Q. name of Herschel Gary? 12 13 A. No. At any point, did you say that Mr. Bloom 14 Ο. 15 through CHS, under the bus, because he was a misdemeanor 16 -- a misdemeanant. And he had been, I guess, hadn't been seen since 2016? Do you recall that? 17 18 Α. I don't recall -- recall that defendant. 19 Okay. Was there a time that Jacobi wouldn't 0. allow Mr. Gary to leave to complete his exam? 20 MS. CANFIELD: Objection to form. You can 21 answer. Go ahead. 22 23 Α. So as I recall, again, not knowing the

specific defendant's name, I do recall a defendant who

1 was at Jacobi Hospital. And during a meeting, I believe 2 it was with the mayor's office, this defendant had a 730 3 pending. He was at an outside hospital, and Mr. Bloom, in the meeting, said that CHS refused to see this 4 individual at this outside hospital. And so it was as 5 very broad blanket statement. And it was accusatory 6 7 towards CHS. And so that, I do recall. I don't recall 8 the specific defendant's name, but I do recall that 9 instance where there was a defendant who was 10 hospitalized who needed a 730 exam. 11 Now, I want to ask you some questions 12 about -- I guess there seems to be, I guess, conflicting 13 accounts as to what transpired between, I guess, 14 perhaps, anywhere from late October 2019 until January 15 2020. On the one hand, Dr. Kaye and some of the defense community would argue there was a moratorium or work 16 17 stoppage at the Bronx Court Clinic. And on the other 18 hand, it was maybe CHS's position that maybe some of the 19 defendants weren't seen because they weren't being 20 produced to the clinic, or they were being produced 21 elsewhere. Would that be an accurate assessment as to 22 what transpired or at least the different accounts of 23 what transpired? 24 MS. CANFIELD: Objection to form.

answer.

- A. I'm sorry. Can you restate -- can you restate the question. I apologize.
  - Q. Okay. Dr. Kaye and some of her former colleagues allege that there was a work stoppage in the Bronx Court Clinic from November -- let's say late

October 2019 to January 2020 when Dr. Kaye resigned.

- 8 Now, you would disagree with that; am I right?
- 9 A. Yeah. I would not consider that a work 10 stoppage.
  - Q. Now, Dr. Kaye alleges that on this period from October 2019 until the day she felt constructively discharged, that she did not see one criminal defendant; is that true, Dr. Jain?
    - A. I don't know if she did or not.
- Q. Now, you were her supervisor. How could you not know if Dr. Kaye was actually working?
  - MS. CANFIELD: Objection. You can answer.
  - A. I don't recall at this time the number of cases in that period that she was seeing or not seeing.

    I know that during that time that she -- there were challenges in having 730 examinations done in the court clinic.
    - O. Now, if in fact -- if in fact 730 evaluations

Clinic.

weren't being done, that means the criminal defendants were basically sitting in jail waiting to be produced; am I right? No. Α. Okay. So where were they? If they weren't misdemeanants and they weren't at liberty, the ones who were on Rikers, where were they outside of Rikers? Yeah. If I understand the question, if they Α. had 730 exams waiting in one borough, we would make efforts to have them seen in another court clinic. How many inmates that would've normally been seen in the Bronx were transported to another borough? That I don't recall. Α. 0. Now, Dr. Kaye alleges that she only saw maybe one, if that, during this period. You have probably the most experienced evaluator on your staff. Why wasn't she working, Dr. Jain? MS. CANFIELD: Objection. You can answer. So for multiple reasons that I gave Α. Yup. earlier, because we had challenges in retaining and recruiting staff in the Bronx Court Clinic for a -because of the tense environment, we had difficulty in recruiting and retaining staff in the Bronx Court

Q. Okay. After Dr. Kaye --

- A. I'm not finished. I was waiting for the --
  - Q. Okay. Sorry. Keep going.
  - A. Okay. Also, there were challenges in having other examiners, co-examiners, participate with Dr. Kaye in the Bronx Court Clinic. Also, if examinations -- if defendants were produced to other clinics, Dr. Kaye said -- I was informed that she would not travel to the other court clinics. They would only be seen in the Bronx Court Clinic. And so there were multiple challenges in order to have an examination done with Dr. Kaye during that time.
  - Q. But you -- so you're -- is there anything in writing that says that Dr. Kaye refused to see any inmates during this period from October 2019 to January 2020 when she felt compelled to resign?
  - A. Any written statement that she would not see those cases?
  - O. Yes.
    - A. I don't recall.
  - Q. Did, in fact, Dr. Kaye write an email saying because of what was going on and because of the number of inmates in backlog that was developing, that she would be willing to travel during this time?

- A. I don't recall.
- Q. Okay. Now, were there ever complaints from the defense community, the Bronx defense community, for example, Mr. Bloom, that there -- there was a backlog at the Bronx Court Clinic in and around December of 2019?
  - A. Yes.

- Q. And what do you remember the complaint being, exactly?
- A. I remember it being an inaccurate complaint regarding the number of cases that there was a backlog on. As I described earlier --
- Q. Let's -- let's just stop. Was there a backlog in the Bronx?
- A. There were cases that were being -- waiting to be seen, yes.
  - Q. Okay. And when a backlog, does that present an issue of staleness as far as the findings are concerned? Like, for example, you have two evaluators that may or may not see an inmate at the same time; right? Let's say Evaluator A says inmate X on November 1st; right? But then, you know, Evaluator B needs to see inmate X as well. But they may need to wait a few weeks because the inmate may have some challenges, and there may be some scheduling issues. Suppose this

inmate recovers or has some treatment and is no longer in the cycle the psychotic state that they presented in when the first evaluation took place, would the first evaluation now be stale if, in fact, this inmate had been remediated? Is that the term?

MS. CANFIELD: Objection as to form. You can answer if you're able.

- A. Yeah. Without knowing the specifics, I think in general terms, that is something we think about. If there's a long gap between the first and second examination, the two findings may not necessarily be consistent, because there might be a change in clinical status of the defendant.
- Q. Now, was there ever a time in December, specifically December 18th, that Mr. Bloom confronted you, Dr. Jain, about your refusal to circulate staff to the Bronx to see inmates?
- MS. CANFIELD: Objection to the form. You can answer.
- A. So I don't recall the specifics, but
  Mr. Bloom had many email exchanges, and that at times
  were aggressive towards us, towards CHS, accusing other
  clinics and other examiners of certain -- criticizing
  their practices.

1	Q. Did (Indiscernible) contact you about seeing
2	a defendant Butler regarding during this period?
3	A. I don't recall a specific name of the
4	defendant.
5	Q. Did Judge Michael actually contact you about
6	the work stoppage in the Bronx?
7	MS. CANFIELD: Objection to form. You can
8	answer.
9	A. Yeah. I don't recall I believe a
10	judge did contact me, but I don't recall a
11	specific defendant's name.
12	Q. But Judge Michael did contact you about the
13	situation in the Bronx during this period; right?
14	MS. CANFIELD: Objection to form.
15	A. I don't it was one of the judges from the
16	Bronx. I don't recall specifically which one.
17	Q. Did, by any chance, Mr. Bloom confront you
18	about Dr. Kaye being effectively rubber roomed during
19	the period of October of 2019 and her resignation and
20	her forced retirement in January of 2020?
21	A. That type of accusation was in a from what
22	I recall, was in an email to multiple people. So it
23	wasn't just directed at me.
24	Q. And did you respond to the email?

A. I don't recall if I did.

- Q. You don't know if you did or not, something that's defamatory, Dr. Jain? Weren't you upset this email was circulating?
  - MS. CANFIELD: Objection to form. You can answer.
- A. So when that email came forward, it certainly raised concerns that I reviewed with our leadership at CHS about how to respond to something of -- of that nature. And then whether I responded or we responded from CHS, I don't recall. I do recall that one email that I did respond to with the mayor's office, also CC'd there, was regarding the number of backlogs, which was an inaccurate statement. And we responded to that email with the correct number of cases that were seen, the correct number that were actually remaining to be seen. And so it was a much different number than Mr. Bloom had sent to the mayor's office.
  - Q. But there was a backlog; am I right?
- A. There were cases to be seen, just like there are in every clinic.
- Q. Like, for example, there were a number of cases that started from January 2020 -- from July -- July 2nd, 2019, all the way to January 16th, 2020,

1 during that period. Do you recall the list of individuals that were provided? 2 3 MS. CANFIELD: Objection to form. You can 4 answer. Yeah. There were often a list of cases. 5 Α. Sometimes the -- the order was, perhaps, months prior to 6 7 the court clinics doing the examination -- for many 8 reasons, whether the defendant refused, there were challenges in scheduling. There could be a number of 9 10 reasons why those cases were waiting that long, but 11 there may have been a case that was that long. 12 0. Now, I'm going to go back to something. Now, 13 Dr. Kaye testified in the Jose Gonzalez matter in or 14 around -- in or around February of 2019, to be exact, 15 February 7th, 2019. Do you recall around the time when 16 she -- she testified? 17 Α. I recall that -- I believe her testimony was 18 generally -- I don't recall the details. I did not attend the hearing or aware, generally, that the hearing 19 20 was occurring. 21 Would you agree with me that the hearing took 22 place in the winter of 2019? 23 Α. I don't recall. 24 Okay. So I loathe to get into a discussion 0.

278

20

21

22

23

24

of a 300-page transcript at this point. I don't know if 1 you need to read all 300 pages to confirm whether or not 2 Dr. Kaye actually testified that day. So I'm not going 3 to go there. But what I'm going to ask you is whether 4 5 or not you evaluated Dr. Kaye and the other directors in or around February of 2019. Do you recall that? 6 I recall that there were evaluations, annual 7 A. 8 evaluations that we conducted, and I believe it was 9 around that time period, yes. Now, were there two versions of Dr. Kaye's 10 0. evaluation; do you recall that discussion with Dr. Ford? 11 There were discussions with Dr. Ford 12 Α. 13 regarding the evaluations, yes. Now, do you remember what you initially gave 14 0. 15 -- rated Dr. Kaye in your first evaluation of her? I don't recall specifically. 16 Α. 17 Q. Okay. Let's see if we can refresh your 18 recollection. 19 MS. HAGAN: Actually, could you give me five

MS. HAGAN: Actually, could you give me five minutes -- could you give me five minutes, and then I can finish. Okay. Thanks.

(Recess taken from 5:46 p.m. until 5:51 p.m.)

1	
2	Q. I want to ask a question about the licensure
3	regarding Dr. Kaye. At some point, we were talking
4	about the phishing email and the credentialing. Was
5	there ever a time in July of 2019 that Dr. Kaye
6	submitted paperwork to you updating her licensure
7	licensure, and you ignored it?
8	A. I'm not sure what ignoring it means or which
9	licensure paperwork you're referring to.
LO	Q. Well, her medical license were up for renewal
L1	in July of 2019. Do you recall that?
<b>L2</b>	A. I don't recall those details, no.
L3	Q. What would be the consequence of a doctor
L <b>4</b>	working without a current medical license?
L5	A. Without a medical license you need a
L6	medical license in order to practice.
L7	Q. Well, an updated medical license. Like I
L8	think like periodically I don't know how doctors
L9	work, like I'm not a doctor, but I would think every so
20	often you have to renew your license; am I right?
21	A. Yes.
22	Q. And at the time, Dr. Kaye had submitted
23	paperwork to you to renew her license before the
1	owniration date game. Do you regall that?

Α.

Yeah.

Α. No, I don't recall that. Now, Dr. Kaye alleges that you intentionally Q. failed to update her license. And as a result, she was potentially subject to discipline. Were you aware of that? MS. CANFIELD: Objection. You can answer. Α. Yeah. This is something that I'm not aware This is not to my knowledge. 0. Now, was there ever a time where there was an incident that you were aware of between Dr. Kaye and Ms. Swenson? What incident? Α. Well, in -- in or about May 31st of 2019, do Q. you recall there being an incident where Dr. Kaye allegedly told Ms. Swenson that it was doctors like her that made her job possible or something to that effect? I remember some interaction with Ms. Swenson Α. and Dr. Kaye, yes. Did you speak to Dr. Kaye about what transpired between she and Ms. Swenson? Α. No. Q. Who did you speak to? MS. CANFIELD: Objection. You can answer.

I'm not sure if I spoke with anyone

1 specifically. I know it was brought to my attention, 2 and then I informed the proper channels from my end, which would be my supervisor, Dr. Ford. And then from 3 there, I know that Ms. Swenson also had other people she 4 reported to. So from what I recall, that incident was, 5 you know, processed through those channels. 6 7 Q. Did you have a number of email exchanges with Ms. Swenson about this incident? 8 I remember some emails. And my recollection 9 Α. 10 of those emails is that -- I remember those emails, and 11 I recall trying to just figure out the next steps of 12 what needed to be done from a procedural standpoint. 13 Q. Now, at any point, were you aware of what 14 transpired as far as Dr. Kaye's retention bonus? 15 Α. No. 16 0. So you had no part in that? 17 Α. I had no part in that, no. 18 And I just want to make sure I covered 0. everything. I guess the question I have to kind of 19 20 close this out, the incident with Dr. Kaye and Ms. 21 Swenson possibly could have pre -- serious implications 22 for Dr. Kaye's medical license. Would you agree, 23 depending on the charges that were brought against her?

MS. CANFIELD: Objection as to form.

24

You can

18

answer.

- A. Yeah. I'm not sure they would have implications on her license.
  - Q. Have you heard of the term "disruptive physician" before?
    - A. I don't recall exactly what that refers to.
  - Q. Though, you've never heard of that particular allegation lodged toward a doctor before?
  - A. I may have heard of it, but I don't have the specific definition.
  - Q. Now, earlier you said that you applied to work here in New York through your medical license; am I right?
- 14 A. Yes.
  - Q. And do you recall that during that process, you had to, I guess, disclose if there was any kind of disciplinary or other infractions in your, I guess, in your personnel files; am I right?
- MS. CANFIELD: Objection as to form. You can answer if you're able.
- 21 A. Yeah. I don't recall exactly what they asked 22 on those forms.
- Q. So you don't recall having to disclose
  whether or not you had any personnel actions in your

1 personnel files prior to applying for licensure here in 2 New York? 3 MS. CANFIELD: Objection to form. You can 4 answer. I recall there were specific questions about 5 those types of issues. And so from what I recall, I 6 7 don't know the exact wording, but I do recall having to fill out those types of forms. 8 When the memo was written to -- let me -- let 9 me scratch that. 10 11 Who made the decision to write a memo to Dr. 12 Kaye regarding the incident with Ms. Swenson rather than 13 just have a verbal? 14 I don't recall specifically who made that 15 decision. 16 Were you part of that decision-making process, Dr. Jain? 17 18 I was aware it was occurring, but the specific decision, I was not involved with. 19 20 So you didn't contribute to the decision? As I recall, there was a broad decision about 21 22 this. It was brought to my attention. But I don't 23 recall being the one to make a decision about this or 24 having -- outside of what was presented to me, being

concerning and being aware of that as a director of the court clinic, that this was occurring in the court clinic, the specific determination of what needs to be done next or the warning or those procedures, I don't recall being involved in that specific decision.

- Q. But would it be fair to ask or to even say that even though you may not have been involved in the decision as to the selection or the avenue of recourse that was going to be pursued against Dr. Kaye. You were a witness to the deliberations, whether they were like verbally or in person; right?
- A. I don't believe I was involved with the direct deliberations there. I know I was CC'd on some emails and knew broadly what was occurring. And the extent of my involvement also -- or part of my involvement was also a decision as to who should actually -- once this warning needs to be issued, who actually should give it. And so, in that context, I was aware that it would be not me who makes that -- who delivered that warning.
- Q. I guess my question again will go back to Dr.

  Kaye. Did anyone ever speak to Dr. Kaye about what

  happened or to get her version of events of what

  transpired between she and Dr. she and Ms. Swenson?

1 I'm sorry, I'm calling a lot of doctors' names. 2 sorry. 3 MS. CANFIELD: Objection to form. You can 4 answer. I wasn't there with the discussions directly 5 with Dr. Kaye in general. And these procedures, I know 6 7 there's often a chance to have that type of discussion and receive different views of what occurred, but I 8 wasn't part of that specific discussion. 9 10 Again, I would just ask again and -- was this part of -- I mean, you've said that, you know, you've 11 12 alleged that Dr. Kaye was adversarial in her 13 interactions with you. But she also seemed to give good substantive guidance to some of the initiatives that you 14 15 were trying to implement while you were a director at the court clinics. At any point, did you seek to -- I 16 17 guess, engage Dr. Kaye before she left the clinic? 18 Α. Throughout the -- you know, employment Yes. especially in the beginning, I made many efforts to 19 20 engage her, to provide support, to also meet with her 21 regularly. And so I did make efforts for that as well. 22 And you know, certainly, I made all my efforts to be 23 collaborative with her, as I did with every director. 24

So the totality of the pattern was more adversarial.

286

But you know, certainly, I made efforts to have 1 instances where I could collaborate and could 2 incorporate. It doesn't mean that I would ignore --3 despite the adversarial posture from her, I would try to 4 5 incorporate her input as much as possible. And those are good examples of times where I did. I did include 6 those input from her, and I think that highlights my 7 efforts I made to also be fair and include her. 8 This is my last topic, and I guess my last 9 10 question or so, depending on your answer. 11 Before Dr. Kaye retired, were you aware of Dr. Kaye's complaint to the Board of Corrections? 12 13 Α. Dr. Kaye's complaint to the Board of Corrections? 14 15 0. Yes. Specifically which complaint? I just want to 16 Α. clarify. 17 18 There was a complaint that was filed with the 0. 19 Board of Corrections in or around January of 2020. 20 you recall that, against CHS? I recall an email being sent that I believe 21 22 was a letter. So this may have been the complaint 23 you're referring to --24 0. Yes.

A regarding CHS. And I don't recall exactly
who it was sent to. It was a email that was sent
broadly to many individuals. So I do recall generally,
but I don't recall the details of who it was sent to and
what the exact content was.
Q. Did you take any steps to address any of the
allegations in Dr. Kaye's complaint?
A. Throughout, if we would have any complaints
or allegations, especially regarding procedures in the
court clinic, making sure that our procedures were
ethical, I made efforts to address those and resolve
those throughout my time at CHS. I I do recall that
there were also other complaints in general regarding
Rikers, and those would kind of involve me directly.
MS. HAGAN: Now, I'm going to show you, and
I'm not sure if I Bates stamped this. So Counsel,
please forgive me. I will go through and make
sure that I will provide you with the Bates
stamped copy of the Board of Correction complaint,
if I haven't done so; all right?
(Plaintiff's Exhibit 7, BOARD OF
CORRECTION AND INSPECTOR GENERAL
COMPLAINT PLAINTIFF FILED ON JANUARY

288

# ABHISHEK JAIN, M.D.

7TH, 2020, was marked for 1 identification.) 2 3 But I want to show you what's marked as 4 0. Plaintiff's Exhibit 7. And this is the last exhibit of 5 the day. And it's the -- what's being shown to the 6 7 witness is the Board of Correction and inspector general 8 complaint that plaintiff filed on January 7th, 2020. 9 you see the document, Dr. Jain? 10 Α. Yes, I see it on my screen. Okay. Now, do you need time to read it? 11 Q. 12 Α. Yes, if you could -- or is there a 13 particular --14 0. No. We could --15 MS. CANFIELD: Read the whole thing, please. 16 MS. HAGAN: Read the whole thing. 17 Α. Okay. 18 Okay. So I'm going to draw your attention to Q. 19 the second paragraph so far. 20 MS. CANFIELD: Did you read the whole thing? I only got down to --21 22 THE WITNESS: But there's more actually. 23 MS. HAGAN: It's six pages long, so -- now 24 that I'm letting you, guys, read this, I'd like to

1 have an opportunity to question the witness on the This is my last set of questions. 2 exhibit. Is that understood? 3 MS. CANFIELD: Sure. 4 THE WITNESS: Okay. Okay. 5 Now, that you've read the document in its 6 0. 7 entirety, I'm not sure that this is probably under the 8 best circumstances. Does it refresh your recollection as to whether or not you had come across the document, 9 10 or was it referenced by management? I recall this -- whether it was exactly 11 Α. Yes. 12 this document or something similar, it does refresh my 13 memory regarding elements of that. 14 0. Were you ever approached by the Board of 15 Correction about this complaint? 16 Not me -- that I'm aware of, no. 17 Q. You said not me personally -- you were about 18 to say not me personally. Who was actually approached? Well, I can only speak for myself. I don't 19 Α. 20 know if anyone was approached, but I was not approached. 21 0. Was anyone -- did anyone approach you from 22 the inspector general's office about this complaint? 23 Α. I'm not aware. I'm not sure. 24 You're not aware if someone spoke to you or 0.

not from the inspector general's office?

- A. Well, I'm sorry. I thought you said somebody
- 3 -- whether they spoke to the inspector general. No.
- 4 The answer is no one, to my recollection, specifically
- 5 discussed this letter with me from what I recall. No.
- 6 Q. Now, do you agree that there have been due
- 7 process rights violations for criminal defendants in the
- 8 administration of the 730 examinations?
- 9 A. I'm sorry. I couldn't -- entire -- I
- 10 couldn't hear the entire question.
- 11 Q. Let me backtrack. First off, before I go
- 12 | into that, did anyone from the department of
- 13 investigations contact you, Dr. Jain, about the
- 14 complaint?

290

- 15 A. I don't recall a specific question about this
- 16 complaint.
- 17 Q. So you have never received any correspondence
- 18 or any engagement about this complaint, even though
- 19 you're named in it; is that right?
- 20 A. So --
- MS. CANFIELD: Objection. Go ahead. You can
- answer.
- A. Yeah. As I recall, when this came forward,
- 24 and again, I'm not recalling the exact time period or

1 what occurred, I do recall that because our leadership 2 was involved, Dr. Yang, Dr. MacDonald, others, that I 3 don't recall exactly how it was handled. Elements of these different complaints within here were not entirely 4 new to me. I had heard about some of these, and so 5 those were systematically addressed when they came 6 But there were also general types of 7 forward. complaints that were brought forward in here which, you 8 9 know, I was mindful of to try to address during my time. 10 But again, specifically about this letter, I don't recall specifically what occurred with this specific 11 12 letter. 13 Have you ever testified under oath about --Q. about CHS, Dr. Jain? 14 15 Under oath about CHS, in what context? 16 About --17 Any -- any context. If you -- if you had to Q. 18 provide an oath and then you discussed CHS. Did that 19 ever happen? 20 MS. CANFIELD: Objection to form. You can 21 answer. Yeah. So I've testified in 730 examinations. 22 Α. 23 I have testified -- there was a internal review as well, 24 which I testified under oath there. And so those are

matters in which these issues -- not these issues, but those were general matters which I testified in.

- Q. Now, Dr. Kaye alleges that she experienced retaliation when she mentioned some of the, I guess, issues that she identified fairly early on in -- in Dr. Yang's official, I guess, tenure at CHS. Do you ever recall Dr. Yang making a statement during the meeting, there's the door. If you don't like how we're doing things here, we've got the money, and there's the door?
  - A. No, I don't recall that.

- Q. Now, did -- did Patsy have a group of individuals that she liked to engage professionally during the course of her, I guess, tenure there at CHS?

  MS. CANFIELD: Objection to the form of the question. You can answer.
  - A. Yeah. I can't speak to her preference.
- Q. Were you part of this group that regularly met with Ms. Patsy?
  - MS. CANFIELD: Excuse me. Dr. Yang, is that who you're referring to?
  - MS. HAGAN: Dr. Yang refers to herself as Patsy.
  - MS. CANFIELD: You referred to her on the record as Dr. Yang, just for clarification for the

1 record. Now, we have Patsy. So you're speaking 2 about Dr. Yang; correct. MS. HAGAN: Yes, Ms. Yang. Yes. 3 4 MS. CANFIELD: Dr. Yang, yes. You can 5 answer, Dr. Jain. So the beginning of the question was about a 6 Α. 7 certain group. But then the second part of the 8 question, did I meet regularly --9 Were you part of that group? 0. 10 Α. Part of what group? 11 Did you meet regularly with Dr. Yang? Q. 12 At the beginning of the employment, yes, I 13 was part of some meetings that were regularly -- that regularly occurred with Dr. Yang, yes. 14 15 Now, did that -- did those regular meetings 16 continue when you -- as your employment progressed, or 17 did they decrease in number? 18 They decreased in number. However, there Α. 19 were meetings that were still occurring and as needed. 20 Now, were there ever instances where CHS 21 encouraged evaluators to find the inmates that were 22 charged with misdemeanors, incompetence, so the charges 23 could be dropped? 24 Α. No.

Q. So you never heard of anything like that?

A. No.

Q. Okay. And was there ever a time where -where there was an effort to obscure the transparency of
the forensic evaluation examination by one, as we
discussed earlier, discouraging the reporting of
examinations?

- A. I can't agree with that -- the way the question's asked. There was no encouragement to reduce the transparency of the examination. I think with recordings, that is a complex issue with a different ethical implications and different procedures in place. So when recordings are used in the forensic examinations, there's often careful procedures and thought before those are used. So we would need to be consistent with that type of ethical procedure before recording the exam.
- Q. What ethical procedure was in place at CHS before (indiscernible)?
  - A. What ethical procedures were in place before?
- Q. Yes, at CHS, before Dr. Kaye was allegedly -- was accused of the unauthorized, quote, unquote, usage of recording?
  - MS. CANFIELD: Objection. You can answer.

1	A. Yeah. I'm not sure if there was a specific
2	specific internal ethics regarding this matter. The
3	general practice had been, to my knowledge, that
4	recordings were not done in the court clinics. On one
5	occasion that I recall, a judge had requested a court
6	a judge had requested an interview be recorded. And
7	that was only because the defense attorney had requested
8	that it be recorded. However, there were specific
9	orders in place for that specific procedure before we
10	authorized that. And then eventually, the defendant did
11	not show up for that particular examination anyways.
12	But in general, the examiners, myself, the directors,
13	would follow our usual forensic ethics and guidance
14	regarding recordings. And so to my knowledge,
15	recordings were not done in the court clinics. That was
16	the first instance outside of that specific judge's
17	order for court recording that I came across. And that
18	was in the Mr. Gonzalez's case that you were
19	referring previously. That was the first instance where
20	I saw that there was some recording done of a case by
21	one of our examiners at their own behest.
22	Q. Was there ever a time that you read the AAPL,
23	A-A-P-L, Guidelines as they pertain to recording?
24	A. Yes.

Q. And was it ever determined that there was a definitive position taken as to whether or not recording was, I guess - I guess, a standard practice within the profession?

MS. CANFIELD: Objection as to form. You can answer.

- A. Yes. So the guidelines specify that surreptitious recordings should not occur. However --
- Q. You said that the guidelines -- you said that the AAPL -- the AAPL literature basically discourages or does not condone surreptitious recording. And I'm asking you, specifically, which document or which repository would have said that surreptitious recording, quote, unquote, was prohibited or unethical?

MS. CANFIELD: Objection to the form. You can answer.

A. So as I recall, this was in the AAPL, either resource document or guidelines regarding forensic psychiatric examinations. There's also a separate guidance that I recall that, I believe, has to do specifically with video recordings. So there's a few different -- at least two different areas where recordings are mentioned in the AAPL Guidance. And both of those, as I recall, have some deliberations about the

pros and cons and the appropriate procedures to take with forensic examinations and recordings.

- Q. But they don't necessarily reference surreptitious reporting. It's just in general what the pros and cons would be in terms of the defendants and/or the evaluation -- evaluator's ability to take comprehensive notes without being distracted by note taking; right?
- 9 MS. CANFIELD: Objection to form. You can answer.
  - A. Based on my recollection, there is AAPL
    Guidance in a resource document. I believe it's
    regarding forensic psychiatric examinations regarding
    the aspect of recording. And I believe in that
    document, it states that surreptitious recording should
    not occur. The menu's different -- specific wording,
    but I do recall that the word "surreptitious recordings"
    was discussed in that document.
  - Q. Now, I'm going to ask you something. Now, you do know that New York is a one-party reporting state; right?
    - A. Yes.

Q. So it doesn't necessarily matter if the individual is surreptitiously, quote, unquote, recording

298 1 or is recording without the other person's consent. fact is New York is a one-party consent state. So you 2 3 only need the one person who's probably recording in order for the recording to be permissible. 4 MS. CANFIELD: Objection. Under the criminal 5 6 law. You can answer. 7 MS. HAGAN: Objection to counsel -- counsel coaching the witness. 8 9 MS. CANFIELD: You can answer, Dr. Jain. 10 Α. Okay. So can you repeat the question again? My question is that New York is a one-party 11 Q. 12 recording state, a one-party consent state. You are 13 aware of that; right? Α. 14 Yes. 15 So the persons who's recording doesn't --16 don't necessarily have to disclose they're doing so 17 anyway, generally; am I right? 18 MS. CANFIELD: Objection. You can answer. 19 It depends on the context. Α. In what context is it required in a one-party 20 recording state, that the person who's recording must 21 22 disclose that they're doing so? 23 MS. CANFIELD: Objection. You can answer.

> So there might be other areas. So for Α.

example, if I'm doing a private interview clinically or 1 2 physically examining a patient and I choose to surreptitiously record, I think that would raise 3 concerns. So there might be a specific law regarding 4 5 one-party consent in general. But when we're talking about forensic examinations or clinical assessments. 6 7 there's other layers of ethical considerations that we have to take into account as well. 8 So I -- I would be loathed to ask, but in 9 10 this instance, CHS had no policy in place against 11 recording anything at that time; am I right? 12 MS. CANFIELD: Objection. You can answer. 13 Α. I'm not sure if CHS had a general policy No. regarding recording or not at that time. 14 15 Was there ever reference or an allusion made to CHS standard -- custom and practice or regarding 16 17 recording at that time? 18 MS. CANFIELD: Objection. You can answer. 19 If I understand the question, the general Α. 20 practice in each of the clinics was there was no 21 recording, especially no surreptitious recording of 22 examinations unless there was a specific court order. 23 This is my understanding. 24 Where did you -- first off, who presided over 0.

that policy? Because clearly, Dr. Kaye was not aware of that before she recorded Mr. Gonzalez's exam.

19

20

21

22

23

- So I'm not aware -- again, I'm not aware of a Α. specific policy. I'm referring to more the general practice in the court clinics that -- to my knowledge, that examiners were not recording 730 examinations or 390 examinations. But there's very careful ethics regarding that issue. The only time I'm aware that a recording did come up was in one instance when a defense attorney wanted the exam recorded. And that was through a court order. Otherwise -- and part of the reason I'm aware that there -- as I'm remembering, why it was at that time evident to me that recordings were not a regular practice, because when that court order came forward in one of the boroughs, I did generally ask and also received some guidance. And there was a general practice that we would not do recordings ourselves. And if a recording was needed, that we would do that through the proper procedures through a judge and a court order.
- Q. I guess one of the questions I'd like to ask you, when was the last time you received any training from any institution akin to like, let's say, AAPL or any like institution, or I guess, facility that would be associated with your license as a forensic psychiatrist,

1 Dr. Jain? 2 MS. CANFIELD: Objection. You can answer. So -- so I think there's a number of 3 Α. Yeah. things there. So AAPL does not license psychiatrists. 4 5 Oh, no. I didn't say that. I said when was 6 the last time you received training. There's a 7 difference. 8 I received -- I attend AAPL meetings 9 regularly. I participate in various trainings, various 10 academic projects, academic types of conferences and 11 interactions. I'm a counselor of the American Academy 12 of Psychiatry and Law. So I'm involved with AAPL on the national level. I'm also involved with different 13 organizations throughout -- both regionally and 14 15 nationally. And also frequently involved in giving 16 presentations and academic projects through there as 17 well. 18 Now, did you ever speak to Dr. Colley about Q. recording examinations? 19 20 I don't recall if I specifically spoke with Α. 21 Dr. Colley? 22 Did you -- I mean, who else did you speak to Q. 23 specifically to determine whether or not it was - it was

custom or practice or any kind of, I guess, custom and

practice to record at CHS?

- A. Yeah. So I spoke with Dr. Ford. I spoke with our directors of CHS. I spoke with other examiners who had been there.
  - Q. Now, when you refer to the directors, who are the other directors?
  - A. The other directors who I mentioned previously, Dr. Winkler, Dr. Mundy, Dr. Owen.
- Q. So okay. Let's -- let's break them down.

  Dr. Winkler told you that he doesn't believe or that Dr.

  Winkler does not believe in recording exams.
- A. No. I didn't say that that's what he said.
- Q. Okay. So what did Dr. Winkler say about recording examination?
  - A. So I don't recall exactly, but the general sentiment among the directors and the examiners was, we don't do surreptitious recordings. And if recordings are needed, there should be a procedure in place, like a court order or some procedure to make sure it's an appropriate recording. From -- as I recall, that was the general sentiment among the examiners and the directors.
  - Q. Now, I want to ask you some questions about the 730 team. Now, Dr. Jain, did you play a part in the

creation of this team?

A. No.

- Q. And just to make sure that I close everything out as far as the -- I guess allegations regarding the recordings. At any point, is your, I guess, knowledge about, you know, medical practice and licensure, did Dr. Kaye ever either violate PHI or HIPAA during the course of what you (indiscernible) surreptitiously recording the inmate?
- A. You had your mouth covered for that last part. Sorry.
  - Q. I said, at any point, did Dr. Kaye violate
    PHI or HIPAA when she allegedly surreptitiously recorded
    the inmate?
  - A. So it's a complex answer because, again,
    HIPAA is a very specific type of law. And again, this
    is an area of ethical concern of recording defendants
    surreptitiously. Whether it was proper violation of a
    protected health information or HIPAA, that's a more
    complex answer because we were not providing treatment
    in the court clinics. However, certain provisions of
    HIPAA or protected health information may still apply to
    us in the court clinics. So it's a complex area, and
    this is why I also sought consultation from my

supervisors, more input on how to handle these types of matters.

Certainly, if there's, you know, those types of recordings on a device that is not authorized or proper procedures are not in place for that information, then, you know, those are the specific matters worth raising. Again, I cannot conclude myself whether those were violated. However, the concerns were raised by it.

- Q. Were -- were those violations completely referenced in the memorandum that was generated by, I guess, management and then eventually signed by Dr. Ford?
- 13 A. I don't recall exactly what was referenced in 14 that document.

MS. HAGAN: I was trying to keep it to the last -- you know, will you permit me one last document, Ms. Canfield? I know we're well over 6:00.

MS. CANFIELD: Yeah. I -- I have just a couple of questions myself, so if you could expedite things.

MS. HAGAN: Okay. So what I'll do is I'll show the memorandum from Dr. Ford, and that will be my last exhibit. Is that fair?

1 MS. CANFIELD: Yeah. I mean that was your last exhibit. I thought it was just going to be 2 five minutes of questioning. It ended up being a 3 half hour. So yeah. 4 5 MS. HAGAN: He did read it, so I was trying to be fair. 6 7 MS. CANFIELD: He read it very quickly, but okay. 8 9 MS. HAGAN: Yeah. Sure. 10 11 (Plaintiff's Exhibit 8, DOCUMENT BATES 12 STAMPED D 1489 and D 1490, was marked for identification.) 13 14 15 At any point, was Dr. Brayton remediated 0. 16 during her employment at the -- the court clinics? 17 Α. Dr. Brayton, I wouldn't use the term 18 "remediation." 19 What term would you use instead? 0. 20 As part of any new hire or anyone in the 21 clinic, we provided supervision, training, if they're 22 coming on board. I would not characterize her as being in remediation. 23 24 At any point, did you determine that Dr. --0.

did anyone ever complain about the quality of Dr. Brayton's work?

A. It was raised by Dr. Kaye.

21

22

23

- Q. Did -- besides Dr. Kaye, was anyone in the legal community complaining about Dr. Brayton's work?
- So -- not specifics. There was one meeting I Α. had with Mr. Bloom, Ms. McEvilley, Dr. Kaye, and Brayton present, the five of us. And there were some concerning statements being said by Mr. Bloom and Ms. McEvilley in front of Dr. Brayton about her and saying that she's in remediation and bringing up vague concerns there, as I recall. But I thought that was very inappropriate also to do that in front of Dr. Brayton. I thought that that reinforced for me that that was a tense environment, and there was an intimidation factor there. And so I was concerned for Dr. Brayton at that point regarding the way they were speaking of her. So there was that meeting. Otherwise, I don't have awareness of specific issues that Dr. Brayton was -- specific complaints regarding Dr. Brayton or anything that would be -anything unusual that stood out for me, just in the typical course of doing evaluations.
- Q. So did anyone else besides Ms. McEvilley and Mr. Bloom complain about Dr. Brayton, even if it wasn't

in front of her face?

- A. Again, I'm not recalling specific issues regarding her. Dr. Kaye would share, kind of general things that people have complained about her, but it wasn't clear to me exactly what those issues were.
- Q. So this is Plaintiff's Exhibit 8. And it bears the Bates stamp series D\_1489 and D\_1490. I'm sure you've come across both. And you should see the document at this point. Now, it's the same memo. But one version has signed under protest; the other one doesn't. Would you prefer to read both, or would you just like to read the one version of the document? Well, they both have it signed under protest. I'm not sure what happened here. Well, I have both policies, that's why. One is the audio recording, and the other one's unprofessional conduct. I would like to draw your attention to the audio recording portion of the document, if that's okay.
  - A. Okay. I think you're asking me, so --
- Q. Yes. So you need -- do you need to read the
  May 29th audio recording memo?
- A. Yes, if I may, just read it here. Okay. And can you scroll down, please. Thank you.
- MS. CANFIELD: The last paragraph.

MS. HAGAN: Okay. Got it.

THE WITNESS: Okay.

- Q. So before I ask you anything, I don't want to leave this open. Did Dr. Winkler ever complain about Dr. Brayton's writing ability or style to you or anyone else?
- A. I wouldn't say complaints. But in the course of supervision and training, there were areas where we discussed, just like we would of any court clinic examiner that we're providing supervision to, that there are areas of improvement.
- Q. Would you say that Dr. Brayton was actually qualified to administer forensic evaluations when she was hired for that position?
  - A. By statute, yes, she was qualified.
- Q. But I understand by statute, but by competence. Was she competent to actually perform forensic evaluations in the context of a penological intuition, such as the court clinics?
  - MS. CANFIELD: Objection to form. You can answer.
- A. Yeah. So she was competent to do those. As any new examiner or new hire, there was a time to get her aware of the procedures and specific aspects of the

examination, but she had the core qualifications to do the work.

Q. Okay. So now, I'm going to question you about this, and then I'll turn everything over to counsel.

Now, the first paragraph goes into saying that this memorandum serves as a notice that you inappropriately recorded a 730 competency evaluation without authorization. Now, your unauthorized recording of private health information is in violation of CHS custom and practice. So I guess the first portion of it was, a 730 competency evaluation without authorization. Was it custom and practice for CHS to acquire any of the evaluators to obtain authorization prior to, I guess, recording anyone?

MS. CANFIELD: Objection. You can answer.

A. Yes. To the best of my knowledge, each court clinic, if recordings came up, they would have a -their own procedures in place to make sure that the
recording was done appropriately, whether it was getting
a court order or other procedures. But this came up
very rarely. And again, during my time, there was one
instance where there was a request for court -- for
recordings of the examination.

Q. Was -- is authorization required for a court-ordered exam?

- A. I'm going to repeat the question, because I heard a beep there. Is authorization required for court-ordered examinations?
  - Q. Yes.

- A. So I would say depending on the context and the setting, generally speaking, yes. In my experience, and with other forensic psychiatrists, prior to a recording, they would often have some procedure in place to make sure it's authorized. So what recording device is being used, is it appropriate for the -- the retaining attorney or the court and depending on which context they're working in, there might be other requirements of that setting, their organization, whichever service they're providing. Their organization would also have some procedure in place for authorization.
- Q. Is that -- is your position supported by any literature or precedent, Dr. Jain?
- A. So there's no specific -- regarding this matter, again, there's AAPL guidance on this issue and different guidelines, and it's very specific --
  - O. Which --

A. Let me --

17

18

19

20

21

22

23

- Q. I'm asking which ones though, because you never told me which one referenced this position that you're alluding to. What is the name of the publication that you're referencing by AAPL?
- A. So there's two guidelines regarding recordings that I came across through AAPL.
- Q. And they specifically say that authorization is required before you record?
- That I don't recall what they specifically However, typical practice and my understanding with many forensic examiners is that they would often have some authorization for the recording. And those procedures can defer. There isn't one specific authorized procedure for the practice of recording, but they outline some procedures in place. And the one consistent guidance I did find is that surreptitious recordings should not be done. So some procedure for the proper recording of these examinations should be done, whether it's through the attorney who's retaining them, whether it's through the judge, whether it's through the organization they're working for. But no, there isn't one specified procedure for that that I came There may be some out there, but this is based across.

on my review of the literature I came across, as well as awareness, both as a former director of a forensic psychiatry training program, as well as interacting with multiple forensic examiners nationally.

- Q. So ultimately, that -- this is your opinion, not necessarily any written custom; is that right?

  MS. CANFIELD: Objection. You can answer.
- A. So each setting is different.

- Q. I guess I'm going to ask you, like for example, the write-up goes on to say that Dr. Kaye engaged in the unauthorized recording of private health information. Now, isn't that an allusion to PHI and/or HIPAA in that sentence?
- A. Yeah. Generally, it's referring to patient confidentiality. I don't know what specific law they're referring to.
- Q. And in this instance, Dr. Kaye is not treating any patients. She's engaging inmates; am I right?
- A. She is examining inmates for the purposes of court evaluations.
- Q. Right. So there's no treatment component to what she does; am I right?
  - A. You're correct, yes.

1	Q. Okay. So then as a provider of mental
2	health, substance abuse and general medical services,
3	CHS is protected by restrictive patient confidentiality
4	laws; right? Now, that's just CHS generally. But then
5	it goes on to say that violation of these
6	confidentiality laws may lead to civil and criminal
7	penalty as well as disciplinary actions through CHS.
8	Now, Dr. Jain, what's your concept of progressive
9	discipline? I mean, to the extent that you know, what
10	are the various stages of progressive discipline?
11	MS. CANFIELD: Objection. You can answer.
12	A. Yeah. I don't know the specific stages.
13	When these matters come up, I would seek guidance from
14	HR regarding those.
15	Q. Then then it goes on to say, "You are
16	hereby reminded that protecting the confidentiality of
17	our patients is a term and a condition of employment.
18	And it should be treated seriously by all staff in the
19	execution of your duties." Now, Dr. Jain, where are the
20	patients that are being referred to in this memo?
21	MS. CANFIELD: Objection. You can answer if
22	you're able.
23	A. I'm not sure if I'm able to answer that.
24	Q. There are no patients involved in Dr. Kaye's

24

from Dr. Ford.

1 work; am I right? Α. 2 No. 3 MS. CANFIELD: Objection. That's not right. 4 Α. Dr. Kaye does not see patients; am I right? 5 Q. They are patients under CHS that are 6 Α. 7 receiving treatment under CHS. 8 Q. But she is not treating them. They're not 9 her patients; am I right? This is correct. They are not her patients. 10 Α. Okay. So it would be more accurate that the 11 Q. confidentiality of our inmates is a term and condition 12 13 of your employment, would that be right, more so than patients in this context since Dr. Kaye evaluates 14 15 inmates? 16 MS. CANFIELD: Objection as to form. 17 answer. 18 A. Yeah. I'm not sure. This is from CHS's 19 They're using the term "patients" in this 20 particular document. When we refer to our relationship 21 with the evaluee or defendant, but again, this is a memo 22 from -- appears to be a memo from CHS. 23 It's from Dr. Ford. That's what it says, Q.

1	A. Yes. From Dr. Ford, and it's referencing
2	CHS. So I think in that lens, they're choosing to use
3	the term "patients" as a broad term.
4	Q. But in all likelihood, I should be even more
5	accurate and precise, it would be defendant not patient.
6	Wouldn't that be accurate?
7	MS. CANFIELD: Objection.
8	A. I'm not again, if I am doing the
9	examination, I would use the word "defendant" myself
10	because of my relationship. But broadly speaking from
11	CHS, the term "patient" may be what they use in these
12	general descriptions. So
13	Q. And I'm sorry. I'm just trying to make
14	sure that I speed it up, so Ms. Canfield can have her
15	time. I know everyone's tired. So I just want to make
16	sure I'm being fair.
17	So the reason why I'm cutting you off is that
18	in this instance, these patients really Dr. Kaye was
19	never employed as a treating physician at CHS. Would
20	that be accurate?
21	A. I don't know if she was ever employed in that
22	position, but in the course of my time, she was a
23	forensic examiner.

Q. And that means she had an evaluee/defendant

1 relationship with -- with the defendants that were -were evaluated; right? 2 3 Α. Yes. Okay. And then Dr. Kaye seemed to have been 4 0. 5 made to execute a CHS confidentiality statement. Now,

did this confidentiality statement exist before this memo was issued to her?

MS. CANFIELD: Objection to form. You can answer.

- I'm not sure if I can answer that. I Α. don't know when that existed.
- Q. Did you participate in the drafting of the confidentiality statement, Dr. Jain?
- Α. I don't recall.

316

6

7

8

9

10

11

12

13

14

15

16

17

20

- Okay. And then the last thing I'm going to ask, did you participate in the drafting of this particular memo?
- 18 I don't recall specifically my involvement Α. with this particular memo. 19
- Did you agree that Dr. Kaye should have been actually issued this memo based on her recording of the examination? 22
- 23 Α. I was not posed with that particular 24 decision. So I can't say if I agreed or disagreed.

1 certainly, as I outlined, saw some general concerns 2 regarding recordings in our court clinics and wanted to 3 make sure that we had a process regarding how to handle But I didn't have a specific opinion on whether 4 5 or not what the repercussions should be for Dr. Kaye. 6 MS. HAGAN: Well, thank you, Dr. Jain. 7 is all I have. MS. CANFIELD: All right. Just a couple of 8 9 quick questions. And Ms. Hagan, if you could 10 please put Exhibit Number 7 back up, please, and 11 go to page 5. I think it is page 5. 12 MS. HAGAN: Here it is, yes. 13 MS. CANFIELD: Can you scroll down. I don't 14 know if this is a -- all right, page 6 then. 15 16 **EXAMINATION** BY MS. CANFIELD: 17 18 I don't see it here. But Dr. Jain, did you 0. see a part in this letter to the Board of Corrections 19 20 where Dr. Kaye alleged that -- that management at CHS 21 refused to staff the Bronx Clinic? 22 MS. HAGAN: Objection as to form. You can 23 answer. 24 Yeah, I believe there was a section regarding Α.

staffing earlier.

non-operational."

318

1

7

24

- Q. I believe it's actually right here in the
  bold under retaliation and gross mismanagement. If you
  could go back. In bold it says, "I've been prevented
  from doing my job because CHS has refused to staff the
  Bronx Court Clinic, rendering the service
- Did you and/or CHS make efforts to hire examiners for the Bronx Court Clinic?
- MS. HAGAN: Objection as to form.
- 11 A. I'm sorry. Can you repeat the question, 12 please.
- Q. Did you and/or CHS management undertake any efforts to hire examiners or staff the Bronx Clinic with examiners?
- 16 A. Yes.
- Q. Okay. And did you have any difficulties in hiring for the Bronx Clinic?
- 19 A. Yes.
- MS. HAGAN: Objection.
- Q. Can you explain?
- MS. HAGAN: I'm going to have to ask that Dr.

  Jain -- give me an opportunity to object and then

proceed with answering the question. I also want

1 to note for the record that the last two questions 2 that were posed by counsel were preceded by 3 objections, so the record is clear. You can 4 proceed. I'm sorry. 5 MS. CANFIELD: Do you mind reading back the 6 question. 7 (The requested testimony was read back.) 8 9 10 0. Can you explain, Dr. Jain? 11 MS. HAGAN: And I'm objecting again as to its 12 form. 13 There were challenges in retaining and Α. Yes. 14 recruiting staff for the Bronx Court Clinic. 15 described, there was a tense environment. There were 16 concerns raised to me by Dr. Brayton, Dr. Mullan as we 17 discussed previously. Also concerns from other 18 directors, from other clinics regarding having their examiners go to the Bronx as well to do examinations due 19 20 to the concerns that were occurring there in the Bronx 21 as well. 22 And again, I know you testified to some of 23 those concerns earlier, one being the tension. And I

believe you testified between Dr. Kaye and perhaps some

of the attorneys at Legal Aid pressuring some of the examiners. Were there any other issues that were expressed to you that contributed to that tension?

MS. HAGAN: Objection as to form. Leading.

19

20

21

22

23

24

Α. Yeah. There were general issues such as scheduling. Dr. Kaye had a limited schedule of what days she would do examinations, and oftentimes would need to take time off from work. So to have two examiners -- I'm sorry, a co-examiner also line up with her schedule. That was one challenge. There was also resistance about working with certain examiners, as well as other examiners expressing their concerns about providing examinations in the Bronx Court Clinic, also, because of that environment and interactions there in the court clinic. And so those tensions created some difficulty in being able to have staff go to the Bronx Court Clinic.

There were also a lot of -- a number of aggressive emails from Mr. Bloom regarding the Bronx Court Clinic that were known citywide. And even at some instances, our examiners, when they had interactions with Mr. Bloom, they raised concerns, and again, an adversarial process -- posture from him as well. And so there were concerns about interactions in the Bronx

1 Court Clinic, staffing there, having examinations produced -- having examiners go there to do the 2 examinations and also hire individuals there due to 3 those concerns about retention and recruitment. And you 4 know, again, one of the key things there was that Dr. 5 Brayton and Dr. Mullan, as they were leaving, they 6 7 described that situation to me. So that further reaffirmed some of the challenges there in the Bronx. 8 9 0. Okay. And after the departure of Dr. Brayton 10 and Dr. Mullan, were you able to hire a replacement for 11 those two? 12 As I recall, I don't know the exact timeline, but I don't believe those two we had -- we were able to 13 hire for those two positions there. I know we did hire 14 15 individuals in the Bronx at some point after their 16 departure. I just don't recall the exact timeline. 17 Q. Okay. One last question. Much earlier 18 today, you were asked by Dr. Kaye's counsel about any 19 adversarial tone or interactions with the other male 20 directors of the court clinics, specifically Dr. Winkler 21 and Dr. Mundy. Counsel did not ask about the other 22 female director of the court defendant, and that would 23 be Dr. Owen. In totality, would you describe your 24 relationship with Dr. Owen as being adversarial?

1	A. No.
2	Q. Okay. Did you ever have disagreements with
3	Dr. Owen?
4	A. I would say naturally as part of of when
5	the transition to CHS occurred, there were different
6	interactions from each of the directors regarding
7	policies, regarding their opinions, and at times
8	disagreement with certain policies, and that would take
9	them into account as I would each of the directors. So
10	in that context, yeah, there were sometimes where I
11	would say there were professional discussions,
12	professional disagreements. But on balance, the
13	totality of my interactions with the other directors, I
14	would not classify as adversarial. I would classify
15	those as more collegial in the efforts to work together.
16	Q. Okay. And is that something you found
17	lacking in Dr. Kaye?
18	A. Yes. That was a significant area of
19	challenge for me.
20	MS. CANFIELD: All right. I have no other
21	questions. Thank you, Dr. Jain.
22	MS. HAGAN: I would like to follow up with a
23	few questions. I promise. No more documents.
24	FURTHER EXAMINATION

BY MS. HAGAN:

8

14

15

16

17

18

19

20

21

were coming up there.

- Q. I just have a question about your feelings towards Dr. Kaye. First off, did you like Dr. Kaye as a person, Dr. Jain?
- A. I had no problems with individuals. I was very open to interacting and having a collaborative collegial relationship with each of the directors and each of staff. I made efforts towards that.
- 9 Q. That's not what I asked you. I asked if you 10 liked her as a person.
- MS. CANFIELD: Objection. You can answer.
- A. As an individual, I had no personal issue with her.
  - Q. This is despite the fact that she allegedly stole your notes; is that right?
  - A. I had concerns about my interactions with her. I was also supportive of concerns that she raised.

    But -- so I made efforts to try to have those types of positive interactions with her and try to mend a working relationship despite some of those key concerns that
- Q. Did you ever -- what did you think of Dr.

  Kaye as a professional?
- A. As a professional, I think there's multiple

layers of that. I think there were aspects such as I highly valued her experience in the court clinic, highly valued -- in effect, we were often in line regarding some of the basic tenets of forensic psychiatry and the procedures of forensic psychiatry. So I valued her professional views regarding that. However, I had concerns about the professional interactions both with myself and others, as I have described throughout the day today. So I would separate out her professionalism, the quality of her work versus her professional interactions with individuals.

- Q. And you described having a cordial, if not, I guess, collaborative relationship with Dr. Owen. Did Dr. Owen ever file any complaints of discrimination against you and/or CHS during the time you worked there?
  - A. Not that I'm aware, no.
- Q. Did Dr. Owen ever complain about her compensation during the time that she worked there?
  - A. Not that I recall.

- Q. Did she ever complain about staffing at the Queens Court Clinic during the time that you worked there?
  - A. At times, yes.
  - Q. Did she complain that she was understaffed at

1 the Queens Court Clinic? There were some openings that we were trying 2 to fill in the court clinics, especially early on, 3 4 including Queens. So, yes, there were discussions about 5 staffing. 6 0. Isn't it true that the Queens Court Clinic 7 had the most staff of all the centers? 8 Α. That's not true. Did Manhattan have more staff than the Queens 9 0. 10 center? 11 I believe Manhattan had more staff than Α. 12 Queens. 13 And that was headed by Dr. Mundy; wasn't that Q. -- wasn't that right? 14 15 Α. That's correct, yes. And Dr. Owen, you never had any problems with 16 17 Dr. Owen during the course of her employment; is that 18 right? 19 Again, as I've stated earlier, I wouldn't 20 classify them as problems. I would work with each of 21 the directors. At times, they would raise concerns and 22 issues. We would try and process them and address them 23 together. So I considered them as healthy discussions,

disagreements, professionally. But I did not have what

24

### ABHISHEK JAIN, M.D.

I would call necessarily -- you know, I don't know what exactly problems is referring to, but you know, if those issues came up professionally, we would try to resolve them with each of the directors, male and female.

24

- Q. So what distinguishes a healthy discussion with a colleague and an adversarial dynamic with a colleague?
- Α. So a number of things. If there's a question about a policy or procedure or substantive issues regarding our work, I think those are healthy. To start going and taking someone's notes out of the chart, to start having a environment that is intimidating, having difficulty with staff being able to approach you, I would say that that starts crossing the line. reminded also of one interaction where I was trying to understand Dr. Kaye's circumstance. And she made the comment that I don't have children, referring to me. And I don't know what she's going through, and my wife might know what I'm going through. And I thought that crossed the line, bringing my -- - me, my wife, anything personal about my children or not having children. thought that was another example of something where it was just crossing the line and becoming adversarial rather than trying to be collegial and trying to work

 3
    your wife is a child psychiatrist?
                MS. CANFIELD: Objection as to form.
 4
                                                       You can
          answer if you want. I mean, not if you want.
 5
          mean if you're able.
 6
 7
          Α.
                I don't know why she mentioned my wife.
                                                          Ι
    don't know what her --
 8
 9
                Is your wife a child psychiatrist?
          0.
10
          Α.
                I'm sorry?
11
                Is your wife a child psychiatrist?
          Q.
12
          Α.
               She is a child psychiatrist, yes.
13
          Q.
                And isn't Dr. Kaye board-certified in youth
14
    and adolescent psychiatry herself?
15
          Α.
                I believe so, yes.
16
                       And you keep mentioning the situation
17
    with your notes. But you haven't been able to prove
18
    that it was, in fact, Dr. Kaye that took those notes; am
19
    I right?
20
               MS. CANFIELD: Objection. You can respond.
21
                I believe I answered this.
          Α.
22
                Let me rephrase my question, so I can get a
          Q.
23
    more precise answer. Did you see Dr. Kaye remove the
24
    notes from your files yourself?
```

328

## ABHISHEK JAIN, M.D.

1	A. No.
2	Q. Okay. And as far as the questions that Dr.
3	Kaye was responding to, was there ever a time that Dr.
4	Kaye ever told you that she was not going to respond to
5	your question, or she did not want to respond to your
6	question?
7	A. Which question?
8	Q. Any question. As her supervisor, do you
9	recall
10	A. Yes. As I outlined earlier, she said that
11	she did not want to meet with me. I was told that by
12	others.
12	others.
13	Q. Did Dr. Kaye tell you herself
14	A. She
15	Q I don't want to meet with you, Dr. Jain
16	A. No.
17	Q for any reason?
18	MS. CANFIELD: Let him respond, please.
19	A. So she questioned why I wanted to meet with
20	her and
21	Q. Did she say I don't want to meet with you?
22	MS. CANFIELD: Let him respond, please.
23	A. I'd like to finish.
24	Q. Okay. Sure.

1	A. So she told me she questioned why I wanted
2	to meet with her. And then when I was informed by
3	others that as we had talked about, that she told him
4	that she did not want to meet with me alone. Based on
5	that pattern, based on those discussions, and
6	furthermore based on my discussions with Dr. Ford, it
7	was determined that yes, it's not reasonable to try to
8	try to address that directly myself because of those
9	concerns. It was not a situation where I felt
10	comfortable being able to ask her those types of
11	questions, especially with the context that I've
12	described throughout the day for myself and as well as
13	other staff of being targeted, of having that type of
14	hostile, tense environment. All those things suggested
15	that having those types of discussions would be very
16	challenging with her.
17	Q. But at the end of the day, were your notes
18	ever found, Dr. Jain?
19	A. That I'm not aware of.
20	Q. So your notes went missing in perpetuity
21	after Dr. Kaye allegedly stole them from the file?
22	A. I am not sure. I don't recall what occurred
23	after I reported them. I discussed them with Dr. Ford.
24	I don't know what happened to them afterwards. I don't

### 330 ABHISHEK JAIN, M.D.
